

GIRL BURGLAR WIELDS JIMMY LIKE AN EXPERT

Met Man in Tango Parlor and Says He Inspired Her to Crime.

NO ONE SUSPICIOUS.

Handsomely Gowned Young Woman Robs Flat With Consummate Grace.

A girl burglar appeared to-day in the Yorkville Police Court, and Detectives Conroy and Brennan of the Second Branch, experts who know a good job when they see it, declare she handled the Jimmy like an artist.

The flat of Emanuel S. Winter on the second floor of No. 319 East Twenty-ninth Street was robbed last evening. The front door was jimmied open so smoothly that there was scarcely a mark on the casing. The thief found a large trunk securely locked. The steel tool was pushed carefully under the lid, the right amount of pressure skillfully applied, and the stout lock yielded without a sound. Fine work! No one else in the house heard the least noise.

The burglar took \$25 in cash from the trunk; then at lightning speed selected \$300 worth of clothing belonging to Mr. and Mrs. Winter, packed it in two suit cases of theirs and vanished.

When the family came home and reported the loss to the police, the detectives went to the house and asked the neighbors if they had seen any suspicious person about. No, they were assured; no stranger had been on the premises but a girl, slight, dark-eyed and dark-haired, and daintily dressed in a costume of blue serge, with a black straw toque displaying a long white feather.

The detectives wandered along Fourth Avenue for a while until along came Loretta, who fitted the description exactly.

"It's all off," they assured her. "You might as well tell us." The girl's cheeks whitened and soon she was weeping. "I never wanted to do it," she cried, "but it was awful easy, just as Percy told me. I met him a few weeks ago at a dance hall and we went around together. He told me how easy it would be for a girl to get into places, because people who suspected a strange man in a building would never be suspicious of a nice girl like me. Oh, why did I do it? I hope they'll send me back to the House of the Good Shepherd!"

Magistrate Ten Eyck held Loretta in \$1,500 bail for the Grand Jury and the police are looking for Percy.

FARMER IS CUT TO PIECES.

Falls Under Harvesting Machine When Horses Run Away.

(Special to The Evening World.) LANCASTER, Pa., July 15.—White John B. Adair of Litzitz was helping his son, Henry Adair, harvest wheat, the team he was driving ran away and he fell beneath the knife blade of the machine. The animals ran 150 yards and the victim was cut to pieces.

The enamel finished inside and outside is of the highest quality. It is fireproof and will protect your food from the heat of the kitchen. It is also fireproof and will protect your food from the heat of the kitchen. It is also fireproof and will protect your food from the heat of the kitchen.

WHAT EVERY WOMAN SHOULD KNOW! How to Keep Well, Keep Strong and Keep a Perfect Figure, Told in a Series of Illustrated Lessons

To-Day's Illustrated Lesson Explains Proper Massage Methods for the Reduction of Double Chins and Gives Exercises Which Promote General Reduction.

Because of her perfect physical proportions, Pauline Furlong has been named the "American Venus." She is the author of "Beauty Culture at Home," and is an authority on all questions of woman's physical well-being. She will give a course of lessons to the women readers of The Evening World this summer on "How to Make Yourself Well and Strong and Preserve Your Figure."

LESSON XV.

By Pauline Furlong. Of just what value is massage as an aid in the battle for beauty and health?

Massage is the rich woman's method of reduction. Nevertheless, the fact that certain forms of it are expensive, and that its importance as a health-giver and beautifier is often underrated, does not prevent it from producing certain excellent effects when used by the too stout woman in connection with her regular diet and exercises.

VIGOROUS MASSAGE HELPS TO BREAK UP FAT CELLS.

It is also true that massage will either develop or reduce the parts to which it is applied, inconsistent as this may seem, but it is the method of application that produces the desired results.

Hard, firm strokes cause the parts to waste by destroying the fatty cells of the tissues as they are composed, while easy, gentle pressure builds up the tiny cells and causes gradual development by promoting the circulation and the blood supply to the wasted parts.

The woman who wants to remove a double chin, to make more shapely neck and cheeks that are unduly fat, should not use cold cream or skin food of any sort when she massages. The fat person's skin tends to be oily, and therefore more oil should not be applied to it. Yet if the skin is done with absolutely dry fingers the skin is likely to chafe and become irritated. Therefore use camphorated oil on the fingers, since camphor is a natural astringent oil and a soothing lubricant.

First, apply hot, wet towels to the face to open the pores, and continue to do so for about five minutes. Begin the hand treatment by the tips of the ears in small circles and work upward to the finger tips up to the temples beside the eyes and rub gently to banish the dreaded crow's-feet.

