LOSS FOR BRYAN SHOWN BY FIRST BAY STATE VOTES

Taft Has Lead in Five Massachusetts Precincts, and Nebraskan's Vote Below That of Parker—Record Voting in All States of the Union.

BOSTON, Nov. 3.—Returns from five towns, comprising the first five voting precincts in Massachusetts to be heard from to-day, showed the following results:
President: Bryan (Dem.), 221; Taft (Rep.), 740; Hisgen (Ind.), 50.
Governor: Draper (Rep.), 671; Vahey (Dem.), 258.
In 1904 the same precincts gave Parker (Dem.), 257; Roosevelt (Rep.), 773.

CINCINNATI, Nov. 3.—I am very much gratified at the report and thank you heartily for letting me know of it," was Judge Taft's remark on being told of the returns from Massachusetts.

Hustling in Taft's State.

CINCINNATI, Nov. 3.—Reports from various parts of Ohio during the day showed a generally heavy and early vote being polled. Good weather and the intense interest brought more than 50 per cent. of the voters of this city out before 2 o'clock, and notwithstanding the huge ballots, the votes were cast with fair rapidity. Little trouble was reported during the early hours. The party leaders expressed confidence in the result as indicated by the voting. The polls close at 5:30. Owing to the big blank ballot and the delay in arranging them, it was feared in some places, notably Cleveland, that many men would lose their votes.

Chairman Henry A. Williams, of the Republican State Committee, had nothing to add to his prediction Saturday of 75,000 for Taft.

Bryan Strong at Home

FAIRVIEW, LINCOLN, Neb., Nov. 3.—William J. Bryan's precinct is running more than two to one in his favor, the vote at noon standing: Bryan, 51; Taft, 23. Mayor Brown at 11:30 telephoned to Fairview that the city of Lincoln and the County of Lancaster were sure for Bryan by a substantial majority. The vote throughout Nebraska is heavy and Democrats are much encouraged by the day's developments.

Both Democratic and Republican chairmen claim the State, both refusing to make predictions as to majorities and both stating that the result will be close. Fair weather will probably increase the farmer vote. Voters went to the polls early and a large vote is promised.

CHICAGO, Nov. 3.—Illinois is to-day casting one of its heaviest votes in the political history of the State. In this city long lines of men were formed outside the polling places before they

TWO ROOSEVELTS VOTE TOGETHER IN OYSTER BAY

Young Theodore Casts His First Ballot Next to His Father.

Young Theodore Roosevelt exercised the highest right of an American citizen to-day. His mother sat in the carriage outside the little Oyster Bay polling place, surrounded by flags that waved in the hands of cheering school children, and watched him as he marched in behind his father to cast his first ballot.

Oyster Bay's Biggest Election.

It was the biggest election day Oyster Bay ever knew. It has had a President of the United States as a voter in its midst for more than seven years, and so it has got accustomed to the sensation. But having a son of a President coming of age and casting his vote too is a new thing, and was so regarded by the villagers.

Raced All the Way and Easily Won From Statesman and Footpad.

(Special to The Evening World.)
PIMLICO RACE TRACK, Md., Nov. 3.—Election Day was somewhat of a record-breaker for the Maryland Jockey Club. The men appeared to have voted early, and then, in many instances accompanied by their wives and women friends, started for the race course.

The talent gathered in a little rent money in the second race. Botanist was their choice and he won, but only after the hardest kind of a drive. Edgely and Botanist ran together to the far turn when Botanist drew out and in the stretch was joined by Conqueror. The latter was gaining, but could not quite get up and Botanist won all out with Conqueror second and Superstition third.

POLLS CLOSED IN THE CITY AND THE COUNT BEGINS

New "Identification" Law Failed to Cause Delay Except in a Few Instances—Police Had Little to Do.

SOCIALISTS ACTIVE AT BOOTHS ON THE EAST SIDE.

Fine Weather Brought Citizens Out Early and Indications Were That Most of Them Voted Straight Tickets, as Ballots Were Promptly Marked.

At 5 o'clock this afternoon the polls closed. It was the quietest Presidential election in the history of the Greater City.

Because of the unprecedentedly heavy voting of the forenoon few voters were left outside the polling places when the boxes closed.

The beginning of the count found the leaders on both sides still claiming victory.

The weather was ideal all day. Hundreds of arrests were made on warrants issued in advance, but only a few of the prisoners were held by the Police Magistrates.

There was practically no disorder. A feature was the heavy vote for the Socialists on the east side.

At 5 o'clock the crowds were already beginning to gather, waiting for the first bulletins. There was promise of a tremendous election night crowd.

There never was an election in this town when so great a proportion of the vote was cast during the early hours of the morning. Fair weather was one of the contributing causes of this result. Fear on the part of the voters of getting tangled up in the new signature identification law was another. The advance claim of a great volume of split votes didn't seemingly materialize.

The average voter took less than sixty seconds to cast his vote—that is, unless he was hampered and delayed through ignorance on the part of the officers of election of the simplest provisions of the new law—and the average voter can't do a great deal of anything in sixty seconds.

The election was singularly free from disorder all through. At the order of election Superintendent Leary hundreds of arrests were made, but in nine cases out of ten the Magistrates before whom the prisoners were taken threw the cases out of court as soon as it developed that mistakes by election clerks, and not wilful intent of the voters, were behind the warrants.

Congressman Henry Goldfogle, who is running for re-election on the Democratic ticket in the lower east side, early this afternoon made the claim—for which he did not offer any proof—that the Socialists were colonizing on him. Otherwise there was hardly a ripple of excitement. Of charges of repeating and fraud there were remarkably few. The chief cause for complaint arose
