\$26,000,000 in Coin and Securities Sent Here for British War Supplies.

LOAD FOR 25 TRUCKS. Big Shipment Brought by Warships to Halifax and Thence by Special Train.

Twenty-five motor trucks with armed guards on board them and mounted policemen riding alongside moved through the city streets today nearly forty-four tons of gold.

The gold and securities arrived at the American Express Company's depot at Tenth Avenue and Thirty-third Street on a special train from Halifax at 6:15 o'clock this morning and by noon the gold was in the vaults of the Sub-Treasury in Wall Street.

The gold shipment was made up of 1,050,000 ounces of United States gold coin, worth \$16,604 per ounce; so its total value was \$17,544,000.

An old German laborer who has worked for the American Express Company for years quit his job rather than handle the money which he thought was to be used to buy arms and ammunition to shoot his countrymen.

When the twenty-three big motor trucks and the two small trucks had all been filled with the boxes of gold the squad of twenty-five mounted police under Sergeant Darrow of Traffic C formed in two at the edge of the Tenth Avenue yard.

Police Commissioner Woods passed ahead of the procession in his car, taking a last look at the arrangement.

CORNISH, N. H., Aug. 11.—President Wilson was preparing today to leave the summer capital for Washington to discuss the Mexican and other foreign questions with Secretary Lansing and other members of his Cabinet.

WASHINGTON ACTS AFTER DEFIANT NOTE IS SENT BY CARRANZA

Lansing Is Told Mexicans Will "View With Displeasure" Attempt to Frustrate Success of Carranza Army—Pan-Americans Also Named.

WASHINGTON, Aug. 11.—Orders have been issued to the Atlantic fleet now at Newport, R. I., to be prepared to sail for Mexican waters.

WASHINGTON, Aug. 11.—Gen. Carranza, through his Washington agents today notified Secretary Lansing that "the Mexican people view with displeasure" any attempt tending to frustrate the success of Carranza's armed forces.

Carranza also has sent a similar notification to the diplomatic representatives of all the Latin-American Republics participating in the Mexican conference, saying that any attempt between them and the American Government to solve the internal situation of Mexico "would involve an act which could not be looked upon with levity, as it would mean on the part of the Latin-American nations the acceptance of the precedent that they can take part in any internal affairs of a sister nation, with the cooperation of the United States, something absolutely undesirable, not only in so far as it may affect the relations between the Latin-American nations themselves, and also because it might involve the moral support of any future decision which grows out of similar conferences."

The Carranza Agency today announced that Carranza had sent notes to Argentina and Chile protesting against their participation in the Pan-American conference, and apparently having been misinformed that Brazil refused to join the conference, has despatched a note to Rio de Janeiro expressing his gratification for what he understood to have been Brazil's action.

Carranza took occasion, however, in the note to Brazil to attack the Brazilian Minister in Mexico City, who is now leaving for the United States.

Despatches from Vera Cruz to the State Department today said the Governor had given out a public statement deprecating the anti-foreign demonstration and incendiary speeches and that quiet was restored.

Orders concerning all available regular troops on the Mexican border were looked for here some time today, Secretary Garrison would not discuss the matter, but had in conference with him all War Department officials through whom such an order would be issued.

From Gen. Funston a report was received telling of frequent border raids by Mexicans, extending westward from Brownsville more than 100 miles. In one case it was stated the invaders penetrated ninety-four miles into Texas.

Secretary Garrison significantly admitted today that three army transports are at Galveston and another at New York, ready to sail, presumably, although he did not say so, for Mexican waters.
