

COMMITTEE READY TO BID FOR CONVENTION

The Organization of Every Branch Will Be Completed To-Day by Mr. Crimmins, Who Has the Work of Obtaining Pledges to the Fund Well Under Way.

Many More Prominent Men Consent to Go to Washington and Aid the Presentation of New York's Claims Before the Democratic National Committee.

New York has only six more days to work for the National Democratic Convention, but the outlook is most encouraging. John D. Crimmins believes that the bid New York will make to the National Committee on Jan. 12 will be in perfect shape when the large committee of citizens starts for Washington to present New York's claims.

Mr. Crimmins expects to-day to have fully organized every working branch of the committees and to have got well on his way toward collecting the pledges for the fund which will be necessary to bring the convention to New York.

"I continue to report progress," Mr. Crimmins said to-day.

FAMOUS MEN ON THE COMMITTEE.

The committee that will go to Washington will leave New York on the morning of Jan. 12. This committee will be composed of one hundred or more of the most prominent men in New York. Besides Mr. Crimmins, J. Edward Simmons, Perry Belmont and other men of national fame in politics and finance, there will be on the committee such men as Henry Siegel, Jules S. Ehrlich, B. J. Greenhut and I. Saks, merchant princes; W. L. Jaques and a dozen other New York hotel men, Sam Shubert and Oscar Hammerstein for the theatrical men, representatives from the wholesale and retail liquor dealers, Congressmen and State Senators, politicians, both Republican and Democratic; Judges and lawyers. It will indeed be a representative body of New York business and professional men.

This week must be devoted to collecting the funds or pledges to the fund. When Mr. Crimmins makes his bid for New York he wants the fund or pledges for the fund in hand.

MORE MEN ON THE COMMITTEE.

Every mail brings in new names of men who are anxious to act on the committee that will go to Washington. These are a few of the men who have joined the committee to-day:

going to Washington and appear with Mr. Crimmins before the National Democratic Committee, but that he was going to take a delegation from Kings County with him.

"The people of New York are going to get this convention," said Senator McCarren. "They now realize what a great good can come of it. I tell you that I believe if the convention is held in New York it will mean Democratic victory beyond doubt next fall. Look how the Evening World has enthused the people up to this time. I hear nothing but talk of getting the convention, and we must and shall have that convention. "TOSCA" RENDERED WELL IN ENGLISH

Gertrude Rennyson, Mr. Sheehan and Mr. Goff Please a Large Audience of Enthusiastic Music Lovers.

Whether it was a real asbestos curtain—absolutely fireproof—you could read it on the curtain yourself—or the excellent rendering of "Tosca" that roused shivering Harlem into warm enthusiasm at the West End Theatre last night is an undecided question. At any rate, the curtain was a big success and was warmly greeted. "Tosca" was a success, also, and Henry W. Savage's English Grand Opera Company gave a most satisfactory interpretation of Puccini's masterpiece. Gertrude Rennyson, in the character of Sardou's famous heroine, sang and acted the role of the soul-tortured woman who betrays her lover's secret only when agonized by his cries of pain, with artistic shading and comprehension. Especially did she give the best exhibition in the scene in Scarpi's chamber, the tyrant Chief of Police, Scarpi, the tyrant Chief of Police, was sung by Mr. Goff, whose rendition

Shock in Collision on N. Y. C. R.R. Caused Heart Trouble.

A heavy verdict was rendered against the New York Central & Hudson River Railroad Company to-day in the Supreme Court before Justice McCall in the case of Alfred N. Newton against the company. It was the last of the cases to be tried as a result of the collision in the tunnel on Jan. 8, 1902. Newton was represented by Alfred and Charles Stecker. The plaintiff claimed that he was a passenger in one of the New Haven cars and received a shock as a result of the collision, as a result of which he was afflicted with heart trouble. Several experts testified that the shock caused the heart trouble. On behalf of the company Austen G. Fox called a number of witnesses, who testified that the plaintiff had a weakened heart prior to the accident. The jury after a very short deliberation returned a verdict in favor of the plaintiff for \$12,500. Newton did not have a visible injury as a result of the accident.

Just a Postal. That is All. No money is wanted from you nor from him. I ask only a postal card, and I ask a word of humanity. I will arrange with a druggist nearby that he may take six bottles of Dr. Shoop's Restorative. He may take it a month at his risk. If it succeeds, the cost is \$2.50. If it fails, he will pay the druggist myself. And the sick ones are more than I can meet you—for even ten minutes—I would forever convince you that I have what these sick ones need. More than that, they must have it, for most of them can never get well without it. But I can meet only a few, so I take it as my duty to let you know that I have the past 12 years I have furnished my Restorative to hundreds of thousands of these terms, and 99 out of each 100 have paid. I will pay just as willingly if you have had your Restorative. My Restorative is the result of my lifetime's work in learning how to strengthen the inside nerves. I don't doctor the organs, but I bring back the nerve power, which none operates every vital organ. I give the weak organ power to do its duty, as you would give a weak engine more steam. My way never fails, save when a cause—like cancer—makes it impossible. No case is too difficult for I have watched the remedy succeed in the most desperate cases that physicians ever meet. You know some sick one who would be well with my help. Won't you let me furnish the help? MILLER'S SOAP Made with Naptha is soap made the old-fashioned way—so thoroughly boiled that all the ingredients get together. Naptha, too, put in thoroughly. Cold-mixed soaps have layers of fat, alkali, etc.—greasiness for some clothes; destruction for others. But that's the easy and cheap way to make it. This good, old-fashioned, honest way of making Miller's, combined with the modern idea of naptha help, is what shortens wash-day to wash-hour, and makes the work better—whiter clothes, stronger cloth. We call this soap The Half-hour Soap because it separates dirt, grease and stain from the clothes while you wait—and rest, in half an hour. This way: wet the wash; rub on Miller's Soap made with naptha; roll up and put to soak half-hour in cold or slightly warm water (if it's your way, use hot water); then rub a little; rinse out and hang out. That's all—perhaps six hours' work saved. Use Miller's everywhere—rough wash or daintiest fabric—its sweet, pure oils help everything. For everything but clothes, get Miller's Powerine with ammonia, the quick cleaner and disinfectant. Insist on Miller's Soap and Miller's Powerine. Your grocer can get them—if he is slow about it, write to The Pennsylvania Soap Co., Hudson and Bank Sts., New York, and you will get what you want. Made by THE PENNSYLVANIA SOAP CO., Factory at Lancaster, Pa., and Buffalo.
