

GREATEST OCEAN STEAMSHIP TERMINAL IN WORLD IS NOW PLANNED FOR JAMAICA BAY

(Drawn by Artist Mortimer for The Evening World.)

E. H. Harriman Back of Project Calling for Miles of Piers and Warehouses—Connected with Railroads.

The greatest ocean steamship terminal in the world is planned for Jamaica Bay. E. H. Harriman is back of the project, which calls for the erection of miles of piers and warehouses and a direct connection with the Long Island and Pennsylvania railroads. Mr. Harriman owns a tract of 400 acres at Rockaway Point and has options on hundreds of acres in addition between Rockaway Point and Rockaway Beach. He also holds options on land on the Sheepshead Bay and Flatlands side. There is plenty of water along these stretches, the depth varying from twenty to sixty feet.

In order to make Jamaica Bay available for big ships a new channel will have to be dredged from the ocean through the inlet. A great freight terminal in Jamaica Bay will obviate the necessity for the long and tortuous trip up the lower and upper bays from Sandy Hook. It will be possible to load cars direct from the ships and transfer them to the city by way of the new Ward's Island Bridge. Direct connection with the West is contemplated by means of an underground freight road across Brooklyn, under the Narrows and to Staten Island, where the Pennsylvania already owns immense railroad yards and grounds for terminals. A big bridge or a tunnel will furnish communication between Staten Island and New Jersey across Kill Van Kull.

BILL TO ROUND UP ROCKEFELLER DIES

Senate Kills Subpoena Measure Also Aimed at Andy Hamilton.

(Special to The Evening World.) ALBANY, Feb. 20.—The Brackett bill aimed at John D. Rockefeller and Andy Hamilton and insurance wrong-doers, was successfully evaded by a vote of 23 to 5. All the corporation representatives took a rap at the measure. The bill makes it a misdemeanor for a person willfully to avoid or evade service of a subpoena or any mandate that it violated the right of privacy. Senator Elmsberg declared that unscrupulous lawyers would use it to persecute people, especially at inopportune times when they might be entertaining at their homes. Senator Brackett made a vigorous defense of the bill, saying it was suggested by the absence of many of the insurance investigation witnesses from the State. The senators voting in favor of the measure were Brackett, Raines, Smith, Goodsell and Frazer.

K' OF C'S VAUDEVILLE BILL.

Big Benefit for Stricken Brother Will Be Held Feb. 24. Riverside Council of the Knights of Columbus, will hold a big benefit on the night of Feb. 24, for a brother who has been stricken with physical and mental collapse, at Columbus Hall, attached to the Paulist Fathers' Church, Sixth Street and Columbus Avenue. A splendid vaudeville entertainment is assured, many top liners in the vaudeville world having volunteered to appear. Already there has been a large advance sale of tickets, but it is hoped that the occasion will be one where there is standing room only and very little of that. Among those who have given their assurance that they will appear at the benefit are Emma Hart, Raines, Smith, Goodsell and Frazer.

MAYOR PRAISES COL. MIKE.

He Says Padden Has Lots of Executive Ability. Mayor McClellan was asked to-day about the appointment of Col. "Mike" Padden as Water Register. "Col. Padden is a competent man," the Mayor said, "and has much more executive ability than people give him credit for. He will make a good man for the place."

WALL STREET.

TUESDAY, Feb. 20. Some of the most influential members of the Stock Exchange went into the board room to-day expecting to emit an attack on the coal road stocks. The decision of the United States Supreme Court against the Chesapeake & Ohio yesterday, however, had little effect on the market. Experts in railroad traffic informed their Wall Street friends that the decision forbidding railroad companies from selling coal and making special contracts for hauling the same had no particular significance and would not affect any other road than the Chesapeake & Ohio. The enormous coal business of the Reading Company is not handled by the Reading Railroad corporation, but by the Reading Coal Company. The attempt to hammer Reading on the supposed bearish effect of the Chesapeake & Ohio decision was not successful. Chesapeake & Ohio stock was not a feature of the day's trading.

The peculiar course of the United States Steel stocks excite more interest than anything else. Speculators who study the conditions of the steel industry cannot understand the present weakness of the steel shares. There has never been a time when the demand for finished steel was as urgent as it is now. Officers of the United States Steel Corporation say that they have been obliged to refuse orders for many thousands of tons of steel because their extensive plants are already overtaxed with work. The orders now on the books of the United States Steel Corporation are close to 8,000,000 tons, the largest amount of business in the company's history. There is more structural steel in demand now than ever before. The leading steel and iron trade papers have made a canvass of this country, and they report that building operations along extensive railroad needs, now require 500,000 tons of structural steel.

James J. Hill's deferred departure for the South is said to have been caused by his desire to close the details of the transfer of the Great Northern over lands to the United States Steel Corporation. The Executive Committee of the latter corporation is considering this matter to-day and an official announcement is expected to-morrow. The shares of Great Northern and Northern Pacific advanced this morning on the belief that this ore land deal is going through without any further delay. A temporary hitch in the negotiations was caused by Mr. Hill's demand regarding the minimum amount of ore to be mined yearly. Wall Street is awaiting the outcome of these negotiations. It is expected that the deal is a Great Northern 'melon' expected, but some kind of a distribution to Northern Pacific shareholders is expected for the same time. While the Northern Pacific has no interest in the ore land deal its management is dominated by Hill, and the Hill following in the Street has been given to understand that Northern Pacific developments are to follow the consummation of the Great Northern deal. To-day's upward movement of the Great Northern and Northern Pacific shares was entirely due to this synthetic, except that the buying of Northern Pacific was on much the largest scale.

