

PUBLIC HEARING ON THE TAXICAB INSPECTION BILL

Aldermanic Committee Will Listen to Arguments on Monday Afternoon.

FEW ARE AGAINST IT.

Representative Men Will Urge Passage of Evening World's Ordinance.

All advocates as well as opponents of The Evening World's proposed ordinance, calling for an official inspection and regulation of taximeters, will have an opportunity of being heard.

The Aldermanic Committee on Laws and Legislation has called a public hearing on the measure for next Monday afternoon at 2 o'clock in the big Aldermanic Chamber. From all indications there will be but few, if any, who will appear to oppose the bill, while on the other hand a varied aggregation of supporters, including users of taxicabs, owners, both private and corporate, as well as officers of the city government, will be present in large numbers to speak in advocacy of the proposed regulation.

Independents to Speak.

Not the least interesting representation at the hearing will be a delegation of members of the Independent Taxicab Owners' Association, headed by President James Brown, who will speak in support of the resolution. Alderman Frank L. Dowling, the introducer of The Evening World's measure, with other members of the Board, will also be among those urging that a city law placing all taximeters under official inspection and regulation be passed.

Secretary and Treasurer Palmer, of the New York Transportation Company (the green cab), will represent his company at the hearing. He will come prepared to show that a proper and adequate inspection of taximeters and the regulating of the same to prevent overcharges, is essential to the continued prosperity of the taxicab business, no matter by whom conducted.

Mr. Palmer has obtained from London and Paris copies of the laws in force in those cities affecting inspection, as well as copies of the ordinances which control operation and charges.

An Important Meeting. Briefly, the hearing promises to be not only representative, but one of great interest and importance.

It will concern every user of taxicabs in the city. So popular has the use of these conveyances become that they have increased in such numbers as now to demand official supervision. Mayor McMichael is himself in favor of the proposed inspection and regulation, and has commented upon the imperative necessity of placing all taximeters on the public vehicles under official supervision.

Following the public hearing the Committee will hold an executive session and report at a future meeting of the Board an ordinance which will be most effective in its operation.

Dr. Julius Michaelis.

CHEERS FOR ARCHBISHOP.

Archbishop Farley smiled indulgently last night at a vaudeville performance at the fourth alumni reunion and fiftieth anniversary of St. Gabriel's School in East Thirty-sixth street. The cheering lasted ten minutes when the

SOUVENIR HUNTERS ROB AUTO EXHIBITS

Detectives Busy at Big Show Protecting High-Priced Cars.

Souvenir funds have played such havoc with some of the exhibits at the Automobile Show at Madison Square Garden that several manufacturers have found it necessary to employ private detectives to prevent the pilferers from ruining valuable motor cars. It is estimated that nearly \$1,000 worth of property has been damaged since the opening of the show on Saturday night.

The souvenir hunters were watched closely last night. Half a dozen sharp-eyed, alert men were stationed along "Peacock Walk." Now and again they would be seen to tap some person on the shoulder, and that person would return to one of the exhibits, with flaming face, to restore something he had taken "as a souvenir."

Thieves have been most active around the exhibition of racing machines. The famous Thomas Flyer, victor in the New York to Paris race, would have been destroyed long ago and carried away, piece by piece, had not a detective been placed on guard there.

On the opening night of the show a souvenir hunter unscrewed two of the caps of the tire valves and carried them away. Many of the small parts of the racing machine that could be easily unscrewed have been taken off, but the detective has recovered all but the valve caps. It will be necessary, nevertheless, for skilled mechanics to go over the Thomas Flyer if the car is ever raced again, as much of the mechanism has been put out of order.

OFF FOR EASTERN CRUISE.

On the Cunard Carmania, sailing today on a cruise to the Azores, Madeira, Gibraltar, Genoa, Naples, Alexandria and Fiume, will embark Mr. and Mrs. Benjamin A. Appleton, Rear Admiral L. G. Billings, U. S. N.; Mrs. Billings, Mr. and Mrs. Charles Chubb, Baron Haymerle, Dr. J. J. Mason, Judge J. C. Nelson, Gen. L. W. Pettibone, Mrs. J. W. Roosevelt, Major B. J. Saunders, Mrs. Saunders, Mr. and Mrs. Charles Scribner.

prelate entered the hall. "I am glad to see the old place so full of fresh young faces," he said. "There was more cheering for Dr. J. C. Hannan, the first head of the school. Among the former pupils present were Secretary W. A. Lantry, of the Fire Department; Philip J. Hunt, Daniel and Frank M. Gallagher, Brother Cement; the Rev. William Livingston; Daniel J. Pollard, Thomas J. Lynch and Edward Corzias.

