

THIS WEEK'S COMPLETE NOVEL IN THE EVENING WORLD

AT THE EARTH'S CORE IT BEGINS TO-DAY

A Wonder Story of Another World, By EDGAR RICE BURROUGHS, Author of "Tarzan of the Apes" Etc.

ference and that when a protocol is signed it will be signed by all parties. For that reason they did not wish the Tampico blockade to end their efforts to bring about a peaceful settlement. MEXICAN IS SHOT BY ARMY OFFICER.

Gen. Funston reported to the War Department to-day a street fight in Vera Cruz yesterday, which ended in the fatal shooting of a drunken Mexican by Lieut. S. R. Houston, Twenty-eighth Infantry. Two Mexican policemen were stabbed, but not fatally wounded.

The policemen were taking a prisoner to jail when a charge of intoxication. They were attacked by the prisoner's friends and were being worsted when Lieut. Houston went to their rescue. Gen. Funston commended Lieut. Houston.

Reports to-day from the Brazilian Minister at Mexico City swept away some of the mystery surrounding Huerta's "port of missing Americans."

He said Gregory Alcazar, Max Blum and George Duval, Americans, were freed from prison Saturday; that the case of Dr. Taylor has been expeditiously and that evidence is being taken in the case of J. T. Smith, long jailed at Tonala.

E. D. Doestler and Patrick McKinley, newspaper men, he reported, were released from jail at Mexico City several weeks ago, but no trace of them has since been seen.

He said the "immediate" investigation of the Parks case were given.

MEDIATORS SUBMIT COMPLETE PLANS FOR PEACE TO DELEGATES.

NIAGARA FALLS, Ont., June 8.—The decision of the Mexican government to abandon its plan of blockade at Tampico relieved a serious situation in the peace conference to-day.

And the United States found it necessary to interfere with the Huerta government it was believed the Dictator would have considered the move an act of war and would have withdrawn the Mexican delegates from the mediation conference.

The blockade incident was only briefly discussed at the conference between the American delegates and the mediators. Then the American commissioners presented the peace plan which they had drafted.

Justice Lammur dictated the following statement to the mediators: "The mediators have heretofore submitted to us a complete plan and we have now submitted to them our plan. Our counter plan contains a number of points on which we have agreed and also propositions on which there has been neither an agreement nor disagreement. The mediators are now taking under consideration the points on which there has been no disagreement."

REBELS WILL PAY \$250,000 GOLD FOR KILLING AMERICAN.

EL PASO, Tex., June 8.—Immediate settlement with the band of Gustave Soper, the American slain in Juarez in February, will be made within the next week by the Mexican Constitutionalists.

STARVING WOMEN BEG COMMANDER TO GIVE UP CITY.

ON BOARD SS. CALIFORNIA, MANTAN, Mexico, June 7 (via wireless to San Diego, Cal., June 8).—Two hundred starving women trailed in a struggling procession behind the carriage of the Military Governor of Mantana to-day imploring him to surrender the city to the investing Constitutionalists.

MEDIATORS PLAN TO STOP SUPPLIES.

MEXICO CITY, June 8.—Roberto Esteva Ruiz, the Mexican Foreign Minister, when asked to-day whether the Mexican delegates would be withdrawn from the mediation conference in case the American Government did not recognize the blockade of Tampico, made the following statement: "We are withdrawing our delegates, I have received information from them to-day that the peace negotiations are well advanced and no difficulty has been encountered up to the present time. Therefore the proposed blockade of Tampico has not interfered with the negotiations."

CHIHUAHUA, Mex., June 8.—Gen. Francisco Villa and staff left for Torreon early to-day. They will remain there a week, awaiting Villa's troops and a cable concerning the blockade.

FOLK COMING HERE TO GRAPPLE WITH NEW HAVEN GRAFT

Mellen Is Anticipating an Underhand Attack From Interests He Exposed.

PREPARED TO MEET IT. Interstate Board's Counsel Will Dig Deeper for \$11,000,000 That Vanished.

Two new phases in the New Haven Railroad corruption developed to-day. Joseph W. Folk, counsel to the Interstate Commerce Commission, is coming to New York to go further into the scandalous waste of millions in the Westchester Railroad and to hunt for the grafters big and little, financial and political, who got the millions.

Former President Mellen, who revealed the high finance methods of the Morgan-Rockefeller group, is preparing for a battle royal with the financiers he exposed. He expects that every power and influence will be used to "get him."

