WHAT CHANCE WOULD THESE PYGMIES HAVE AGAINST GIANT MACHNOW?

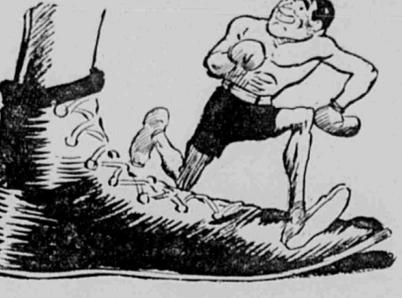

Edgren's Column

EVERYTHING is comparative. A giant is only comparatively a giant. Machnow, the Russian, who stands five feet three in his boots, would be a pygmy if other men were fifteen feet tall. He is a giant because he is so much larger than the others we see. Jeffries is a giant compared to the men he has met in the ring. We always think of him as a giant. But he isn't. Jeffries is a small man compared with this Russian freak. And he is a small man compared to many who live here in the United States. Jeffries is stronger than any man he ever met. But would he be able to cope with a man eight or nine feet tall and built in proportion, providing that the giant had any knowledge of boxing? I think not. He would be like Frankie Neil, the feather-weight, fighting Jeffries himself. Jeffries weighs 130 pounds more than Neil. Machnow weighs roughly 150 pounds more than Jeffries.

A REAL GIANT WOULD HAVE TO MAKE CONCESSIONS.

JACK O'BRIEN IS THE ONLY LIVING HEAVYWEIGHT CHAMPION WHO WOULD HAVE A CHANCE IN YES, FOOTWORK.

"GIANTS PLAYING BEST BALL EVER," SAYS MAC

Taking Into Consideration Fact that Matty, Donlin and Others have Been Out of Game, Their Showing Is Remarkable.

BY BOZEMAN BULGER.

You may have seen game fighters, game horses and the like, but for pluck and confidence of the is-carat variety listen to this from McGraw. "Do I think the Giants will win the pennant?" asked the little manager, as he repeated a question propounded to him. "Well, if they don't I will be the most surprised man on the club. "Disappointed in the work of the club? Well, I should say not. You may be a little surprised at what I am going to say, but the work of the Giants during this season is the most remarkable showing the club has made since I have been at its head. Think it over and you will agree with me. Here we are in June only two or three games away from the lead and with a handicap that would almost take the heart out of any set of players in the country. Donlin, our heaviest hitter, has been out for weeks, and Mathewson has not been up to his real form since the season began. Others have suffered from sickness, and still we are plugging along, leaving close to the top. "In fact," continued Mac, "up to date we have lost but two series of games during the season. The first we dropped in Pittsburgh and the second Chicago took them a few days ago. Still, we trimmed them out West, and that's an even break. "Now, you must also bear in mind that the other clubs have not had their humps. Just wait till Pittsburgh and Chicago get some of their best men laid up, and you are likely to see a change. We have weathered the storm without being very heavy losers, and from now on I look to see the boys forge ahead.

So I can't see any just reason why some of our friends have got weak-hearted. "Yes, if everything is all right at starting time, we will likely pitch White this afternoon." "Now, if the little fellow on whose shoulders would rest the responsibility of defeat feels that confident about it, you distinguished fans ought to brace up and take a lesson in nerve. "I shall never forget a game we once played in said Mattie yesterday. "When it broke up because we had only one ball. About twenty balls had been fouled over the fence, and we tried to finish with the one remaining. I was on third and a fellow named Browning was showing the club has made since I have been at its head. Think it over and you will agree with me. JIM JEFFRIES COULD NOT EVEN REACH MACHNOW'S CHIN.

ANSWERS TO QUERIES

Will you kindly answer the following inquiry? A says that the game the New York Nationals lost to the Philadelphia Americans was by a score of 1 to 0. B says that the New York Nationals lost that game by a score of 3 to 0. The game referred to is the only game the New York Nationals lost to the Philadelphia Americans in the post-season series of last season. Yours truly, J. C. R. It is right. Kindly let me know through your evening paper this play: A, the first batter, reaches first base safe. B hits the first ball pitched on the ground, right at the first baseman, who stops the ball and touches first base ahead of B and then throws to second to catch A and complete a double play, and the second baseman has one foot on the second base but does not touch A. Is this a legal play? HIGGINS. A must be touched, as he was no longer forced after B was out. ARGONAUTS AT HENLEY. HENLEY, England, June 20.—The Argonaut crew, of Toronto, arrived here yesterday and immediately commenced preparations to resume their practice, interrupted since they left Canada, with the exception of using rowing machines on board ship. B. W. West, of Philadelphia, who is entered for the Diamond Sculls, was out again on the river this morning.