Continue to move the fingers upward to the forehead, over the eyes, and work in small circles to remove the forehead lines. Between the eyes use the oval motion with the long fingers of each hand, contrary to the lines. Now go around the eyes very gently, from the inner corners outward along the brows. This removes the fine lines around the eyes.

Next the nose, in firm downward strokes, one side at a time. The cheek muscles are next, and here use the clawing motion with the fingers of both hands, from the corners of the mouth up over the cheek bones. To remove the double chin, cross the hands and work upward toward the ears, using firm strokes to break down the fatty cells. Massage the neck in circles, and never neglect this, as the neck is one of the first places to show signs of advancing age. The hand massage should consume about ten minutes.

After the massage movements are finished, apply a dash of cold water to close the pores. Do not neglect the cold water, as it hardens the skin, which has been made soft by the hot water and massage. The reaction caused by the hot and cold water is the best thing to promote the circulation and bring the color to the cheeks.

A little alum solution in the final rinsing water acts as a tonic to the skin and keeps it firm; alum also, like camphor, has astringent properties. Never massage immediately before going into the street, as it causes the skin to chap and produces wrinkles. This is another good reason why massage should be done in the home, as best results are obtained if the treatment is given in a comfortable, relaxing atmosphere.

TWISTING AND KNEADING EXERCISES FOR DOUBLE CHIN.

Two of the exercises printed to-day are designed to correct that bete noire of so many women in early middle life as well as in later maturity, the double chin. The double chin adds years to the appearance. It is frequently caused by holding the head low over sewing, reading, or when exposed to cold winds. The heavy fat drags down the muscles of the cheeks and causes them to sag and droop at the sides.

To preserve the youthful contour of the face, begin to remove the double chin as early in life as possible, for if you wait too long the muscles will be less elastic than in former years, and the treatment very tiresome, if effective at all. Diet is a factor in causing the double chin to disappear, as it is when you attempt to remove flesh from other parts of the body.

NECK EXERCISE FOR DOUBLE CHIN

PAULINE FURLONG

LEG MASSAGE

Readers of Miss Furlong's articles who are keeping measurement charts or otherwise following her lessons are invited to write to her, in care of The Evening World, asking any questions pertinent to the lessons or requesting information that will aid them in following her rules for diet and exercises.

Letters From Evening World Readers Following Miss Furlong's Lessons.

MRS. T. L. writes: "Do you advocate swimming to reduce one's weight? Most good swimmers are thin, so it evidently does not promote obesity. It certainly does develop the shoulder muscles, however."

GERTRUDE K. asks: "Why do I become drowsy after lunch each day?" Do not eat any lunch and you will keep awake.

H. M. S. asks: "Do you think the game of handball will reduce flesh?" Certainly. It is the most strenuous game of all for obesity. Illustrated handball lessons will be given later.

MRS. A. B. P. asks: "How long will it take for me to do the exercises you are giving with ease?" Two or three weeks with ten minutes' practice each day.

MILDRED H. writes: "Do you advocate fruit of all kinds in your diet list for obesity?" All except bananas and grapes.

MRS. CHARLES S. asks: "What may I eat in place of bread?" You can eat gluten bread or toast. Only white and hot bread make fat.

JOHN D., IN CLEVELAND, SAYS MORGAN SHOOTING DID NOT DELAY TRIP

"That Incident" Had Nothing to Do With Change in Plans —He Has Heavy Guard.

CLEVELAND, July 15.—John D. Rockefeller, the oil magnate, arrived here this forenoon from Tarrytown, N. Y., over the New York Central Railroad for the summer at Forest Hill, his Cleveland residence. The oil king was accompanied by Miss Lucy Spelman, sister of Mrs. Rockefeller, who has died since the last visit of the family to their former residence here.

Rockefeller looked more worn and feeble than a year ago, but appeared in jovial spirits.

The Oil King declared that the attack on J. P. Morgan did not cause him to delay his trip here, as reported. "That incident had nothing at all to do with my remaining in the East a bit longer than usual," he said.

He inquired anxiously whether insects which have wrought great harm to his Pocomatic Hills, N. Y., estate had damaged Forest Hill, and seemed relieved when told that no injury had occurred here. Rockefeller was in definite as to the length of his stay here, but said it would be a "good, long one."

In order to safeguard the multimillionaire the force of guards at Forest Hill has been heavily increased.

DENY MARYE HAS RESIGNED.

Lansing Says Ambassador to Russia is Pleased With His Post. WASHINGTON, July 15.—That Gen. T. Marye had resigned as Ambassador to Russia was denied to-day by Secretary of State Lansing and Presidential Private Secretary Tumulty.

