

SENATE FACES 24-HOUR RUSH AS SESSION WINDS UP

Senate Passes River and Harbor Bill at 6:47 A. M. To-Day, Rests, Then Continues Grind.

WASHINGTON, March 8.—Legislation which cleared today for the adjournment of Congress to-morrow. Both branches entered upon their last full day's work, expecting to stay in continuous session all night and until "day" dawned.

Senate confirmation early this morning of four Federal Trade Commissioners—all except George H. Rublee—removed a serious stumbling block. Rublee will get a recess appointment.

The Senate passed the River and Harbor Bill, the last of the big supply measures to come before it, at 6:47 this morning, and then recessed after an all night session until 11 o'clock, when the final grind was resumed.

It was only by taking the unprecedented step of adjourning the Vice President from bed and requesting his attendance that a quorum was obtained to pass the bill. Shortly after 4 o'clock Senator Oliver raised the point of no quorum, in order to get full consideration for an amendment authorizing a new dam in the Pittsburgh Harbor.

Only forty-six Senators could be found and two more were needed to make a quorum. A motion was made and carried for the issuance of warrants for the arrest of absentees. Senator Bryan, temporarily in the chair, declined to sign the warrants on the ground that they could be signed only by the Vice President or President pro tempore, Senator Clark.

After a preliminary wrangle, however, Senator Stone moved that the Vice President be requested to attend. This was carried and Mr. Marshall was aroused about 5 o'clock. Just before he arrived Senators Nelson, Page and Dillingham reported and made a quorum. The Vice President resumed the chair, though, and the bill was passed substantially without amendment.

The necessary carries \$38,000,000. The Indian Appropriations Bill, carrying \$11,350,000, was also passed today.

The Senate spent the first hours of

Quickest, Surest Cough Remedy is Home-Made

Quickly Prepared in a Few Minutes. Cheap but Unexcelled.

When people are constantly annoyed from year to year in the winter with a persistent troublesome cough, which is usually temporary, here is a home-made remedy that gets right at the cause and will make you wonder what became of it.

Get 2½ ounces Flax (30 cents' worth) from any druggist, pour into a pint bottle and fill the bottle with plain granulated sugar. Start boiling it at once. This flax and sugar syrup mixture is very sticky and thick enough to last nearly three months at a cost of only 25 cents. It is perfectly and tastes pleasant. Really prepared.

There is a special and highly concentrated compound of genuine Norway spruce resin in condensed and in essence the world over for its case, coughs and pneumonia in overcoming colds, chest and throat colds.

Get the genuine. Ask your druggist for "Big Orange Flax" and do not accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Flax Co., Ft. Wayne, Ind.—Adv.

DANCE

Truck That Will Speed to Fire on Mercy Mission; Crew Will Fight Smoke, Fumes and Big Steel Bars

to-day's session on the conference report of the Naval Bill, debating the abolition of the plucking board, but finally accepted it.

Then, in short order, the Senate agreed to the reports on the legislative bill and the diplomatic and consular appropriation bill, putting two more of the principal supply measures out of the way.

The House agreed to the conference report on the legislative, executive and judicial appropriation bill, accepting the Senate's provision to pay mileage, as usual, for traveling expenses of Congressmen, and then took up the river and harbor bill on the question of agreeing with the Senate's amendments.

After some heated debate the House accepted the Senate amendments and sent that measure to the President, adding one more to the list of bills finally disposed of.

Meanwhile disputes points in the army, Indian, general deficiency and other bills were being taken up in conference committees.

The House and Senate Committee were deadlocked over the rural credits amendments to the agricultural appropriation bill. There was also a deadlock over the railway mail pay provisions in the Post Office measure. Ultimatums to abandon the disputed points or let the bills fail were being exchanged between the contending sides.

So much work on the appropriation bills remained to be done that administration leaders expected the ship bill, the Philippine bill and other measures would have to go over for the next Congress.

