

WALL STREET.

THURSDAY, May 10. Since his return from the Pacific Coast E. H. Harriman has unreservedly expressed optimistic views regarding general business conditions in particular...

movement so soon after the San Francisco catastrophe. Hence the recent surprising declines in both St. Paul and the New York Central. Within the past few days some strong combinations on the bull side have been formed and Wall Street hears from all sorts of sources that the "big fellows" are now ready to take hold of the market and keep it up progressively all through the summer.

COTTON PRICES STRONG AND TRADING ACTIVE.

Business was active, and first prices were firm at an advance of 2 to 3 points in the cotton market today. The new crop reports were particularly strong on reports of frost in the eastern section of the belt. The old crop options were bought up by speculators, but they failed to match the advance in the late deliveries.

The opening prices were: May, 11.30 to 11.37; June, 11.18 to 11.23; July, 11.21 to 11.22; August, 11.04 to 11.05; September, 10.81 to 10.82; October, 10.75 to 10.76; November, 10.74 to 10.75; December, 10.74 to 10.75; January, 10.78 to 10.79; February, 10.80 to 10.81; March, 10.81 to 10.82.

My Shirts at \$1 are the \$1.50 kind sold all around town. You save fifty cents because the maker put my name in them instead of his own advertised brand. I can prove it. Moe Levy & Co. THREE STORES: 110-125 Walker St., 1457 Broadway, 380-382 Fulton St., Bklyn.
