

BUILD SUBWAY NOW THE CRY OF ALL FLATBUSH

Meeting of Citizens Called
to Demand that Work
Begin at Once.
HELD UP MANY MONTHS.
One of the Most Important
Links in the Entire
Brooklyn System.
PEOPLE ARE AROUSED
At Meeting To-Morrow They Will
Make Known Their Great
Indignation.

Citizens of Flatbush have called a meeting for to-morrow night to protest against the delay in building the Flatbush extension of the Brooklyn subway. They say that it is the most important link in the whole system of Brooklyn transit, and that it will make the subway system available to more than 200,000 passengers daily, who will otherwise be entirely dependent upon trolleys to reach Manhattan.

Over two years have elapsed since the franchise was granted for the Flatbush extension of the Brooklyn subway, and not a stroke has been done yet toward building it. The franchise provides for an extension of the Fulton street subway from Flatbush avenue junction, out Flatbush avenue to the Wilkenth entrance at Malbone, thence out Ocean avenue to Parkside avenue.

From Flatbush and Malbone street the line is to have eight tracks, out Ocean avenue to Parkside avenue—Ocean Parkway, as it is also known—a distance of about fifteen hundred feet. In order to give this width it will be necessary for the line to extend a few feet under the park, and this will destroy about two hundred trees, mostly black maples. The trees are from six to ten inches in diameter and average fifteen years old, according to the park gardeners. These trees are the bone of contention between the people and Park Commissioner Kennedy, who is holding up the subway by his refusal to permit construction which will interfere with the park trees.

Might Replace Trees.
The Flatbush Taxpayers' Association has consulted with expert landscape engineers, and every one consulted has given the opinion that the trees destroyed can easily be replaced, or in their place arrangements can be made which will make as pleasing landscape features as now exist.

The whole population of Flatbush is indignant, and the meeting at the Knickerbocker Field Club, in East Eighteenth street, will be a warm one. Prominent citizens will address the meeting, among them Congressman Waldo, ex-Congressman Bassett, ex-Senator Brush, ex-Park Commissioner Richard Young, Sheriff Hesterberg and others. If Park Commissioner Kennedy's ears are not already hardened they will certainly burn when the crowd begins talking about him to-morrow night.

"This line," said Sheriff Hesterberg, "is far the most important link of the Brooklyn system of passenger transportation. It will connect Manhattan by subway with the whole of Flatbush and the entire country beyond to Coney Island and Manhattan Beach. At Flatbush avenue and Ocean avenue there are at least twenty trolley lines running cars from all over the section, and at Parkside avenue connection will

SHAW ANSWERS M'ADDOO.

Police Commissioner's Dramatic Criticism Worse than Play.

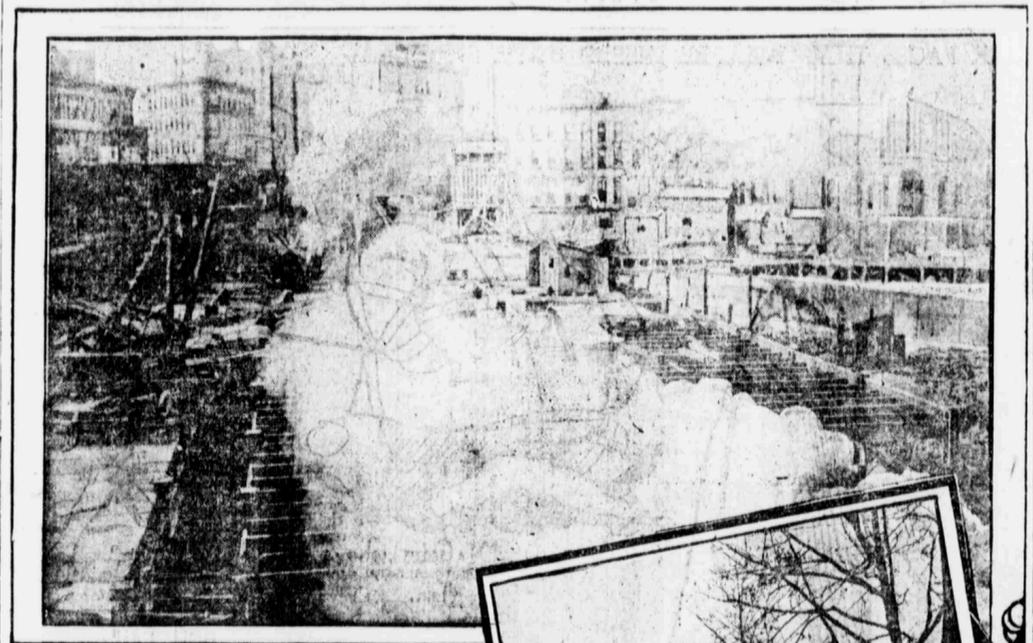

LONDON, Nov. 15.—George Bernard Shaw has just taken occasion to answer the severe criticisms against his play "Mrs. Warren's Profession." His denials that the New York reviews by critics are worse than the play itself, and Police Commissioner McAdoo's report on the play is denounced in round terms. Mr. Shaw explains that his business is to interpret life and not to teach moral lessons.

be made with the Brighton Beach underground railroad, which is now being widened to four tracks to accommodate the increase of traffic.

