

Some of the Men and Things the Artist Saw On a Visit to the Warships in the Hudson

BIGGEST FIGHTERS JOIN WAR FLEET IN HUDSON TO-DAY

Super-Dreadnoughts Arkansas
and Wyoming Take Their
Places in Line.

The Arkansas and the Wyoming, big-
gest and more powerful and more ugly
fighters than the Utah and the Florida,
of the battleship line last year, were ex-
pected in their places in the line of the
assembling fleet in the Hudson to-day.

The cold weather this morning kept
down the number of civilian visitors
from shore and the excursion boats
did a slim business. Every sailor in the
fleet who could get liberty took it.
Every one of them had a sublime faith
that somehow or other he could get into
the Polo Grounds for the first game of
the championship series; if the worst
came to the worst they hoped to get
a berth outside that would overlook at
least a corner of the grounds.

The overcrowding of excursion boats by
sailors of the strict rules established by
the Dock Department, worried the fleet
commander yesterday. Word came ashore
from the Westchester Coast Guard that
the tugboat No. 115 was carrying
more than the thirty passengers
allowed on her capacity on the pennant
of her bow. A dock department
officer went out and gathered in No.
115 which was the August M. owned by
J. H. Hays and the craft was im-
pounded at the thirty-seventh street
dock and damaged from further pas-
senger traffic around the fleet.

Along the river presents a warlike
appearance. The first squadron of ten
torpedo boats was reinforced yesterday
by the big Florida, which tore through
the water to her station off One Hundred
and Seventeenth street. Still other new
units were the hospital ship Bolace
and the cutter Orion, and from now
until today, when the mobilization is
complete, there will be
about a steady procession of gray hulks
up the river.

Extraordinary preparations are being
made for the review of Monday and
Tuesday. To facilitate the great fleet
review on Tuesday an embargo
will be laid on shipping from Bedloe's
Island to Fort Washington, this being
announced at a conference between Rear-
Admiral Osterhaus, in command of the
fleet, and the local entertainment com-
mittee. From 10 o'clock that morning
until after President Taft has seen the
last of the twenty-three big fighters
sweep past the Hudson will be given up
exclusively to the warships.

ADMIRAL AND MAYOR EX-
CHANGE CALLS.
The official welcome to the men-of-
war began yesterday. Rear-Admiral Os-
terhaus and his staff landed at Twenty-
third street and were escorted to City
Hall, where they called upon the Mayor.
Shortly afterward Mayor Gaynor and
Police Commissioner Waldo returned the
call, being received with ceremony on
the quarter deck of the flagship Con-
necticut.

In the afternoon 8,000 sailors and offi-
cers attended an exhibition baseball
game between the Giants and the High-
landers at the Polo Grounds. All the
fans was there, from the Rear Admiral,
who threw the first ball, to the Utah's
masses of goat, which tried to make a meal
of bats and nearly succeeded.
From now until Saturday, when the
program proper begins with a big
band parade of seamen followed by a
smoker at the Hotel Astor, there will be
nothing to prevent the public from see-
ing its fill of ship visiting. The vessels
are keeping open house daily from 1 to
3 P. M., and so far there have been
practically no complaints of over-
crowding by river business. The official

need fare from shore to ship and back
is a quarter each way and no tickets.
Visitors will save themselves compli-
cations by noting that their cameras will
not be equally welcome aboard ship.
Snap-shooting is forbidden, and already
on the more popular ships an edict has
gone forth requiring all cameras to be
deposited on deck, where they remain
under the eye of a guard until the
squabbles begin as to whose camera is
whose when the guests prepare to de-
part.

HOW PASSENGER SHIPS MAY
PARTICIPATE IN THE REVIEW.
The following formal notice has been
sent out by the arrangements com-
mittee:

On Monday, Oct. 14, all vessels car-
rying passengers desiring a place in
line following the vessel of the Sec-
retary of the Navy on the official in-
spection of the fleet in the morning
must be at a designated location not
later than 8.15 A. M., and will be per-
mitted to follow the Secretary's ship
at a distance of at least one sea
mile.