Senators Root, Burton, Smoot and Lodge, who led the Republican opposition to the ship bill, arranged to watch the closing hours of the Senate to meet any attempt to pass the measure when the opposition was not watchful.

TO FLY BRITISH FLAG.

Battle Captain Defiant as He Leaves With War Cargo.

"I'll fly the British flag from here to Hellington, sir" was the brave defiance launched to-day by Capt. J. B. Hanson from the bridge of the White Star Line steamship *Halifax* just as she was ready to pull out for the war zone and Liverpool. Capt. Hanson added that he'd see himself in a summer climate before he swapped flags through fears of German submarines.

The sailing of the *Halifax* was delayed two hours by the difficulties of loading forty semi-armed auto trucks on her fore and aft decks. They are consigned to the British military depot at Avonmouth.

Political Leader Stronger Than Citizens.

(Special to The Evening World.)

HAMMONTON, N. J., March 8.—Official word reached here to-day that the Senate had confirmed the appointment of Louis J. Langham as postmaster at Hammonton. Langham's appointment was strongly protested by citizens of both parties, but his candidacy was backed by the local leader, William L. Black, chairman of the Democratic County Committee.

SMUGGLING PLOT REVEALED BY RAID ALONG THE DRIVE

(Continued from First Page.)

said to have offices in Broad Street. Mills, who had invested all he had in the rubber company, was out of money and had to cut down his plans. Instead of having the drugs shipped in large quantities at first, Mills, it is said, arranged to have bits of the stuff mailed in plain envelopes to Waldeck at No. 218 Sixth Avenue, where he also was known as May.

Several of the letters confiscated were found to contain small quantities of cocaine or opium. The cocaine, inspectors learned, cost the alleged conspirators fifty cents an ounce and was to be sold here for \$15 an ounce. Pending Waldeck's release, the business was held to a small scale, but was to have opened up when he got out of prison.

Agent Esterbrook ran onto the details of the plot while he was investigating how Waldeck came by the opium he was imprisoned for selling last summer. He found it was being smuggled into this country in envelopes containing an ounce each, mostly mailed in Berlin, where the drug can be bought for almost nothing.

The opium, which it was planned to slip into the safe boxes without the knowledge of Mills' father, was a Persian product especially valued for smoking.

Mills, it is said, formed the Peruvian Smuggling Rubber Company, capitalized at \$700,000, to finance operations he had on several South American rubber plantations. He sold several thousand dollars' worth of stock. His wife is a beautiful young Dalmatian. She knew nothing, the authorities are convinced, of her husband's alleged smuggling operations.

WASHINGTON NOTES.

WASHINGTON, March 8.—President Wilson to-day signed the Sundry Civil Appropriation Bill, carrying \$18,322,700, and the Fortifications Bill, carrying \$4,000,318.

Samuel L. Rogers of Franklin, N. C., has been selected by the President for Director of the Census, to succeed William J. Harris of Cedarstone, Ga., who was confirmed by the Senate last night as a member of the new Federal Trade Commission.

President Wilson to-day nominated John T. Ryan of Buffalo to be Appraiser of Merchandise, District 9, New York State.

Impeachment proceedings against Federal Judge Dayton of West Virginia have been ordered dropped by the House Judiciary Committee, the investigating sub-committee recommending that no further action be taken.

NO SERVICE BOARD REMOVALS TO BE ASKED

ALBANY, March 8.—The inquiry of the Thompson Legislative Committee into the workings of the up-State Public Service Commission will begin to-morrow. Members of the committee worked over their report on the down-State commission inquiry until 5 o'clock this morning, but did not finish it. The last touches were to be given it this afternoon.

Reports were current last night that the committee was split over whether recommendations regarding removals of down-State Commissioners should be made. To-day, Chairman Thompson said, the committee was agreed on this phase of the inquiry.

