

CHINESE DEMANDING CONTROL OF CHINESE CUSTOMS COLLECTIONS

Two Things Not in Her Previous List Will Be Pressed.

BEIJING, China, March 28.—President Yuan has consented certain demands regarding the Japanese demands, which the Japanese are again making.

The negotiations have reached a point that the Chinese seem perfectly ground. The Japanese Ministry and the Chinese officials have discussed the question of Japanese immigration in Manchuria and a so-called "Haanyebing" demand—namely, the Haanyang Iron Works, the steel mines and the Pingdingshan collieries. No agreement was reached.

In Chinese official circles it is asserted that the Japanese have intimated that they will bring up two subjects not in the twenty-one original demands. Japan, it is said, wants a substantial measure of participation in the Chinese customs administration, now controlled by Britain under loan agreements guaranteed by the customs. The Japanese contend that because Japan's trade outside of that with Hongkong, a British colony, is greater than that of any other country, the Japanese should have a large, as well as influential, representation on the customs staff.

The Japanese continue to control the Tsingtau Custom House in spite of the efforts of Francis A. Aglen, the British Inspector General of Chinese Maritime Customs, to recover it.

The Japanese Legation also evinces a desire to participate in the salt administration, which, next to the customs, is China's largest source of revenue. The salt administration is controlled jointly by a Britisher, Sir Richard Morris Lane, and the Chinese.

DEATH OF CHILD'S MURDER LEADS TO MAN'S ARREST

Frank Flynn Sent to Psychopathic Ward Following Incoherent Statements.

Magistrate Devel in the Men's Night court yesterday committed to the psychopathic ward at Bellevue Hospital Frank Flynn, an upholsterer, thirty years old, who was arrested for grand larceny in a tenement at No. 410 Third avenue, not far from where five-year-old Leonora Anna Cohn was murdered three days ago.

The man's arrest followed a letter written by Mrs. Elizabeth Thompson No. 1218 First Avenue to Commissioner Woods in which she told of hearing a man talking incoherently about a murder. The police do not believe it was in any way concerned in the murder.

Deputy Police Commissioner Frank Devel is expected back from Philadelphia today in time to receive final reports on scientists who have been analyzing blood-stained garments found in an apartment in the house where the murder occurred.

7-INCH GUN STOPPED ODERWALD AT SAN JUAN

German Steamer Paid No Attention to Shots From a Rapid Firing

How the German Steamer Oderwald tried to slip out of San Juan harbor on March 21 without clearance papers and how she was stopped by American guns at a harbor fort were told in detail today by the officers of the steamer Bracon, which reached here from San Juan.

The Oderwald had been taking on coal and provisions for several days. As she sank deeper in the water men in the boats alongside painted the water line higher on her hull. When she tried to get out the fort fired two shots from a rapid firing gun. These were disregarded.

A seven-inch gun then threw a projectile so close to the Oderwald that the spray it kicked up splashed on the steamer's deck. The Oderwald returned to her anchorage.

German agents of the Oderwald, the Bracon's officers were informed, had asked the Custom House for clearance papers, but they had been refused.