DOCTOR AND NURSE FIGURE IN ROMANCE

Dr. Michaelis, of Kings County Institution, Weds Miss Thomas, Nurse.

The romance which began a few months ago in the Kings County Hospital between Dr. Julius Michaelis, an interne, and Ethel S. Thomas, a nurse, had its culmination last night when the couple were married by the Rev. Mr. Lyons. Dr. Michaelis finished his course at the institution last November, but Miss Thomas did not wait to earn her diploma. Five weeks ago she sent her resignation to the hospital authorities on the ground of poor health, but the other nurses merely shook their heads and smiled.

Two weeks afterward the marriage license was published.

This is the second marriage between the nursing and house staffs of the Kings County Hospital within the last two months.

Dr. and Mrs. Graham, the bridegroom's sister and brother-in-law, were best man and bridesmaid.

Miss Thomas is a Pennsylvania girl and was graduated from Cornell in 1906. Her father is a prominent surgeon.

Dr. Michaelis was graduated from Long Island Medical College in 1906 and spent two years in Kings County Hospital for experience.

MYSTERY IN HOLD-UP OF WATER IN BROOKLYN.

Deputy Commissioner Intimates Some One Is Trying to Force "Water Wizard" to Quit.

It should like to know," said Deputy Commissioner Corder, "what influence it is that frequently prevents Brooklyn getting water. There has a contract, regularly made with the Water Department and approved by the Board of Estimate, to supply water directly into water mains at seventy pounds pressure. For three months he has been going as well as in a factory section where we most need it.

BILL TO GUARANTEE DEPOSITS IN BANKS

Proposition to Have a Law in New York Like That in Oklahoma.

ALBANY, Jan. 21.—A proposition to establish a depositors' guarantee fund by imposing a State tax of one per cent. of the average daily deposits of State banks is offered in a bill introduced in the Assembly yesterday by Owen W. Bohan (Democrat) of the Eleventh District, Manhattan. The bill is fashioned after the Oklahoma law, which was advocated in the platform of the last Democratic National Convention. The tax is to be collected by the State Superintendent of Banks, each bank and trust company reporting its average daily deposits for the preceding year.

If the deposits exceed the amount upon which the one per cent. was previously paid, the report must be accompanied by additional funds to make up the deficiency. In arriving at the average daily deposits the bank is authorized to except Federal and State funds if otherwise secured. If the

guarantee fund be depleted from any cause, the State Superintendent of Banks shall have a special assessment against the capital stock to issue the fund up to one per cent.

Provision is made for bringing national banks under the law where they voluntarily avail themselves of its provisions. In case of the failure or dissolution of a bank the Superintendent is empowered, if the assets of the bank be insufficient to pay the depositors, to draw on the guarantee fund. For the benefit of the fund, the State is to have the first lien upon the assets of the bank. A bank which becomes a guarantee bank is authorized to display that fact conspicuously. Strict provisions are made for the repayment of an insolvent bank's credit and funds before it can reopen its doors.

TRY THIS FOR YOUR COUGH

Mix two ounces of Glycerine with a half ounce of Virgin Oil of Pine compound pure and a half pint of straight Whiskey. Shake well and take in doses of a teaspoonful every four hours. This mixture possesses the healing, healthful properties of the pine, and will break a cold in twenty-four hours and cure any cough that is curable. In having this formula put up be sure that your druggist uses the genuine Virgin Oil of Pine compound pure, prepared and guaranteed only by the Leach Chemical Co., Cincinnati, O.

S.S.S.

CURES OLD SORES

We want to show you in this short, but honest and reasonable talk, how and why S. S. S. cures Old Sores. We do not claim that S. S. S. works wonders, but we do know it will cure sores and ulcers, and its record of forty years past abundantly justifies this confidence.

