

SULZER WILL VETO ATTEMPT TO LEGALIZE HACK-STAND GRAFT IN NEW YORK STREETS

"Streets of a City Belong to Its People," Says Governor in Explanation.

LEVY'S NEW MEASURE.

Surprised by Bill That Slipped By—Offers One Abolishing All Private Cabstands.

BY SOPHIE IRENE LOEB.

While the cab companies and hotel men were making their pleas for the retention of private hack stands and present rates before the Mayor's committee, the same day a bill was being introduced through Albany to perpetuate the stand privileges by State law.

Thus, when I arrived in Albany I found the Governor much surprised that the measure had gone through so quietly and quickly.

The Governor's comment was, "I will not sign any bill that will hire out the streets of New York or any other city. The streets of a city belong to the people."

I told the Governor that Mayor Gaynor would veto this bill.

"Then certainly I shall agree with the Mayor's veto. I believe primarily in home rule."

And when I further explained to the Governor that a bill would be introduced that should settle this situation throughout the State, since there was continual legislation over it, the Governor stated: "I will support any measure that grants to the people the exclusive rights of the streets."

EQUAL PRIVILEGES FOR ALL ON STREETS.

The individual cab owner who can afford but one cab to carry on his business has as much right to any part of the public streets as the owner of many cabs or cab companies. Any measure to shut one cabman out of any part of the streets where others are specially privileged to go does not carry out the policy of the people owning the street and having equal privileges thereon.

As to where the public hackstands should be located, as aforesaid, home rule should designate this; and the city government can establish these to the best advantage of the general public."

Later at the capital I met A. J. Levy,

the majority leader of the Assembly, who is today introducing an amendment which contains the measures being advocated by The Evening World, and which is the exact opposite in character to the Walker bill, since it abolishes the private hack-stand system and gives the public the exclusive right to the streets.

Levy said: "I shall do all in my power to make this amendment a law. I do not think that all of the members had gone into the other bill very far, it was passed so quickly. Personally I had understood, as several other members, that it merely granted a minor right to the Board of Aldermen which they should and did not have."

"But I have watched the public conveyance fight with much interest, and I certainly agree with the Governor that every precaution should be taken to grant no special privileges as to the use of the streets."

BLAMES PRIVATE STANDS FOR HIGH CAB FARES.

"I think also the private stand system is one of the things that makes the cab a luxury, as it tends to keep up rates. Aside from this, the companies are standing in their own light. Even if they had to put on twice as many cabs to do the same amount of business at a lower rate, they might not gain at once, but they would lay the foundation for a prevalent popular use of cabs that in the long run would surely result in an enlarged cab trade and would greatly benefit the public."

"Someday, they have not been alive to this possibility, which has grown into reality in European cities. Therefore, it is up to the public's representatives to create such legislation that will conserve their common rights as to the streets."

"I told the Governor that Mayor Gaynor would veto this bill."

And when I further explained to the Governor that a bill would be introduced that should settle this situation throughout the State, since there was continual legislation over it, the Governor stated: "I will support any measure that grants to the people the exclusive rights of the streets."

streets in the hope of a more efficient and low rate service in the future.

"Also this does not seem to be a matter only to be settled for New York, but in every city in the State where a public cab service is in operation these difficulties seem to arise—as to what cabs shall stand in the public streets at different places."

"Besides, if it is settled once and for all in this State, it will no doubt create a precedent for a universal cab service throughout the United States. I trust we will pass it as soon as possible."

"The whole question is one that concerns everybody. The rates of cabs should be within the limit of the average citizen, so that it be an every-day common convenience. In this country we have never realized what it would mean if the ordinary citizen could enjoy the benefits of a low rate service. We have always looked upon the cabs as an extravagance, which it certainly is at the present rates."

"On the other side the cab is within the reach of clerk and salespeople, but here it is only seemingly maintained for the rich."

WHAT LEVY BILL IS INTENDED TO ACCOMPLISH.

The measure introduced by Mr. Levy provides an amendment to the general law as to the public highway, setting forth that:

"The owner, lessee or other occupant of any real property, or any other person, co-partnership or corporation, who shall make or enter into any agreement, contract or arrangement whatsoever, whereby the exclusive right of permitting any vehicle to stand while awaiting passengers for hire or as a private hackstand. And any owner, lessee or other person, co-partnership or corporation, who shall make or enter into any contract or arrangement for the payment of or receives thereby any sum of money, percentage of profits or other thing of value under any such contract, agreement, consent or arrangement for such exclusive use of such public property as such private hackstand, shall be guilty of a misdemeanor. This article, therefore, will at once abolish the private hackstands and do away with the \$20.00 commission given to hotels by cab companies, whereby the rates could be reduced accordingly."

"Someday, they have not been alive to this possibility, which has grown into reality in European cities. Therefore, it is up to the public's representatives to create such legislation that will conserve their common rights as to the streets."

"I told the Governor that Mayor Gaynor would veto this bill."
