HOME GYMNASIUM FOR WOMEN

To Preserve Health, Strength and Figure

BY PAULINE FURLONG

A New Series of Illustrated Lessons, Showing How Every Woman May Have an Inexpensively Equipped Gymnasium in Her Own Home, and Teaching Games and Exercises Which Promote Excellent Physical Condition.

NO. 12—VOLLEY BALL.

To-day I am showing you the 'all that we will use in our home gymnasium. I purchased it in the ten-cent store, and we shall use it in a great many interesting and beneficial games and exercises. It is light in weight, so that it will be readily handled by my slender readers as well as those desiring to reduce.

I want you to make your home gymnasium so attractive that every member of the family will enjoy it, and in order to accomplish this I shall illustrate many beautiful games, which will prove a pleasure as well as a help to all.

One of the very best games I know of for making the muscles supple, the eye alert and the step light and elastic is volley ball.

I learn from the Spalding Athletic Library that this game was invented by a man named Morgan. It was first introduced at Springfield, Mass., during a convention of physical directors, under the auspices of what was then the Y. M. C. A. Training School.

It may be played on most any size court, either indoors or outdoors. Everybody seems to like it, old and

young, male and female, business men, mechanics, college students and school boys and girls. It is mild enough for the weakest and vigorous enough for the athlete, dependent upon the players themselves.

HOW TO PLAY VOLLEY BALL.

The number of players, when recreation is the object, is unlimited. In the regulation game a net seven feet six inches high is used, but for our home gymnasium we will use a rope or a mosquito net and stretch it at this height and at least three feet wide. This will answer the same purpose.

Nothing but the palm of the hand is used to bat the ball and you must not hit it with the fist nor grab and hold on to it. If you use a net you must not touch it nor reach over it to hit the ball.

The extremely high net is the strongest feature of this healthful game, because it forces you to hold the head and chin up, thereby correcting the double chin, round shoulders, flat chest and large abdomen. It makes you light on your feet, quick and alert.

My readers will content themselves with playing a lively game of volley ball without the mental strain of trying to excel or outplay their opponents.

Make the score anything that time permits, to suit your own convenience. The object is for each person to hit the ball in turn back and forth over the net before it can reach the floor. If it touches the floor it means a point lost.

Volley ball, like handball, is one of the greatest aids in the reduction of superfluous flesh. After you have played a lively game take a few minutes' deep breathing, with the mouth closed, and follow these with a cold shower and an alcohol rub.

To-morrow I will explain and illustrate the way to play "tether ball."

Letters From Evening World Readers Following Miss Furlong's Lessons.

E. B. writes: "Your lessons in The Evening World have been a great help to me. I now take the exercises every day and would feel lost without them. I seem to be perfectly healthy but suffer with a disfiguring red nose. Please tell me what causes this and how I can overcome it."

A red nose is frequently caused by high, tight collars, tight lacing and sometimes the result of highly seasoned foods and alcoholism. To remove it first find the cause and correct this. Drink quantities of water and eat very light, easily di-

GET WELL! STAY WELL!
For Diabetes and Kidney Troubles Drink **ROBINSON'S SPRING WATER**
Cures, Drug Stores, or JOHN LEFFLER & CO., 181 Franklin St., New York City.

All "Lost and Found" articles advertised in The World or reported to "Lost and Found Bureau," Room 103, World Building, will be listed for thirty days. These lists can be seen at any of The World's Offices. "Lost and Found" advertisements can be left at any of The World's Advertising Agencies, or can be telephoned directly to The World, Call 4000 Deskman, New York, or Brooklyn Office, 4100 Main.

ground foods, salads and green vegetables. Omitting exercise is also very beneficial. If the nose is particularly red in the early morning it is the result of acidity, and in this case take before breakfast each day one-half teaspoon of bicarbonate of soda in half a glass of water. This will improve the condition and also aid digestion.

Miss L. E. (Mail Label) writes: "I want to ask you how to mix the face and neck developing cream. I bought all of the ingredients but do not know how to mix them. How should I apply it?"

Mix the face very gently, over hot water. Do not allow them to get hot at any time. Next add the oil very slowly, drop by drop, and stir furiously until they are blended and smooth. When nearly cold add the benzoin (this preserves it) and scents. Rub the skin in hot water until quite red and then gently rub in a little of the cream with the palms of the hands. Rub upward and around. Remember that gentle massage stimulates and builds up the tiny cells, while hard, firm strokes break down the fatty tissue.

GRACE G. M. (Dover) writes: "I am greatly troubled with indigestion. Can you tell me what to eat and what exercises to take?"

Eat only light, easily digested foods, salads and fruits. Avoid coffee and tea, with cream. Most all of the exercises will help you, especially body twisting and bending, to touch the floor with the knees kept perfectly straight.

SUPERFLUOUS HAIR.

PAULINE W. asks: "I am a constant reader of The Evening World and enjoy your interesting lessons on how to keep well. Will you tell me how to remove a heavy growth of hair on the face? Is there a harmless permanent cure?"

Only the electric needle will permanently remove the growth of superfluous hair. You may rub barium sulphide (either the powder or made into a paste with water) on the hairs for a minute or two several times a week. Any local applications may cause slight inflammation of the skin because they are all powerful irritants. This very irritation is the cause of a heavier growth. This is the reason why NO local application will help you permanently.

HELEN M. C. writes: "I have been following your lessons every day and have found them very beneficial. Please tell me how I can make my legs larger. I am seventeen years old, five feet five inches tall and weigh 125 pounds. Is this the correct weight for me?"

You should weigh about 122, but as you are so young you will develop later on. Tennis, running, bicycling, skating and dancing will develop the leg muscles. Fracture them now while you are young and you will get quick results.

CECELIA writes: "My neck and arms are so bony. What will correct this and fill them out?"

Chest raising is the very best exercise for you. It will speedily develop and broaden the chest. Get the exercises which were printed for developing and gaining weight (July 19 to 24). Send me 10 cents and I will mail them to you.

NEWARK'S POSTER CONTEST.

Cash for Competitors in Anniversary Celebration.

In preparation for the celebration next year of the two hundred and fiftieth anniversary of the settlement of Newark, N. J., one of the committees in charge of that event has decided to advertise it by suitable posters. With that view a municipal poster exhibition will be held, with cash prizes for competitors.

Illustrators and others who wish to enter the contest are invited to send word promptly to the Newark Public Library, and they will be informed of entry dates and other details.

To learn what the public likes in municipal posters, voters will be asked to write their preferences on ballots and deposit them in boxes at the exhibition.

MOVER LOSES PRIMARY VOTE.

Residence Change Cost Electorment, Says Woodbury.

ALBANY, Sept. 12.—(Attorney General)

Woodbury, in an opinion handed down today, says that a voter who moves out of the primary district in which he is enrolled cannot vote at the primaries in either his old or new district, but loses the right to vote at the following primary. The reason for the determination of

this question was made by election officials in all parts of the State. The Attorney General also said that the voter who changes his residence but does not to the extent of actually moving out of the primary district in which he is enrolled may still vote at the coming primaries.
