

BLIZZARD GRIPS CITIES UP STATE, SOME CUT OFF

Rochester and Buffalo Hit Hard and Other Places Are Snow Clad.

That October blizzard that has been tipping things in the West and introducing new snow records has hit New York State and is working its way southward.

It got Rochester, Buffalo, Watertown and all the north section in its grip early to-day, cutting telegraph and telephone wires and isolating several places besides doing much damage.

Rochester had to contend with a driving sleet storm that stopped all communication to upper sections of the State, while similar conditions were reported on the Canadian border, Ontario being especially affected, wires being snapped east of London, while west of Montreal there was no telegraphic service.

Buffalo was swept by a gale last night and snow is still falling to-day. The damage to property and wires is heavy and two men have been killed by broken wires.

The storm was general in western New York, Pennsylvania and Canada. The music West is still storm-swept, the blizzard being especially severe in Ohio. There has been a heavy frost in some of the Southern States.

This city had a reminder of the blizzard in a cold wave that called out heavy coats and gave the streets a general wintry air. Trains reaching here from up the State through snow on the roofs and steps that told of the rigid conditions existing.

The temperature began a downward race early to-day and soon settled around 35.

Forecasters Emery said it would be about 35 to-night, but there was no fear of the blizzard hitting this section, his forecast being fair and cold.

REAL BLIZZARD IN PENNSYLVANIA.

PITTSBURGH, Oct. 11.—All records for low temperature this early in October since the establishment of the Weather Bureau in 1871 were broken to-day when the temperature dropped to 28 degrees. Advice from various parts of the State tell of blizzard conditions.

WARREN, Pa., Oct. 11.—This section is to-day in the throes of a snowstorm and gale that is doing much damage. Many farmers have their late crops still in the field and their loss will be heavy. The storm is a regular blizzard and is the worst experienced this early in the season in years. The snow has thrown both steam and trolley cars off schedule and is general throughout this part of the country.

WIRES DOWN AND DAMAGE DONE.

ROCHESTER, N. Y., Oct. 11.—This city and vicinity was visited by a severe

sleet storm early to-day, which carried down trees and telegraph wires. Telegraphic communication with Buffalo was cut off, as were both telephone systems connecting with the latter city. Various railroads report a train from the West on time.

GREAT GALE AND SNOW IN CANADA.

LONDON, Ont., Oct. 11.—Heavy snow was general throughout Western Ontario yesterday and last night, and in a number of places it was accompanied by winds which approached the dimensions of tornadoes. At Ayr a clean sweep—usually feet—wide was cut through the town by the wind, houses being unroofed, trees blown down and fences torn to pieces.

The telegraph companies are experiencing great difficulty owing to the heavy snow which has interrupted communication both to Buffalo and to the east of this city.

TWO IN TOMBS FOR A \$33 MISTAKE

"Prof." Greene, Negro, and White Woman Assistant Got Money Meant for Another.

Hartwell S. Greene, the only colored professor of medicine and dermatology in this city, was arraigned before Magistrate Sweetser to-day with his assistant, Miss Elsie Norrie, a white woman, on the charge of grand larceny. Greene's business place is located at No. 122 Broadway. There he conducted a school, and a few months ago was charged by the County Medical Society with violating the medical laws. Besides his school of dermatology and manuring, Greene runs a hairdressing establishment as a side venture. It is

over this establishment that Miss Norrie presides. She is a very attractively blonde. Miss Manno Connolly, of No. 316 East Thirtieth street, accused Greene and Miss Norrie of obtaining \$33 from her by false pretenses. Miss Connolly's ambition is to be a lady's maid, and she told Magistrate Sweetser she went to a school at No. 122 Broadway to learn hairdressing. She forgot the number of the place and got into Greene's school by mistake. Thinking she was at the right place, Miss Connolly said she paid Miss Norrie \$33, and upon discovering her mistake, demanded the return of the money. When Miss Norrie and Greene refused to give her back her money, Miss Connolly caused their arrest.

In court Greene's attorney offered to return the money at the rate of \$5 a week, but this was refused. Magistrate Sweetser committed both Greene and Miss Norrie to await the action of the Grand Jury.

Get Well Acquainted With The Mutual Life

It has been in existence sixty-three years. Public confidence and patronage have made it and kept it the largest and staunchest Life Insurance company in the world. It is owned by its policyholders. It protects thousands, but there are many others who should have the same protection. How about you? People who are so thoughtful and kind as to wish to provide as they can to-day for what will happen some other day, when they are taken from those they love and support, should get acquainted with

The Mutual Life Insurance Company

Let them read its history; analyze its statements; examine its investments; consult its agents. They will find a reason for its strength and stability and a reason for their confidence and patronage.

The new management of the Mutual Life has been in control for nine months. Its report for the first six months will be mailed to anyone on request, or may be had of its agents. It tells what has been accomplished in conformity with the new Insurance Law, shows the vast reductions, and indicates the unusual advantages yet to reach its policyholders. Its plain figures, given in a plain way, will convince any fair-minded person that The Mutual Life to-day justifies the good opinion of Bishop Chas. C. McCabe, of the Methodist Episcopal Church, who recently said:

"After long and careful consideration, I am thoroughly satisfied that the present administrations of both companies (The New York Life and The Mutual Life) are now effecting great economies and reforms, and that these institutions, purged as by fire, are now in a position to afford the protection of life insurance in better form, and on better terms, than any known in the past."

It justifies also the good opinion of Mr. James C. Gollate and his associates, who, having policies to the amount of \$5,000,000 in the Mutual Life, recently "resolved that the present executive officers and trustees are, in the opinion of the Policyholders' Protective Association of the Mutual Life, faithful to its interests, and that their administration of its affairs has been and is efficient, economical and beneficial to the policyholders."