Any old sore shows an unhealthy and impure condition of the blood. It is a diseased condition of the flesh at that particular spot, caused and kept inflamed and irritated by a continual discharge into it of unhealthy matter from the circulation. In various ways the blood becomes contaminated and polluted. A long spell of fever, or other sickness, breeds disease germs in the system; the failure of nature's eliminative members to remove the waste and refuse matters of the body, the excessive use of minerals in certain diseases, infected wounds, bites and stings of insects, etc., all contaminate the blood with morbid matter and germs which sooner or later manifest their presence by a sore or ulcer which refuses to heal under the ordinary treatment of local applications.

External treatment can never cure a chronic sore or ulcer, because it does not reach the blood. The place will remain open as long as it is used as a drainage for the impurity which is in the blood, and in addition to the worry and anxiety caused by an old sore, there is always danger of its becoming cancerous, if a cure is not effected. Purify the blood, and nourish the flesh with a rich, healthy circulation, and then the place will heal of its own accord.

S. S. S. cures old sores by removing the causes which produce them. It goes down into the circulation, drives out all impurities and poisons, and by nourishing the flesh with rich, pure blood causes the place to heal naturally and permanently. S. S. S. does not make a surface cure, but, being the greatest of all blood purifiers, it begins at the bottom and by rebuilding broken down tissue, and supplying healthful, healing qualities to the circulation, causes the place to fill in with firm, healthy flesh, while it steadily but surely removes the cause and effects a permanent cure. The sore cannot remain when the blood is pure, and S. S. S. will thoroughly purify the blood. Book on Sores and Ulcers and any medical advice free to all who write.

S. S. S. is for sale at all drug stores.
THE SWIFT SPECIFIC CO., ATLANTA, GA.

BAD SORE FROM AN OLD WOUND.
I want to recommend S. S. S. to any who are in need of a blood purifier, and especially as a remedy for sores and obstinate ulcers. In 1877 I had my leg badly cut on the sharp edge of a barrel and having on a blue woolen stocking, the place was badly poisoned from the dye. A great sore formed and for years no one knows what I suffered with the place. I used it seemed to me, everything I had ever heard of but I got no relief and I thought I would have to go through life with an angry, discharging sore on my leg. At last I ran across the use of S. S. S., and it was but a short time until I saw that the place was improving. I continued it until it removed all the poison from my blood and made a complete and permanent cure of the sore.
724 Navy St., Brooklyn, N. Y. 1899. ELLIS.

A CANCEROUS ULCER.
I had a large sore or ulcer on my face and nothing I tried would benefit me. It began with shooting pains and soon the itching was terrible. At first it discharged a watery fluid which soon changed to one of thicker composition and the pain became very severe. It was nearly as large as a dollar and terribly inflamed in all the surrounding parts. It had been there so long and growing worse all the time, I became very much discouraged and almost lost hope. At last I began the use of S. S. S. At first the ulcer seemed to get worse, but I soon found that the poison was being removed from the blood and I continued to take S. S. S. I was a few days before I noted a decided improvement and I kept up the use of the medicine until I was entirely cured of this cancerous ulcer. There has been some time ago and there is no sign of return of the trouble.
GARY, ILL. MISS W. A. WRIGHT.

POISONED FROM INSECT BITE.
Wilmington, N. C.
From the bite of an insect I was poisoned and had a dreadful sore on my ankle and took different treatments with no benefit. I was induced to try S. S. S., and after a few bottles it cleared my system and cleansed my blood and cured the sore. My mother took it for rheumatism, with success. I cheerfully recommend S. S. S. where a blood purifier is needed.
109 South First St. CHAS. S. FRIDGEN.

THE WORLD ALMANAC AND ENCYCLOPEDIA, 1909. Issued by the Press Publishing Company, New York. World, Pulitzer Building, New York.

This "World Almanac" is one of the publications that have become indispensable to many—to all who desire to know what the world is doing and what events are making history. Indeed, it is doubtful if any book of useful information has ever been printed in the English language that stands so high in the estimation of students, lawyers, merchants, historians, professors and business men at large, as does The World Almanac and Encyclopedia, for its mass of information on all subjects of real interest is accurate and up to date. Every one of the 15,000 facts and figures it presents, whether about politics, commerce, weights, measures, secret societies, populations of cities, States, countries, sporting events, &c., is handily indexed so it may be turned to at a moment's notice. It is one of the few books that may be called a necessity and a luxury at one and the same time.

Space is given to "Occurrences During Printing," that the latest information may be inserted. It is an interesting and informing book of facts.—Grand Rapids (Mich.) Herald.
