

**SAGE AND SULPHUR DARKENS GRAY HAIR**

It's Grandmother's Recipe to Restore Color, Gloss and Thickness.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50-cent bottle of "Weyth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Weyth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.—Adv't.

Both cars were damaged, but no one was seriously injured.
