

Indiana Dry Next Year.
 INDIANAPOLIS, Ind., Feb. 8.—Senate amendments to the Statewide Prohibition Bill, which would make Indiana dry April 2, 1918, were concurred in by the House yesterday. The measure now goes to Gov. Goodrich, and it is understood he will sign it.

Comfort—pleasure—efficiency—all are more or less dependent upon the condition of your eyesight.

There are few occupations in which good eyesight does not play an important part.

If you really need glasses you cannot avoid them—ultimately, and by neglecting to attend to your eyes you may make matters worse.

We have the knowledge, the experience and the equipment to examine eyes and make glasses that will give you the maximum of comfort and satisfaction.

There is no obligation whether or NOT our Oculist (Registered Physician) finds that glasses are needed.

Harris Glasses are priced at from \$2 upward.

Aeronautics Supersede Autos
 As a Grand Central Show

BURGESS HYDRO AEROPLANE WHICH MAY BE USED IN U. S. ARMY

Air Navigation Shown to New Yorkers With All Its Novelties.

To-day there is opened in Grand Central Palace the First Pan-American Aeronautics Exposition, which will reveal to the public the greatest array of modern aeroplanes, balloons, accessories and aerial signal devices ever gathered under a single roof. It is promoted under the auspices of the Aero Club of America, the Pan-Aero Club of America, the American Aeronautic Federation, and the American Society of Aeronautic Engineers, co-operating with the International Exposition Company. Gov. Whitman will open the show at 8 P. M.

The United States Government is sending a number of Federal exhibits from its various departments, including those of the army and navy aviation sections, Signal Corps, Bureau of Standards, Weather Bureau, Geodetic Survey, War Department, etc.

To-day the United States lacks about 2,000 aeroplanes, 25 dirigibles and 150 observation balloons to make this country seventh in aeronautic equipment for aeronautic defense. We have only about 100 trained military aviators and plans to train about 400 more. Germany at present has over 2,000 aviators and about 20,000 machines in daily use in the war zone, and she is building machines to carry fifteen tons, equipped with high speed motors of 300 horse power. England has 107 aviation and kite balloon training schools and is rapidly drawing near a plan to have 10,000 aeroplanes in service. According to Alan H. Hawley, Henry Woodhouse, How-

machines, but have had no experience handling excessively high speed aeroplanes such as are being used on the European war front. In the opinion of some of the Aero Club officers, this spring would be a most opportune time for this race, provided we are not involved in a war.

Mrs. Penfield Closes War Charity in Vienna.
 VIENNA, Feb. 6 (via London, Feb. 8).—Mrs. Frederic C. Penfield, wife of the American Ambassador, to-day closed the workshop where for thirty months at her own expense were produced millions of bandages and wound dressings, an effort to which the late Emperor Francis Joseph gave his recognition by conferring on Mrs. Penfield a high order.

PUBLIC INVITED TO CONSULT DR. SCHOLL FOOT EXPERTS THIS WEEK AT EVERY REGAL SHOE STORE

THIS public invitation week is a feature of the Regal Foot Comfort Service. One of Doctor Scholl's foot specialists is at your disposal this week in all Regal Stores, and will make free examination and give advice regarding any foot trouble. He will suggest a simple method that will give immediate relief if you have an irritating corn, an enlarged joint, overlapping toes, weak arches, cramped toes, callouses, pains in the ball of the foot or other discomforts. Usually these conditions can be overcome by wearing one of the inexpensive and practical little foot corrective devices invented by Doctor Scholl. There is no obligation in having the specialist look at your feet and if your case needs the attention of an orthopedic surgeon you will be told so.
