THAW COMPETENT TO DO BUSINESS IS COURT RULING

Prisoner Granted \$30,000 of His Income to Continue Fight for Liberty.

(Special to The Evening World.) PITTSBURGH, Pa., Jan. 22.—Since the law holds that a man may be fit for custody in a lunatic asylum, he may, nevertheless, have sufficient mental capacity to make contracts and transact his own business, Judge J. J. Miller, in the Orphans' Court, today declared that Harry K. Thaw should not be deprived of his income, and that the slayer of Stanford White will be allowed to draw \$30,000 of the \$160,775 which is held in trust by the Fidelity Title and Trust Company for legal expenses incurred in his fight for liberty now being made in the State of New Hampshire.

Several months ago, before Thaw made his escape from the Matteawan Asylum, he filed a petition in the courts here asking the Fidelity Title and Trust Company to show cause why that company refused to advance him the \$30,000 of funds held in trust for him. The trust company's answer was that since Thaw had committed a capital crime and had been declared insane, he was not deemed a fit person to take charge of his money.

JAPAN'S NEW MOVE HALTS HEARING ON EXCLUSION BILL

Bryan Said to Have Asked Congressmen to Go Slow With Asiatic Measure.

WASHINGTON, Jan. 22.—While Secretary of State Bryan was hopeful today that a settlement of the Japanese anti-Asian law controversy was near and denied any sinister meaning to the speech of Baron Makino, Japan's Foreign Minister, the House Immigration Committee decided to call off for the present scheduled hearings on a new Asiatic exclusion bill. They acted, it was said, on the request of the Secretary of State, who, it is understood, wrote that he desired no step be taken which might delay a new treaty between Japan and the United States designed to fix the exact status of Americans in Japan and Japanese in America.

Secretary Bryan said Baron Makino's declaration that "another way" would be adopted to settle the controversy was not a surprise to diplomatic officials here and would cause no embarrassment. It was asserted that the State Department had been apprised in advance by Ambassador Chinda of the contents of Baron Makino's speech.

Decision by the Immigration Committee to drop the hearings on the Asiatic bill came after an executive session of an hour and a half. A dozen witnesses, including Commissioner of Immigration Cammett, waited outside.

MEXICO CITY, Jan. 22.—Jorge Vera Estanol, one of the 110 Deputies thrown into jail by Provisional President Huerta when he summarily dissolved Congress on Oct. 10, 1913, was last night smuggled out of town by Nelson O'Shaughnessy, American Charge d'Affaires, and sent safely on his way to Vera Cruz. Senor Estanol, who is a prominent attorney and was Minister of Public Instruction in the late President Madero's Cabinet, had been released from the penitentiary by court order.

Senor Estanol and his friends, believing that his life was in danger, made an appeal to Mr. O'Shaughnessy, who secured a private car and with great secrecy put Senor Estanol on board. The car was then attached to the regular train for Vera Cruz, from which port it is assumed Senor Estanol will sail today.