Some curiosity has been excited in Stock Exchange circles by the postponement of James J. Hill's departure to San Francisco and thence to the Orient. Mr. Hill was scheduled to start westward last Friday. He was particularly active in Wall Street yesterday, and he told some of his friends that he was too busy to go. The rumor is that Mr. Hill is carrying in New York is associated with some proposed action of the Union Pacific directors. Chicago and Northwestern stock, which gained 1 1/2 points yesterday, played additional strength to-day. The subscription rights in connection with the proposed issue of \$16,257,400 of new common stock at par will yield a generous bonus to the stockholders of record. Even with this new issue the entire capitalization of the Chicago and Northwestern is comparatively small for so large a railroad system. The total including the new stock, is \$75,217,300 common and \$2,385,120 of the preferred. The statement was made to-day officially that the Chicago and Northwestern's net earnings for six months last year were sufficient to pay the full year's dividends on all of the stock.

THE CLOSING QUOTATIONS.

Table of closing quotations for various stocks and commodities. Columns include stock names, prices, and changes. Includes entries for U.S. Steel, Am. Steel, and various commodities like wheat and cotton.

THE EASY OIL.

Scott's Emulsion is "the easy oil"—easy to take, easy in action. Its use insures deliverance from the gripping and nauseating sensation peculiar to the raw oil. Nobody who has any regard for the stomach thinks of taking cod liver oil in the old way when Scott's Emulsion is to be had. It is equally certain that no one whose health is properly regarded will accept a cheap emulsion or alcoholic substitute for Scott's Emulsion. It fulfills every mission of cod liver oil and more.

WHEAT PRICES DOWN, CORN GETS SUPPORT.

Wheat started at a loss in the market to-day. May leading the decline. There was no change in the bearish crop conditions, and weakness in the outside markets helped the cut here. May wheat sold here under 88 cents to-day, thus making a new low record for the season. The decline was based on heavy liquidation, bearish weather news and the continued absence of foreign demand. Corn was well supported. New York's opening prices were: Wheat—July, 87 3/8; May, 88 1/2 to 88 5/8; September, 87 1/2 bid; July, 87 1/2 to 88 1/8; September, 86 1/8. Corn—May, 41 1/4; July, 42 1/4 to 43 1/4; September, 41 1/4. Chicago's closing prices were: May wheat, 87 3/8 to 87 1/2; July, 87 1/2 to 88 1/8; September, 86 1/8. Corn—May, 41 1/4; July, 42 1/4 to 43 1/4; September, 41 1/4. The closing prices were: February, 10 1/2 to 10 1/4; March, 10 1/4 to 10 1/2; April, 10 1/2 to 10 3/4; May, 10 3/4 to 10 1/2; June, 10 1/2 to 10 3/4; July, 10 3/4 to 10 1/2; August, 10 1/2 to 10 3/4; September, 10 1/2 to 10 3/4; October, 10 1/2 to 10 3/4; November, 10 1/2 to 10 3/4; December, 10 1/2 to 10 3/4.

COTTON SLUMPS ON HEAVY SELLING ORDERS.

Cotton was 2 to 3 points lower in the first run of trade to-day, and later gave way further in an excited break under heavy stop loss selling, which forced quotations of 14 points before the market could absorb the offerings. March was off to 10 1/4 and May to 10 1/2. The opening prices were: March, 10 1/4 to 10 1/2; April, 10 1/2 to 10 3/4; May, 10 1/2 to 10 3/4; June, 10 1/2 to 10 3/4; July, 10 1/2 to 10 3/4; August, 10 1/2 to 10 3/4; September, 10 1/2 to 10 3/4; October, 10 1/2 to 10 3/4; November, 10 1/2 to 10 3/4; December, 10 1/2 to 10 3/4.

ALUMET-HECLA DIVIDEND.

BOSTON, Feb. 20.—Alumet and Hecla directors to-day declared a dividend of 15 per share.

Hostler Inherits \$28,000.

ATLANTIC CITY, N. J., Feb. 20.—By the death of an aunt in Brooklyn Joseph James, young hostler in Tucker, on the mainland, has fallen heir to \$28,000 in Long Island realty. James has quit his job and will go to New York for his fortune.

Sunday World Wants Work Monday Wonders

Work Monday Wonders. The Sunday World wants to know what you will do on Monday. It says that the world is full of wonders and that you should be prepared for anything. It encourages people to be optimistic and to face the future with confidence.

WELLS' "MIRACLE OF HEALING" POWDER.

Danger of Gangrene, Lock Jaw

DANGER of Tetanus, Gangrene, of Infection from Rusty Nails, Tin, Pin Scratches, Pistol or Gun Shot Wounds, Dog or Snake Bites, Scratches or Stings from any animal or insect, Cutting Corns or Bunions, Infection from any wound, may be prevented by prompt use of WELLS' "MIRACLE OF HEALING" powder. Great cleanser and healer of indolent or foul running sores or ulcers. Invaluable as Douche, Spray or injection in offensive Catarrhal, Pelvic or Vaginal discharges. Cures Proust Flesh, Tonsillitis, Diphtheritic Sore Throat. Being Antiseptic, Disinfectant and Germicide, it is a healing phenomenon that should be in every family ready for emergencies that may arise at any hour. Get it now. Take it with you travelling. May save you the surgeon's knife; may save a finger, hand, arm, foot, leg or your life. Used as a powder, or mixed to make a salve, or dissolved in water, for a wash. Ask for WELLS' "MIRACLE OF HEALING POWDER." 25c bottles at druggists, or sent by mail promptly on receipt of price.
