FOWNES GLOVES
at peace prices

ANNOUNCEMENT

by Fownes Brothers & Co. London & New York

The fact that we personally manufacture practically every pair of gloves we sell, puts us in an enviable position before the buying public.

On account of our storage supply of the best raw materials on hand, we have not been obliged to increase our prices on American or English goods. These consist of

Capes and Mochas

unlined, silk-lined, wool-lined and fur-lined, —for men, women and children.

With the supply of light-weight gloves from the European Continent cut off, this should be good news to all who desire good gloves: Fownes quality, Fownes style and Fownes durability at

no increase in price.

Visit your retailer now and supply your fall and winter needs in gloves. If you will insist on Fownes, you will secure quality—at peace prices.

"It's a FOWNES—that's all you need to know about a glove."

FOWNES BROTHERS & CO.
119 West 40th St., New York

This announcement does not include goods made on the Continent of Europe, which consist of light weight kid gloves.

EXPLODING SHELL FATALLY INJURES TWO WARLIKE BOYS

Tried to Extricate Projectile From One-Pounder and Are Blown Up.

Fired with military spirit, Thomas Mulrany, aged seven, of No. 315 East Seventy-fourth street, and Timothy and John Horran, brothers, aged seven and eight, respectively, living at No. 254 East Eighty-ninth street, carried a one-pound Hotchkiss explosive shell into the basement of an empty store at No. 254 East Eighty-ninth street to-day and began to beat it on the nose with an iron pipe. As a result Thomas and Timothy are in the Reception Hospital. They will die, John Horran was blown through the basement door into the street and will recover.

For two weeks the boys have had the shell, but did not know what it really was until a few days ago when some one told them there was powder in the brass chamber. They decided to-day to knock off the steel nose and get at the powder and then set it afire. They tried first to pull the steel shell out of its jacket, but that didn't work, so they began pounding it.

With a detonation that was heard for several blocks, the shell exploded. Detectives Veal and Ryms, who were detailed to learn who had given the shell to the youngsters, located James Smith, aged eight, of No. 198 Third avenue, who told them a painter who found the shell in a house he was decorating had given it to the boys. Smith did not know the painter's name. He also told the detectives that the boys told him several days ago that they wanted to find out "What cannon balls looked like."

From a diagram of the shell drawn by young Smith, Inspector Owen Egan of the Bureau of Combustibles, concluded it was a one-pound Hotchkiss shell of the type used in the Spanish-American war.

EXPORTS SHOW INCREASE.

Imports Are Down, but Foreign Nations Still Buy Here.

Custom House statistics issued to-day show a large increase in exports from the port of New York for the week ending Saturday, Sept. 19. The total value was \$17,205,159, as compared with \$13,806,000 the previous week and \$14,861,000 the same week last year.

While imports have fallen off heavily, the tide of exports is rising to exceptional height. Despite the blockade of the war, which caused a great slump in foreign trade during August, the record for the year since Jan. 1 shows that American exports are only \$27,000,000 behind the previous year's figures. At the rate food stuffs and manufactured articles are going out now, the deficit soon will be overcome.

Fog Delays Red Cross Ship.
PALMOUTH, England, Sept. 22 (via London).—Rear Admiral Aaron Ward, U. S. N., retired, received a despatch by wireless to-day from Capt. Armistead (capt of the American hospital ship Red Cross), stating that the vessel had been detained by fog during the last three days and would not reach Falmouth until Wednesday night. The Red Cross sailed from New York Sept. 13.

FIVE YEARS IN ARCTIC TEDDY BEAR IS BACK WITH ADVENTURE TALES

Made a Record Trip and Met Blue-Eyed Eskimos and Others Most Primitive.

NOME, Alaska, Sept. 22.—The fifteen-ton wooden gasoline schooner Teddy Bear, Capt. Joe Bernard, which left Nome on a hunting, trapping and trading expedition in 1909; which skirted the Arctic coast of Canada farther eastward than any other ship ever had gone and which might have accomplished the Northwest Passage and reached Hudson Bay but for a shortage of gasoline, arrived here yesterday.

Bernard, with John Sandstrom and an eskimo crew, left Nome well supplied with goods for trade among the Eskimos and refused to return until he had exhausted these goods. In the winter of 1910 Sandstrom was frozen to death in a blizzard on Barter Island, while he was on his way to an Eskimo village.

The Teddy Bear explored Coronation Gulf, on whose shores live the blue-eyed Eskimos supposed to be descendants of the Scandinavian settlers in Greenland. Bernard and his crew lived comfortably on the wild game of the coast and had an ambition to go to Hudson Bay, but after making more than half the distance they dared not continue because the shore farther east was uninhabited and the Teddy Bear was without gasoline. So the schooner turned back last year after reaching Cochran Point on Doldford and Union straits, more than 1,000 miles east of Point Barrow.

In 1911 Capt. Bernard met Vilhjalmur Stefansson on Coronation Gulf and carried him to Bailey Island. Bernard, who went farthest east than Stefansson, says that 75 per cent. of the Eskimos he met east of the Mackenzie River had never seen a white man or a white man's vessel. The natives lived in most primitive fashion, using stone and copper weapons and cooking utensils.

