UNSAFE SCHOOLS MUST BE CLOSED, BOARD DECLARES

Evening World Wins Victory for Children Daily Menaced in Fire-Traps—'Better to Have Them on the Streets.'

"It is better to have our children on the streets than in buildings in which they may be burned to death."—ABRAHAM STERN, of the Board of Education.

All public schools that do not afford proper protection against fire are to be closed by order of the Board of Education, following the exposure of conditions by The Evening World.

The Board of Education adopted a resolution introduced by Mr. Stern at its meeting yesterday, calling upon the Superintendent of Buildings to report such schools as in his opinion do not offer proper fire protection to the pupils.

THE SUPERINTENDENT IS AUTHORIZED TO IMMEDIATELY CLOSE SCHOOLS REPORTED UNSAFE, AND TO APPLY TO THE BOARD OF ESTIMATE FOR FUNDS TO MAKE IT SAFE.

Thus the Board of Education will place on the Board of Estimate full responsibility for the unsafe condition of the schools. In regard to the possible closing of some of the schools there was not a dissenting vote to Mr. Stern's resolution.

Borough Presidents John F. Ahearn, of Manhattan, and Bird S. Coler, of Brooklyn, announced to-day that they would support Fire Commissioner Bonner in his plan to detail firemen at every old public school building where, in the opinion of the fire, school and building authorities, the lives of children are endangered.

It was the unanimous view of the members of the Board of Estimate and Apportionment interviewed by reporters for The Evening World that if the city treasury could not afford to station firemen at all schoolhouses, at least the older structures should be protected by retired firemen, as Commissioner Bonner recommends.

"Our school buildings should be safeguarded in every way possible," said President Ahearn to-day. "It may cost the city a million dollars to erect fire-escapes and fireproof doors in the old school-houses which are spread over the downtown section of Manhattan, but better that than place our young ones in danger during class hours. If the Collinwood disaster should be duplicated in New York it would be an everlasting disgrace."

President Ahearn's support of the plan to station firemen in the schools and to erect more fire-escapes is substantial, and his vote in the Board of Estimate and Apportionment to this end means much for the betterment of conditions.

Brooklyn and one in Manhattan, have come into official inspection as a result of conditions described in The Evening World. They are Public School No. 28 on Herkimer street, near Ralph Street, No. 165 at 10th street, and Public School No. 105 at 5th street, near 10th street. Both are fire-traps, and hundreds of indigent citizens whose children are in daily attendance are making a fight to have them vacated. The Board of Education admits that these buildings should be vacated, but says it has no other places in which to house the children. Thus, the fire-traps are still in use and the lives of the little pupils continue in peril.

STOCKHOLDERS SAY HARRIMAN DEFRAUDED U. P.

Sold Securities to Himself and Profited Millions, Is Allegation.

Four stockholders of the Union Pacific Railroad Company to-day addressed a letter to the directors of the Union Pacific Railroad Company, asking that the company, in its own name, start proceedings for the recovery of sums of money which the four directors allege have been diverted to E. H. Harriman and directors of the company.

The stockholders signing the letter are Lewis A. Starns, Hartford, Conn.; William S. Arnold, Wilmington, Conn.; Albert C. Bates, East Granby, Conn.; and Henry R. Buck, Hartford, Conn.

The stockholders say that in July, 1906, Mr. Harriman, President of the Union Pacific, caused the company to purchase from himself 9,222 shares of the first preferred stock of the St. Joseph & Grand Island Railroad, 12,500 shares of his second preferred stock, and 20,000 shares of his common stock at a total cost to the Union Pacific of \$2,224,000.

Then the complaint says that in August, 1906, E. H. Harriman caused the company to purchase from himself certain other securities to the sum of \$1,233,307.97, and that, in their opinion, Harriman was guilty of a breach of trust in that he sold the securities of the company at a price above the market value.

FIRE ON THE NEW BRIDGE; POLICE SUSPECT PLOT

Blaze Starts Among Ties High Up on Unused "L" Rails—Labor Troubles.

The police to-day continued their investigation of a curious fire which last night threatened the new Williamsburg Bridge. There is little hope of solving the mystery, however, since no one has been found who saw any one on the bridge at the time the flames started.

It was at 8:30 P. M. when Lieut. Granger and Patrolman O'Brien, of the Williamsburg Bridge Squad, saw fire blazing fiercely among the ties on the south track of the elevated near Brooklyn. One of the bridge stowaways was on the ties, and it was from which they obtained a chemical extinguisher, which enabled them to make it possible to extinguish the fire.

SLAUGHTER OF 2,500 IN CHILI TOLD BY STEAMER'S CREW. SAN FRANCISCO, March 12.—Ma-line guns operated by the Government forces of Chili in a great conflict with strikers at the nitrate beds and in the city of Antofagasta killed 2,500 men, most of them being strikers, according to advices received yesterday by the Norwegian steamer Christian Borg, arriving direct from Chili. Business at Antofagasta had never before been seriously disturbed by anything but earthquakes, was paralyzed when the great army of workers went on a strike. One strike after another occurred until soldiers and strikers met in the streets of Antofagasta and the outskirts and opened fire on each other. This was the first day of a strike which has lasted for three days of oppressive storm in the country, which has the status of the United States.

JOHN G. JENKINS, SR., INDICTED BANKER, DIES SUDDENLY. (Continued from First Page.) and the Williamsburg Trust Company to make the loans to dumpees appear regular. But was furnished and lawyers employed by the Jenkins family began a campaign to have the indictments quashed.

THE INDICTMENT OF THE JENKINSES created a sensation in Brooklyn but little interest in the failure of the banks. On Dec. 15 the members of the Summer Avenue Baptist Church, Williamsburg, held a public meeting and adopted resolutions of confidence in the elder Jenkins. Mention of his name was made for five minutes, but the church had endorsed himself to the company great on by paying off an indebtedness of \$10,000 which had been rested upon the property of the church.

Granted Change of Venue. The various efforts to quash the indictments failed, and then Stephen C. Bullard, counsel for the Jenkins family, moved for a change of venue for the trial of the Jenkins on their indictment. He alleged that the company of the people of Brooklyn with respect to the Jenkins was such that they could not obtain a fair trial in Kings County.