Some Important Features.

At the same point are several other trolley lines which will form important features of the subway system. The present line is about a mile and a half long, and could be completed by the time the other lines of the subway are ready for traffic, but they are held up by the shortsighted policy of the Park Commissioner, who has refused to call his attention to the fact that it is necessary to get the matter through the Board of Estimate, the Law Department, the Mayor's office, and all the Borough departments that were interested, and all this has been done, only to have the matter held up by a Park Commissioner, whose actions have not at all times been just what was desired by his constituents, and whose attitude now is making him many strong antagonists.

"We have six miles of trees there, and every other stretch of a equal length is better than the one that will be affected by the construction of the subway, yet because about 200 trees will be temporarily removed, the Park Commissioner, who stands in the way of the welfare of the whole Flatbush and Seaside district.

"We have even tried to get the Subway people to apply for modification of their charter so as to allow a change and construction that will not interfere with Kennedy's park, but they refuse to make the attempt, on account of the multitudinous boards that have to consent, saying that they have had trouble enough to get the privilege they have

ST. LOUIS, Nov. 15.—Under the impression that her grandchildren were in danger, Mrs. Catherine Haverlock, sixty-six years old, re-entered the burning home of her daughter last night and was incinerated before assistance could reach her. Mrs. Haverlock's daughter and grand-children had escaped by another entrance and were searching for her when she braved the flames to rescue them.

ISLE OF PINES CANNOT SECEDE

Washington Is Against Movement of Americans in Cuba.

WASHINGTON, Nov. 15.—It has been known for several months that American residents in the Isle of Pines were becoming restive under Cuban control, but no intimation has been received in official circles here that they intended to resort to radical measures to assert what they believe to be their rights as American citizens.

The announcement that at mass-meeting of residents of the island delegates were chosen to come to Washington to antagonize the treaty pending before the Senate for the formal transfer of the island to the Republic of Cuba was not surprising to administration officials; but surprise was created at the reported election of a territorial selection commission on the island and the selection of important officials to administer the affairs of that government.

It can be said that the would-be seceders will receive no encouragement from the administration. Secretary of State Root, when he was Secretary of War, was very clear and emphatic on the point that the Isle of Pines belonged to Cuba as a matter of right, as a matter of international law and as a matter of justice.

BLAZE BURNS OFF BEARD.

Plumber Finds a Leak, but Loses His Whiskers.

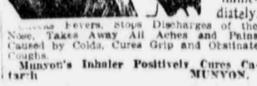

James Connolly, a plumber with five whiskers, went into the basement of a saloon at Forty-third street and Sixth avenue to-day with a candle and a box of matches to find a leak in a gas pipe. He found it and the explosion almost frightened several cash customers away from the free-lunch stand in the saloon.

When Connolly came upstairs, closely pursued by the flames, he had left his whiskers behind. Someone shouted that a hair mattress factory in the vicinity was on fire and turned in an alarm. The blaze did about \$100 damage, not counting the personal loss sustained by the plumber.

200,000 people who will use the Subway daily if it is built out Flatbush and Ocean avenues as proposed, and who will otherwise be deprived entirely of the benefit of rapid transit.

William C. Redford, ex-Commissioner of Public Works, and George W. Wilson, President of the Flatbush Taxpayers' Association, gave views practically coinciding with those expressed by Sheriff Hesterberg. "The Fulton and Flatbush junction, now under construction, is being built to accommodate the extension," said Mr. Redford, "and it is in a fair way for speedy completion within the time limit as extended by the board, but unless something is done it will be a long time before we have the facilities that were guaranteed to Flatbush when the subway was first planned and the franchises were granted."

rapidly progressing, but not a link of work has been struck on the extension, and the company says that nothing will be done until this obstacle is removed. There is a deadlock, and we are going to try and break it in the interest of

BULLDOG GUARD CAUSE OF DIVORCE

Gerhart Put Animal on Duty Over Wife During His Absence from Home.

(Special to The Evening World.)
YORK, Pa., Nov. 15.—Because it was shown in court here that her husband, Jacob W. Gerhart, was in the habit of placing a ferocious bulldog as a guard over his wife when he was not at home an absolute divorce was promptly granted.

Witnesses testified that Gerhart, who was jealous, would, upon leaving his home, compel his wife to enter a small building which had but one door and would chain the bulldog at the entrance.