While the Wall street crowd has not abated its hand yet, the former President of New Haven would not be surprised at an attempt to fasten on him responsibility for some transaction in high finance involving loss of the company's money, with the allegation that he had no authority to spend it.

Mr. Mellen asserts that every dollar he expended, every contract he entered into, every obligation he contracted was authorized and approved by the Board of Directors. Agents of the Morgan-Rockefeller group of the present management of the New Haven are reported to be searching records for some loophole for an attack on the former President.

An indication of what is coming is seen by Mr. Mellen's supporters in the testimony last week of President Miller of the Westchester Railroad, who intimated that certain payments made by Mr. Mellen in connection with the Millbrook Company were not authorized. John W. H. Crim, counsel for Mr. Mellen, quickly began a cross-examination and disclosed that complete approval had been given by the directors.

Counsel Folk's visit to New York this week will have to do with further examination into the books of J. P. Morgan & Company, particularly in reference to transactions in the Westchester road, where more than \$11,000,000 "vanished in this air."

Mr. Mellen's testimony that he paid out \$1,500,000 to unknown persons in New York City, through the late Inspector Byrnes, most of which is supposed to have gone to political grafters, has greatly interested the lawyers. Ever since Mr. Folk achieved his first national reputation as a prosecutor of boodles Aldermen in St. Louis he has been keen on running down political crooks. He never has been satisfied with the indefinite ending of Mr. Mellen's testimony on this point. Now he is going to dig deeper into the whole Westchester business.

THOUSANDS OF WOMEN AT FEDERATION MEET

Daughter of President Wilson to Be a Speaker at Convention in Chicago.

CHICAGO, June 8.—Chicago to-day ospitalized to an army of the world's representative women—the General Federation of Women's Clubs. There are 1,500 clubs in the Federation.

Battalions from Texas and New York, Maine and Florida, Panama and India took possession, and for the next ten days Chicago will be the capital of the feminist world.

The biennial convention will attract several distinguished guests, but none will receive more honor than Miss Margaret Wilson, daughter of President Wilson, who speaks Wednesday night, June 17, at the Auditorium.

Miss Wilson's convention theme will be "What Youth Can Bring to the Federation." The young women who will share the programs with the President's daughter are Miss Dorothy Loyed, Minnesota; Miss Laura Hildely, North Carolina; Miss Jessica Briggs, California; and Miss Ruth Bush, Louisiana.

for the Constitutionalists, has decided to suspend the effects of the Tampico blockade in order not to embarrass the peace negotiations.

VILLA LEAVES FOR SANCTUARY. CHIHUAHUA, Mex., June 8.—Gen. Francisco Villa and staff left for Torreon early to-day. They will remain there a week, awaiting Villa's troops and a cable concerning the blockade.

HIGHEST COURT GIVES U. S. POWER OVER RAILROAD

Decide That Interstate Commerce Commission Must Fix the Rates.

STATE BOARD BEATEN. Louisiana Officials Attempted to Exercise Authority Over Traffic.

WASHINGTON, June 8.—The United States Supreme Court to-day upheld the Interstate Commerce Commission's orders in the Shreveport rate case, thus placing interstate railroads more under the Commission and less under State commissions.

Justice Hughes announced the court's decision. He spoke of the unrestricted power of the Interstate Commerce Commission over interstate commerce, saying the commission was expressly created to prevent conflicting State legislation.

Justice Hughes pointed out that Congress and not the States had the power to prevent the instruments of interstate commerce from being used so as to injure interstate commerce. He quoted the cases under the safety appliance law, and the second federal employers' liability law, supporting the power of Congress to keep the channels of interstate commerce clear.

Referring to the Minnesota rate case, Justice Hughes said that decision was expressly reserved in those cases as to what the outcome would have been had the Interstate Commerce Commission found that the Minnesota rates discriminated against interstate commerce.

The far reaching effect of the decision lies in the fact that rates which the Interstate Commerce Commission ordered indirectly increased to remove discrimination were prescribed by the Texas State Railroad Commission. Under the Federal Commission's order, the only way the railroads may escape conflict with the Texas commission is to reduce the interstate rates from Shreveport to Texas cities so as to put the Louisiana city on a competitive basis with Texas jobbing centers.

Should the railroads elect to increase the Texas rates, as the Commerce Court had declared they must, a new chapter in the novel system would develop. The laws of Texas would make the railroads liable to a penalty of \$10,000 to the State and \$500 to each shipper for each shipment on which the low State rates were disregarded.

Justice Hughes expressly recognized the importance of the case, so stating as he concluded his opinion. "But it is essential," he added, "that interstate commerce have one master and not many."