"There will be no positive recommendation for removal of any one," he said, "but the facts will be stated very plainly. This will satisfy every one. It certainly is not our duty to say whether any Commissioner should go or remain. When we report to the Legislature our work on the down-State inquiry will be at an end. Then it will be up to the Governor to take any action he sees fit." Opposed to the Chairman's view of the report was Col. William F. Hayward, the Governor's personal counsel, and two committeemen.

Four Horses Burn to Death.

Four horses lost their lives last night when fire destroyed a stable at No. 78 Plum Point Road, on the Newark, N. J., meadows. All the horses were saved. The loss was estimated at \$2,500.

An Easy Way to Increase Weight

Good Advice for Thin Folks

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with "flesh cream" or following some foolish physical culture stunt, while the real cause of thinness goes unnoticed. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol, and has been termed the greatest of flesh-builders. Sargol aims through its reparative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pour them into the blood, where they are carried to every starved, broken-down cell and tissue of your body. You can readily picture the result when this amazing transformation has taken place, and you realize how your cheeks fill out, hollows about your neck, shoulders and bust disappear, and you take on 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. All leading druggists of New York and vicinity have it, and will refund your money if you are not satisfied, as per the guarantee found in every package.

Notes: While Sargol has given excellent results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken by those who do not wish to gain ten pounds or more.—Adv.

"FIGHTING THE DEVIL WITH FIRE" THE JOB OF RESCUE CO. NO. 1

Will Cut Through 56-Inch Steel With Blow Pipes—Have All Means for Saving Life.

Rescue Company No. 1 of the Fire Department was installed in Engine House No. 28 to-day, and with its apparatus, will be in commission before the end of the week. Fighting the devil with fire won't be in it with Rescue Company No. 1. They'll fight smoke fires, electrical fires, battle with the deadliest of fumes and cut their way through steel bars and walls.

The high-powered motor wagon containing the apparatus attracted a crowd in front of the Municipal Building yesterday afternoon when Battalion Chief C. E. Demarest, in charge of construction and repairs for the department, brought it down for the inspection of Fire Commissioner Adams and Chief Kenion. Both pronounced judgment on the work which was the culmination of the task they have had under way for several months past. The wagon is equipped with smoke helmets, pulmotors,

stretchers, axes, fire extinguishers, rubber gloves, a life gas complete and an oxygen blow gas cutting apparatus with the power of cutting through 56 inches of steel.

The company numbers ten men who have been picked for their special qualifications in life saving and fire fighting work. These men are Capt. John J. McEligott, Lieut. Edwin Hotchkiss, John T. Mooney, James Shaw, Alfred Kinella, Alfred V. Henretty, Frank E. Clark, John T. Ryan, Thomas Kilbride and Walter A. O'Leary.

The hours of the rescue company will be "all hours." They will respond to a two-alarm fire south of Fifty-ninth Street and to a three-alarm fire as far as One Hundred and Twenty-fifth Street. Their work will be essentially rescue work. They will locate smoke fires or fires from fumes, and look after the other firemen and occupants of the burning buildings as well. There is a future ahead for Rescue Company No. 1, and the members are bubbling over with enthusiasm.

ORIGINAL GENUINE Horlicks Malted Milk. "Others are Imitations" The Food-Drink for all Ages. Rich milk, malted grain, in powder form. For infants, invalids and growing children. Pure nutrition, upbuilding the vitality. Invigorating and refreshing. More healthful than tea or coffee. Take no substitutes. Ask for HORMILK.

"SIBERIA FOR SOUSES."

Horrible Punishment for "Second Offenders" in Russia. "Siberia for the souses" is the watchword in Russia right now, according to M. L. von Clain, Vice-President of the Russian Locomotive Works, who returned from a business trip to the Czar's land to-day aboard the Scandinavian-American Line steamship *United States*. "Of course they don't say it that way," was Mr. von Clain's explanation, "but it goes. Second offenders caught loaded on vodka hit the long trail for Siberia. Russia is riding on a water wagon without springs."