The Teddy Bear brought an extraordinary collection, weighing several tons, composed of birds, furs, eggs, implements hammered from float copper found in the river Ueda, stone pots for cooking and other curious things.

FRENCH CLAIM TO PART OF VERA CRUZ CUSTOMS DELAYS EVACUATION

Financiers Who Made Loan to Huerta Say They Should Share Fund Funston Holds.

WASHINGTON, Sept. 22.—Claim by the French Government for a part of the customs collections made by Gen. Funston at Vera Cruz, it was learned to-day, is postponing American evacuation of the Mexican port. Until the financial tangle is unraveled Funston will not move his troops. Part of the collection is claimed by French financiers as security for a loan to the Huerta Government. They hold that these claims should be satisfied by Funston out of the Mexican funds before he turns them over to a constitutional representative.

Imposition of fines on the steamers Ypiranga and Bavaria of the Hamburg-American line for entering so-called closed ports in Mexico and whether merchants who have paid duties to the American officers since the Carranza government came into power will have to pay similar sums for the same goods when Vera Cruz is taken over by the Mexicans, are also administrative questions awaiting decision. No difficulty is expected in their adjustment.

The Washington Government will assume responsibility for the care of American refugees only at Vera Cruz. It is estimated that there are altogether 1,300 refugees, including 300 nuns and priests, who want to get away before evacuation begins. Payment of transportation of other refugees than Americans, it is believed will be from church organizations of other countries.

Administration officials believe that the American forces will depart from Vera Cruz in about two weeks.

Chooses Death to Amputation.
MIDDLETOWN, N. Y., Sept. 22.—Romaine Jenasley of Montague Township, N. J., is dead, because he refused to let doctors amputate one of his legs. Jenasley's leg was hurt by a log that rolled on it. When informed by surgeons that amputation would be necessary in order to save his life, he refused to consider the advice and died a short time after.

AMERICAN HELD FOR WIFE'S DEATH IN ENGLISH TOWN

Charles H. Weston From Salem, Mass., Accused of Slashing Woman's Throat.

LONDON, Sept. 22.—Charles Henry Weston, formerly of Salem, Mass., in jail at Richmond, a suburb of London, as the result of the death of his wife, who was found to-day in their house with her throat cut and who died while being taken to a hospital. Mrs. Weston, it is alleged by the police, stated before her death that the wound had been inflicted by her husband.

Neighbors attracted by screams found Mrs. Weston suffering from several gashes in the throat. Her husband was in the house at the time and was placed under arrest.

Weston registered at the United States Consulate as an American citizen. Both he and his wife were popular in the American colony, where they were believed to live on the happiest terms.

At Delicatessen and Grocery Stores.

MAKE SETTLEMENTS OF STOCK EXCHANGE CONTRACTS TO DATE

Sale at Lower Than Closing Prices Authorized After They Are Approved.

Members of the New York Stock Exchange who came downtown to-day derived considerable satisfaction from a brief notice issued by the Committee on Clearing House to the effect that the settlement of all contracts entered on the Clearing House sheets dated July 31 has been completed, with the exception of those

made by three firms, whose affairs were placed in the hands of receivers.

The fact that the settlement of all outstanding contracts has been accomplished voluntarily was especially gratifying to Exchange members. The date referred to in the notice was the day the Governing Committee ordered business on the Exchange indefinitely suspended.

The Special Committee of Five has ruled that members wishing to buy or sell listed bonds and notes at closing prices of July 31, or at moderate concessions therefrom, which are now to be permitted, must submit their proposed transaction in writing to the Committee on Clearing House before consummating the same.

The latter committee will also continue to receive offers to buy or sell listed bonds and notes.

According to the ruling of the Special Committee of Five, any public advertising offering listed bonds should first be approved by that committee.

SPREAD \$100,000,000.
Small Investors Favored in Distribution of City Loan.
Subscriptions to the \$100,000,000 New York City loan were closed this morning and allotments were to be made later in the day. Foreign subscribers were to be given the preference, while small investors were to take precedence over dealers. The syndicate sought to distribute the notes as widely as possible, thereby relieving to a great extent any possible monetary strain on the local banking community.

Anacostia Cuts Dividend.
The Anacostia Mining Company to-day declared a dividend for the quarter of 50 cents a share. This is a reduction of 50 cents a share from the regular quarterly disbursement of 75 cents a share which was established by the company in October, 1913. The dividend is payable Oct. 14 to holders of record Oct. 2.

OF INCREASED VALUE.
Long ago silence was said to be golden, and since phonographs, pianolas and hunk wagons came in, it is rarer than ever.

James McCreery & Co.

Do You Know This Step?

The girl who can dance THE CASTLE POLKA will not be a wall flower

The Castle Polka is Mr. and Mrs. Vernon Castle's latest creation; and it will sweep the country this fall and winter, just as the "Hesitation" did last season.

Let Mr. and Mrs. Castle teach you—in your own home—how to dance it. They give you personal lessons in two pages of pictures and text

In the October Issue of The Ladies' Home Journal

You can learn it in an hour or two in your own home, just as if you were in Castle House, where all fashionable New York society will dance it.