For the official inspection of the
fleet by the President in the after-
noon steamers must be at a design-
ated location at 3 P. M., and will
be permitted to follow the Presi-
dent's ship at a distance of at least
one sea mile.
Steamers and yachts that desire a
place in these lines must notify
Commodore R. A. C. Smith, Vice-

Chairman of the Naval Committee of
the Mayor's Committee, at No. 100
Broadway, not later than 4 P. M.
Wednesday, Oct. 9. All applications
must be in writing and contain name
of the vessel and its capacity. All
applications will be furnished with
charts and printed regulations.

AIRSHIP HAS A KITCHEN
AND SLEEPING QUARTERS.
BERLIN, Oct. 8.—The German navy's
first Zeppelin airship made a trial flight
yesterday over Lake Constance at
Friedrichshafen.

The airship, with its 510 horse-power
engines, is said to be capable of keep-
ing in the air for two days and a half
without a landing. Her equipment, in
addition to wireless telegraphy, a
searchlight and machine guns, includes
a kitchen, sleeping bunks for the offi-
cers and hammocks for the crew.
After her trials the airship will take
up her permanent station near Ham-
burg.

Powder Explodes; 30 Dead.
TAMPICO, Mexico, Oct. 8.—Thirty
persons were killed last night as the re-
sult of a powder explosion here. A
warehouse in which the powder was
stored and several adjacent buildings
were burned.

STORAGE PORTERS STRIKE.
Many Families Unable to Open
Homes as a Result.
More than a hundred families return-
ing to the city from their summer homes
have been unable to open their town
establishments because of a strike of
the porters in the Broadway Storage
Warehouse, owned by Thomas Reilly, at
No. 232 Broadway. To-day a detail of
uniformed policemen under Capt.
Thompson of the West One Hundred
and Twenty-fifth street station was
placed about the warehouse, at the cor-
ner of Broadway and One Hundred and
Thirtieth street, to protect strike-
breakers.

A week ago the forty porters in the
warehouse struck, demanding recog-
nition of their union. Reilly refused to
treat with them on that basis. Then
the real trouble began. Within an
hour Reilly was called on the telephone
by some patron who had just returned
to the city, who demanded that his
household effects be sent to his apart-
ment. Those demands became insistent
as the day passed and returning Har-
lemites were compelled to remain in
hotels because of Reilly's inability to
deliver. Strike breakers went to work
to-day.

The Nervous American

The "Nervous American" is a type. You
know him. The doctors are all talking about
him. He is growing fast in numbers, and one
big reason is that the food he eats is not
properly adjusted to the needs of his body.

The statistics shown in the Government
Bulletin No. 142, Department of Agriculture,
show that he is eating too much energy-pro-
ducing food and not enough tissue-building
food.

You use up five and a half times more of
your bodily energy than you do of your bodily
tissue. Therefore, your daily food should fur-
nish you with energy and tissue-building
elements in the proportion of 5 1/2 to 1.

There are just two common foods that
supply these elements in almost the ideal
proportion. One is mother's milk, which makes
healthy babies. The other is properly cooked
oatmeal, which makes healthy boys and girls
and men and women.

You notice we said "properly cooked"
oatmeal. The nutrients in oatmeal cannot be
assimilated by your system unless the oatmeal
you eat has been properly cooked.

A package makes 36 dishes.

H-O the only steam-cooked Oatmeal

You have two choices of oatmeal.
One is the raw oatmeal, which should be cooked
not less than two hours and a half, during which
much of the flavor is lost.
The other is H-O Oatmeal, which is steam-cooked
by a flavor-retaining process before you get it and
requires only twenty minutes' cooking in your kitchen.

Order a package from your grocer.
The H-O Company, Buffalo, N.Y.
Makers of H-O Force and Presto.