ATTELL AND NEIL BATTLE JULY 4

Little Californians Clash for 20 Rounds Before the Pacific A. C.

The next championship battle to be decided in this country will be between Atte'll and Frankie Neil, the California pugilists, who will try conclusions in a twenty-round bout before the Pacific A. C., of Los Angeles, Cal., on the night of July 4, for the feather-weight title. These lads are great little fighters, and as they have been anxious to clash in a long-distance bout for the championship their mill ought to be one of the cleverest and fastest ever witnessed out on the coast. The winner will be matched to fight Joe Bowker, the English boxer, before the same club in Philadelphia, which has been arranged by Jack McGulgan, of the National A. C., in the near future. Corbett says he has been in the city since he was a child, and hereafter will be fit when he enters the ring. Harry Lewis, the Quaker City light-weight who stood off Joe Chase for six rounds in Philadelphia last week, has been secured to meet Tommy Fundergast, the Western fighter, in a ten-round bout before the Grand Rapids (Mich.) A. C. on June 25. They will battle at 135 pounds, weigh in at 130 and 135, respectively. Fundergast, a winner who got \$100,000, will be a contender in the form for many months, and he is claimed to be a contender by the experts on pugilism in the West.

ROBERT EDGREN SIZES UP COLLEGE CREWS

O'Day Gives Badger Crew a Rest, but the Others Turn Out.

(Special to The Evening World.) POUHKEEPSIE, N. Y., June 20.—The sun popped up in a clear sky today at Poughkeepsie and it was the first bright day of a long dull week. The oarsmen scattered through the various college camps were anxious to get out. The water was so smooth that the wild Hudson mirrored in every detail the green and purple Catskill foothills. A week past it had been too rough for anything like a fair try-out. Early in the morning the coaches planned a day of fast work. But the sun turned hot. Out on the water it was enough to scorch. From 9 to 11 o'clock the crews, excepting Wisconsin, turned out. Hard work was given up, and only light rowing stunts were indulged in, easy spins of from five to eight slow miles. Cornell went down the river beyond Blue Point and returned. Behind Cornell came Pennsylvania. But there was no sign of speeding up. It was too hot. The oarsmen wore white canvas sailor hats. Syracuse went south four miles to Milton. Ten Eyck was contented to let the crew off lightly. Columbia took a turn up the river four miles to Hyde Park, while Georgetown simply paddled up and down within easy reach of quarters. This shows the extent of the course covered during a day's training. From Cornell's turn the boats up the river to where Columbia rounds to the south arm it is fifteen miles.

HARVARD CARRIES YALE ENTHUSIAST IN BOAT.

(Special to The Evening World.) HARVARD CREW QUARTERS, RED TOP, Conn., June 20.—G. St. John Sheffield, Yale '32, was the guest of honor on the Harvard launch John Harvard this morning. Mr. Sheffield is a member of the family which gave the Sheffield Scientific School to Yale, and has been closely identified with Yale rowing for the past twenty-five years. The visit of Mr. Sheffield to Red Top is a token of the very friendly feeling between the Yale and Harvard rowing authorities. In fact, to-day was the first time a Yale man has ever visited a Harvard time spin from a Harvard launch. The freshman crew started at 11:15 o'clock to row over their two-mile course on time. The first half-mile was covered in 2 minutes and 47 seconds and the mile in 5:35. Shortly after the mile flag was passed a very strong wind roughened up the water, and as a result the trial was called off. The crew paddled back to the float in short stretches. The varsity eight and the four oar both had light work after yesterday's time trial, and were coached by Wray from his single. "Kip" Perkins '30, stroked the freshmen four-oar as he did yesterday because three of the 1930 freshmen four had a spin of a mile and a half alongside of each other, although not with any idea of a race. The freshmen eight rowed two miles, and a number of visitors were in camp this morning.
