

**RECIPE TO STOP DANDRUFF USE BUCKETS AT FIRE, IGNORING APPARATUS**

This Home Made Mixture Stops Dandruff and Falling Hair and Aids Its Growth.

To a half pint of water add:  
 Bay Rum..... 1 oz.  
 Barbo Compound..... a small box  
 Glycerine..... 1/2 oz.  
 These are all simple ingredients that you can buy from any drugist at very little cost, and mix them yourself. Apply to the scalp once a day for two weeks, then once every other week until all the mixture is used. A half pint should be enough to rub the head of dandruff and kill the dandruff germ. It stops the hair from falling out, and relieves itching scalp diseases.

Although it is not dye, it acts upon the hair roots and will darken streaked, faded, gray hair in ten or fifteen days. It promotes the growth of the hair and makes harsh hair soft and glossy.—Adv.

After an automatic alarm, followed by a regular one, had brought Deputy Chief Binna, Battalion Chief Kuss, thirty-six firemen, four engines, a water tower, two trucks and a fire patrol to the Evening Post Building, at No. 20 Vesey Street, at 7 A. M. today, an old-time bucket brigade was resorted to to stop a fire on the thirteenth floor of the building.