An under official of the State Department who had previously said the report of Marye's resignation was true explained that he was in error. The conflict, however, caused considerable speculation. It was the general belief that at least Marye had expressed a wish to return home. Lansing and Tumulty insisted, on the other hand, that he was well pleased with his post.

Freight Train Kills Bay Ridge Man. Patrick Walsh, thirty-two years old, of No. 317 Fifty-first Street, Bay Ridge, was killed by a freight train at 2:15 A. M. to-day in Forty-eighth Street, between First and Second Avenues, at Terminal, Brooklyn. The body was identified by his father.

DANIELS WITH EDISON TO NAME MEMBERS OF NAVY ADVISORY BOARD

Secretary After Conference With Wizard Is Expected to Announce Men Chosen.

WASHINGTON, July 15.—With the departure to-day of Secretary Daniels for West Orange, N. J., to confer with Thomas A. Edison in regard to the proposed Navy Bureau of Invention and the Civilian Advisory Board, naval officials looked forward to an announcement to follow immediately after the conference.

The Secretary will seek the views of Mr. Edison about some of the men to be invited to join the Advisory Board. Pending the conference, however, Mr. Daniels will not make known the names of other possible board members.

Before leaving Washington at 3 o'clock this afternoon Secretary Daniels said that all general phases of the board's work will be gone over at the conference, adding that he is anxious to secure the inventor's views on the proposition in detail.

"Letters by the peck have been received," said Daniels, "offering suggestions of all sorts concerning inventions and ideas. Some have attempted to discover heretofore overlooked geniuses. Others have suggested new and over again prominent and able scientists."

BRIDGEPORT, Conn., July 15.—Simon Lake, inventor of the Lake submarine, declared to-day that he will accept a position on the civilian advisory board of the United States Navy if such a place is tendered him by Secretary Daniels.

"I would be pleased to serve on such a board," declared Mr. Lake, "although it might mean considerable labor and sacrifice. Whatever ability I have I feel should be at the service of my country if in its opinion that service is desired."

ST. LOUIS GIRL WINS PULITZER SCHOLARSHIP

Miss Frances D. Rule Also Captures Barnard's in Competitive Examination.

The list of winners of competitive entrance scholarships at Barnard College, which has just been announced, is headed by Miss Frances D. Rule of St. Louis, prepared by the Mary Institute. Her record won her both the Trustees' Competitive Scholarship, awarded annually to the student who in June passes the best entrance examinations, and the Pulitzer Residence Scholarship. The latter is one of a number of scholarships, of the value of \$500 a year each, which have been established with funds left to Barnard by the late Joseph Pulitzer in memory of his daughter Lucille.

The Pulitzer Non-Residence Scholarships, open to students from New York City, has been awarded this year to Miss Dorothy Brockway from St. Agatha, Miss Lucy Carter Lee of Macon, Ga., prepared by the Hannah More Academy of Reisterstown, Md., has won the scholarship reserved for a candidate of the Southern Association of College Women.

NEW POLICE DEPUTY.

Commissioner Woods Appoints His Secretary to Officer.

Police Commissioner Woods appointed to-day to the office of Fifth Deputy Commissioner H. H. Scull, who has been acting as his secretary. Mr. Scull was succeeded as secretary to the Commissioner by Henry Joseph Cass, better known as "Jay," a popular and efficient young man from the office of Aldermanic President George McAneny.

Mr. Scull, as Fifth Deputy, will have executive charge of the various special squads controlled from Headquarters which look into the drug traffic, Anarchistic propaganda, bomb throwing, and so on. He brings experience to this line of work, which has been practically built up under his direction. Mr. Scull also will be in executive charge of the police of the Borough of Queens.

Third Deputy Commissioner Dunham has been given control of the Traffic

REMINGTON ARMS STRIKE THREATENS TO INVOLVE MANY

Other Trades Ready to Join While Head of Company Tries to Make Peace.

DEAD LINE IS DRAWN.

Police Bar Pickets and Others From Works After Fight With Guards.

BRIDGEPORT, Conn., July 15.—With the labor troubles at the great plant of the Remington Arms Company rapidly growing more complicated and threatening, industrial Bridgeport to-day turned its eyes hopefully to a conference to be held during the day between Major W. W. Penfield of the company and a committee of the Millwrights' Union in an endeavor to adjust the differences growing out of the company's construction work.

Reports are current that the holsting engineers, hod-carriers and members of the Sheet Metal Workers' Union will soon go on a sympathetic strike with the structural iron workers unless the troubles are smoothed over.

There is also said to be unrest among the machinists in other shops in the city following the announcement that the Remington Company had voluntarily made a reduction from a ten-hour day to one of eight hours, with no change in pay, for the company machine. Predictions are made that other shops will be asked to make similar concessions.