WILSON DISCUSSES NEW YORK POLITICS

Goes Over the Plans for Anti-Tammany Fight With Colleague Malone.

WASHINGTON, June 8.—The mud-died New York situation, so far as Democratic politics is concerned, was discussed with President Wilson to-day by Collector of the Port of New York Dudley Field Malone.

It is understood that the Collector told the President that the anti-Tammany Democrats in New York State were planning to put a complete ticket in the field this fall to end Tammany control and bespeak for this ticket the support of the National Administration.

Malone refused to make any statement regarding his visit or what promises the President held out to him.

BOYS STEAL AUTO. Take Machine to Coney Island and Try to Sell It for \$200.

Arthur De Mott, sixteen years old, of No. 14 McDermott street, Brooklyn, and James Murphy, the same age, who refused to give his address, were arrested in Brooklyn to-day and held on the charge of stealing an automobile in Hartford, Conn., last Friday.

The boys were at Coney Island yesterday and last night, and early to-day took the machine to Hampton's garage at Rogers avenue and Sterling place. They offered to sell it to the proprietor of the place for \$200. He became suspicious and notified the police. The boys admitted that they had stolen the machine. Mott and Murphy will be sent to Hartford for trial.

HOTTEST JUNE 8 HERE SINCE '76 KILLS TWO MEN

Temporary relief from excessive heat and humidity, which caused the death of two persons and the prostration of many and combined to make this the hottest June 8 New York has experienced since 1876, was afforded the witted community by a thunderstorm that blew up at 2.30 o'clock this afternoon.

The weather forecaster says the relief will not be lasting, for a hot wave is on the way from the Middle West and fair and warmer is the prophecy for to-morrow.

The Weather Bureau thermometer registered 85 degrees at noon, and it was much warmer on the street, especially in open spots like City Hall Park, where the sun got full play on the asphalt. The humidity at noon was 85 per cent, but it diminished rapidly after the thunderstorm cleared the air.

F. Svarlich, a deckhand on the West Shore ferryboat Oswego, dropped dead as he was getting ready to aid in docking the boat in his slip at the foot of West Forty-second street shortly before noon. He had been complaining of the heat and dizziness all morning.

Joseph Finley of One Hundred and Second street and Columbus avenue toppled from the sidewalk, sunstruck, at Fifty-second street, near Ninth avenue. He fell in front of a truck, a front wheel of which passed over his head, killing him instantly.

SENTENCED TO CHAIR.

Murderer Gave Knockout Drops to Immigrants He Robbed.

Karl Dranwicz, convicted last week of murder in the first degree, was sentenced by Judge Nott in the Court of General Sessions to-day to die in the electric chair in Sing Sing Prison during the week beginning July 20.

Dranwicz, the evidence showed, had a flat in East Eleventh street, to which he lured Russian immigrants. He drugged them with knockout drops and robbed them.

On Dec. 27, 1913, he took Ivan Martysevich to the chair. The knockout drops killed Martysevich. Dranwicz and his accomplices packed the body in a trunk, loaded it on a pushcart and dumped it out in front of a tenement in Pitt street. They felt sure their victim was unknown in New York, but detectives learned his identity by means of a laborer's time check found in his clothing and from that traced the crime.

Taft AT NEW HARMONY.

Speaks on the Notable Experiment in Socialism.

NEW HARMONY, Ind., June 8.—This little city is crowded with visitors to celebrate Owen Day, the climax of the centennial celebration of the founding of New Harmony. Fitting tribute was paid to Robert Owen, the man who originated one of the most-discussed experiments in the history of Socialism.

The feature of the programme was an address of former President William H. Taft. Mr. Taft discussed various phases of Rappite life and of Robert Owen's experiment, and pointed out the significance of the foundation of the colony. Mr. Taft and Charles W. Fairbanks, former Vice-President, motored to New Harmony this morning from Evansville, where they spent the night. Mr. Fairbanks is to speak to-morrow.

Found Dead in Albany Hotel. ALBANY, June 8.—A man supposed to be William Engle, a travelling salesman of Gloversville, was found dead in bed in an Albany hotel last night. A physician's examination indicated that death was caused by an overdose of a drug used to induce sleep.

Injured English Polo Player Who Won't Stay Out of Game

CAPT. LESLIE ST. GEORGE CHEAPE.

