Our annual February Men's trousers sale

2,500 pairs Men's trousers to-morrow 2.25

A SALE that always comes in February, just when you need an extra pair of trousers to piece out the season.

We selected the materials for this sale along last November—had them made during periods when manufacturers were short of orders—in this way we got the prices down much lower than if we bought in the regular way—bought the materials at end-of-season prices—saved on the making—the benefit goes to you.

Pegtops—for stylish young men. Medium cut—for the conservative dresser. Stout cut—for the corpulent man. Extra sizes—for the very large man.

This sale provides business or semi-dress trousers at less than you could buy the material—and the prices, as you will admit, are less than half.

When we say less than half price don't want you to think this is just a remark dropped in to lend to the drawing strength of the advertisement—we do not do business that way—there's not a pair in the lot where the price is more than half—and a great many pairs are worth over \$7.50.

Here are the fabrics—neat stripes, worsteds in silk mixed effects, also fancies, nobby Scotch effects in every desirable pattern—cassimeres, tweeds, every color and style—all made according to the very latest styles.

\$2.25 Men's trousers at less than half price—a yearly event especially planned to supply the wants of those who need extra trousers to finish out the season.