In view of a fight last night, when a laborer was beaten by one of the guards because he stepped over the so-called "dead line" where the construction work is in progress, extra precautions have been taken by the company to prevent trouble. The millwrights have stationed pickets near the company buildings.

Four companies of the Connecticut Coast Artillery, with headquarters here, awaited a call to-day to take charge of the situation if needed. Calling the companies into service rests with Mayor Wilson and the Lieutenant Governor of Connecticut. Wilson stated to-day he would call out the troops when in his judgment conditions warranted it.

CAR STRIKE TIES UP ALL RHODE ISLAND LINES

Trolley Men Demand Higher Wages and Other Concessions—No Disorder.

PROVIDENCE, R. I., July 15.—The strike of 2,400 members of the street car men's union, called at midnight, caused an almost complete tie-up to-day on the system of the Rhode Island Company, which operates street railway lines in nearly every part of the State. A. E. Potter, President of the company, said that only forty cars were in operation to-day, as compared with 450 that are run in normal times. Union officials declared that only eight cars were operating on the entire system.

The demands of the men, submitted several weeks ago, include an increase in wages of about 20 per cent; change in working schedule; abolition of the hand fare collecting machines and a closed shop.

THOUSANDS DROWN BY FLOOD IN CHINA; AMERICANS IN PERIL

Flames Add to Terrors and Other Thousands Are Homeless in Canton District.

KONG KONG, July 15.—Thousands of natives are estimated to have been drowned by floods in the Chinese provinces of Kwantung, Kwangsi and Kiangsi, according to the latest reports reaching here. A fire-swept area of one mile and raging floods are handicapping the work of rescues in Canton. The city was in darkness last night, the water having inundated the machinery of the electric light plant.

Missionaries have arrived here seeking the assistance of the United States Gunboat Callao to aid in the work of rescue. The last report received here from Canton before communication was cut said the Christian Hospital was in danger from fire.

WASHINGTON, July 15.—Consul General Anderson reported to-day to the State Department that thousands have been drowned by the floods in China. Tens of thousands are taking refuge upon the housetops and other high places and are starving. Thousands of houses in Canton have burned. American mission property in the region between Canton, Kiangsi and Wuchow is either destroyed or badly damaged. All foreigners at Wuchow have taken refuge at the British Consulate, which is situated on a high bluff. So far as is known no American lives have been lost.

The American Consul General at Hongkong says further that he has been unable for five days to communicate by telegraph with Consul General Cheshire at Canton. The Hongkong Government and citizens there are organizing relief. The American gunboats Callao and Wilmington are proceeding up the West River to assist in the rescue of those in distress.

The Consul General recommends immediate Red Cross assistance, inasmuch as there will be widespread famine, involving millions of human beings. He asks for a temporary allowance of \$20,000.

LEGISLATIVE ACT ON WOMAN SUFFRAGE LEADS

Takes Precedence at Polls Over Constitution Clause—Wording Is Made More Simple.

ALBANY, July 15.—The Suffrage Committee of the Constitutional Convention to-day reported favorably a proposal giving precedence at the polls to the Legislative Woman Suffrage measure. The proposition would provide that if the voters endorse the Suffrage amendment it became thereby a part of the new constitution.

Secretary of State Hugo to-day altered the wording of the Woman Suffrage proposal as it will appear on the ballot to meet the request of a Suffrage delegation that it be made as simple as possible. As now worded it reads:

"Shall the proposed amendment to Section 1, Article 1, of the Constitution, conferring equal suffrage on women, be approved?" In its original form it read: "Conferring on the women the right of suffrage."

SWEETHEARTS DIE TOGETHER IN WOODS

Forbidden to Marry, Man Shoots Girl and Himself, Say Police—Leave Note Telling of Love.

KINGSTON, N. Y., July 15.—Martin Sulko, twenty-seven years old, and Susie Saban, eighteen years, were found dead to-day in the woods near Flatbush, Ulster County. Sulko, the police say, shot the girl through the heart and then killed himself. It was said the father of the girl objected, it was said, to her marrying Sulko.

A note left by the couple stated they loved each other and wished to be buried together.

WILSON'S LONGEST REST.

Begins Fourth Week of His Vacation at Cornish.

CORNISH, N. H., July 15.—To-day marked the beginning of the fourth week of President Wilson's visit here—the longest vacation he has had since he was inaugurated. His previous longest idle time was with his Christiania, where he stayed nineteen days.

After his usual round of golf to-day the President worked in his study until lunch.

WASHINGTON, July 15.—President Wilson will be in Washington for Tuesday's Cabinet meeting. It was stated to-day at the White House, Secretary Tumulty thought him like to leave Cornish Sunday afternoon.