NO POLO GAME TO-MORROW BECAUSE OF CHEAPE'S INJURIES

(Continued from First Page.)

chucker. Major Barrett, his teammate, had sent a hard forehead drive whistling diagonally down the field toward the dismounted player in front of the clubhouse. Hal Phipps, on a fast chestnut pony, went rocketing after the ball, with Capt. Cheape thundering on behind. Ten feet from the board Phipps swung his mount to the left to bring himself well clear of the ball for the backhand stroke. Cheape, utterly undaunted, rode for the ball, too, and when he was scarcely more than a pony's length away Phipps whipped his mallet for the stroke. The ball was sharply lofted and the next instant there was another crack of impact as the ball struck Cheape in the face. His head flew backward and the mallet dropped from his hand as his pony went racing for the clubhouse.

The Englishman never lost control of his mount. With both hands upon the reins, he saved the pony to a standstill, slid from the saddle and then crumpled up on the field. As several of the players galloped to him he staggered to his feet, the blood streaming down his face, and walked into the clubhouse. There it was found by a physician, hurriedly summoned, that his cheek had been cut and the cartilage of his nose torn, but no bones were broken. It was one of the most remarkable escapes from serious injury that had been seen upon that field in many a day. But, as a man standing in front of the clubhouse remarked, "Any player who rides in upon Hal Phipps when he's going to back the ball takes his life in his hands, because Phipps doesn't miss."

FIRST OCEAN LINER PASSES GATUN LOCKS

Alliance, of 4,000 Tons, Makes the Trip Without Any Trouble.

PANAMA, June 8.—The first passage through the Gatun locks by an ocean liner was successfully carried out to-day by the Panama Railroad steamer Alliance, a vessel of 4,000 tons. The trip was made a test of the working of the electric towing locomotives in handling a large vessel.

The operation passed off without any trouble, the time required being about an hour and a half each way. A large crowd of spectators witnessed the vessel's passage and Gov. Goethals also was present.

BURGLAR CARRIES OFF 500-POUND STEEL SAFE RIGHT ON BROADWAY

Lugs It Out Through Front Door of Restaurant on Policeman's Beat.

Some burglar has a grudge against the policeman who walks fixed post two blocks from No. 351 Broadway between 7 at night and 2 o'clock in the morning. Evidently it was the burglar's desire to show up the policeman Sunday night, for Manager Charles Cox of Child's restaurant at No. 351 Broadway says he could have had no other reason for carrying through the front door a steel safe weighing 500 pounds and containing a few papers and \$10 in change.

The safe was rolled in front of the cigar stand of the restaurant, five feet from the front door, Saturday night. It was a new safe and burglar-proof. A relief policeman passing at 2 o'clock Sunday morning noticed the front door was open. The safe, which stands in the glare of an electric lamp, was missing. Its trail led through the door and across the sidewalk.

No clue has been found to the man who picked the lock of the door, nor has the safe been discovered. Two men could hardly have lifted the four-foot steel box, says Manager Cox.

KENTUCKY CAN'T FINE THE HARVESTER TRUST

But Federal Supreme Court Holds That Missouri May Oust That Corporation.

WASHINGTON, June 8.—Fines imposed upon the alleged Harvester Trust by Kentucky courts for violations of anti-trust and anti-pooling laws of the State were set aside to-day by the United States Supreme Court. The Harvester Company was fined \$5,000 by each of a half-dozen of the county courts of Kentucky and the fines were upheld by the Court of Appeals of that State.

It was alleged by Kentucky officials that International Harvester Company of America, which was defendant in these cases, had increased prices by pooling its business with Deering Harvester Company, the Milwaukee Harvester Company and others, but the Supreme Court did not take that view of it.

The Supreme Court to-day affirmed the decree of the Missouri Supreme Court, ousting the International Harvester Company of America from the State and fining it \$25,000 for violation of the State anti-trust law.

I. W. W. MEN ON BAIL.

Berkman Gets Bonds for Twelve and All Are Let Out.

TARRYTOWN, N. Y., June 8.—Twelve "I. W. W." prisoners held in jail at White Plains for defying the authorities at Tarrytown were ordered released to-day by Justice Moorehead after Alexander Berkman, anarchist, appeared before the Justice and offered bonds for them to the amount of \$10,000 each, as demanded by District Attorney Weeks. The prisoners will appear for trial June 12.

Berkman reached here to-day with Helen Harris, who is known as "Helen of Troy."

GEN. BOOTH VISITS THE KING.

LONDON, June 8.—King George to-day received in audience Gen. Bramwell Booth, head of the Salvation Army, who had been requested to go to Buckingham Palace to give His Majesty the details of the forthcoming international congress of Salvationists. The King expressed his warm hope that the congress would be productive of great and lasting good.

