## WALSH A MOUNTBANK, DECLARES GOV. CARLSON

Has Spread "Mendacious Statements" Regarding Colorado, State's Executive Says.

DENVER, Aug. 30.—Gov. George A. Carlson to-day issued a statement, charging that Frank P. Walsh, Chairman of the Federal Commission on Industrial Relations, had spread "mendacious statements" regarding the political and industrial conditions in Colorado.

"Mr. Walsh, with vicious and subtle cunning, is imputing the domination

of Rockefeller to an overwhelming majority of Colorado's citizens," says the Governor's statement. "With the sophistry of the mountbank and the prestige of Federal authority he aly seeks to transfer to our people the prejudices of the nation against this man of wealth.

"After a series of \$1,000,000 opera-bouffe hearings he would convey to the nation the idea that the majority of our citizens who in the last election registered their protest against violence in labor disputes had no knowledge of the facts or were corruptly influenced.

"By nature a mountbank and a sensationalist, he did not tell the truth because the truth concerning Colorado is not wanted by the yellow press of the Nation and those anarchistic elements whom he represents."