HOSPITAL FOOD BAD.

Long Island State Asylum Is the Worst, Investigators Declare.

That conditions in the Long Island State Hospital for the insane in Flatbush, L. I., are worse than in any other like institution in the State was the statement made to-day before the State Hospital Commission by Reed J. Snyder, Federal Inspector of the Department of Agriculture, who carried on investigations in the hospital, and by M. J. Buckley, an inspector of the same department. The condition of food products principally used by the 78 insane inmates was frightful. He said that of 130 eggs tested, not one was fit to use. Buckley said other food was filthy.

DIED.

DRYPOLCHER.—On Friday, June 5, 1914, HERMAN DRYPOLCHER, 78 years. Relatives and friends are invited to attend funeral services at his late residence, 5 Clifford place, Brooklyn, Monday evening, 8th inst., at 8 o'clock in the afternoon. Interment at Cypress Hills Cemetery Tuesday 10 A. M.

WOMAN PHYSICIAN SUCCEEDS BAXTER IN DRUG CRUSADE

Commissioner Davis to Fight Evil on Blackwell's Island With Similar Appointments.

The housecleaning and reorganization of the Department of Correction's staff on Blackwell's Island, which Commissioner Davis promised after the arrest of Dr. Charles H. Baxter, began to-day with the appointment of Dr. Anna Hubert to fill the vacancy created by the dismissal of Dr. Baxter. Dr. Hubert is the first woman to fill the place of resident physician on the island. Dr. Davis said this morning her next move will be to appoint a woman on July 1 as superintendent in charge of all women prisoners. Other appointments will be announced in a day or so, Dr. Davis said.

Neither of these two positions will be on the city payroll for at least a year. Through Commissioner Davis's efforts, the Association of Grand Jurors has agreed to pay Dr. Hubert's salary, which has been fixed at \$1,000 up to Jan. 1. Dr. Davis will look elsewhere for the salary of the new superintendent. In the meantime, Dr. Davis is preparing a report to the Board of Estimate, asking an appropriation to meet the salaries of the new positions she will create to wipe out every vestige of graft and drug selling on the island.

As the traffic in drug selling has been carried on mainly through women prisoners, Dr. Davis said, she intends to fight the evil with women only in the future. Heretofore male physicians have made all examinations and handled the hospital cases of more than 400 women who are confined in the institution on a daily average. Dr. Hubert is a native of Seattle, Wash., and was until Jan. 1 resident physician and surgeon of the New York Infirmary for Women and Children. She is a graduate of Johns Hopkins University, Maryland.

J. J. FALLON, FORMER TOMBS WARDEN, DIES

His Funeral Will Be Held To-Morrow From Epiphany Church in Second Avenue.

John J. Fallon, for many years Warden of the Tombs Prison, from which position he was retired about six months ago, died Saturday in his home, No. 204 East Eighteenth street. He will be buried to-morrow in Calvary Cemetery, after a service in Epiphany Church, No. 878 Second avenue.

Mr. Fallon was always identified with Tammany. He was appointed Warden of the Tombs in May, 1891, and served with only brief interruption until he was retired on account of old age and pensioned on Nov. 1, 1912.

Mr. Fallon was Warden of Bellevue Hospital before receiving his Tombs appointment. In 1896 Commissioner Wright dismissed him on charges made by the papers. He was reinstated by the courts after a long fight, in which Mr. Wright was fined for contempt.

The former warden is survived by his wife, Mrs. Hannah Fallon. He was a member of Gen. James McQuade Post, No. 557, G. A. R.; the Annawanda Club, Tammany Hall General Committee and Castilian Council, Knights of Columbus.

PANIC IN THE SUBWAY.

Smoke and Sparks Give Passengers a Scare.

Grounded wires on two rear cars of a south-bound subway express caused much smoke and a small panic shortly after 3 o'clock this afternoon. The train was stopped at Brooklyn Bridge, where smoke filled the cars, and hurried to aide tracks at South Ferry, where the damage was repaired. Traffic on the line was delayed five minutes.

CANEY PENNY A POUND PROFIT THE Warm Early Summer Days are driving the thirsty soda pilgrims from Manhattan's arid deserts of hot sidewalks and asphalt to the Loft Fountains, where the Big Guy Drinks spell D-E-L-I-C-I-O-U-S to every parched throat. Sizzling, bubbling, sparkling creations, full of life and snap and zest, are served at the Loft Fountains. The richest cream, the purest and choicest Farm and Dairy products. Refresh yourself at a real oasis—a Loft Fountain.
