THE TONIC THAT BRINGS HEALTH

"Fruit-a-tives" Builds Up The Whole System

Those who take "Fruit-a-tives" for the first time are often astonished at the way it builds them up and makes them feel better all over. They may be taking "Fruit-a-tives" for some specific disease, as Constipation, Indigestion, Chronic Headaches or Neuritis, Kidney or Bladder Trouble, Rheumatism or Pain in the Back. And they find when "Fruit-a-tives" has cured the disease, that they feel better and stronger in every way. This is due to the wonderful tonic properties of these famous tablets, made from fruit juices.

JOHNSON, SAYING I INTENDED TO BLOW UP SOME STUMPS. EXPLOSIVE IN SUIT CASE FITTED WITH FUSE.

"The three of us went to Newark and then came to New York in a taxicab. We had with us a dress suit case we had got before we left McGuire's, and had fitted it with the dynamite and fuse. Also we had tested the fuse and found that it took a minute to burn 15-4 feet of the fuse."

"After we got to the Brooklyn Bridge McCord suggested that we go to the One Hundred and Tenth Street station, as there was no one there to get hurt. When we got to that station at 4:45 o'clock in the morning I stood near the ticket chopper while McCord and Murnagh fixed up the suitcase. Murnagh lit the fuse, and McCord lowered the case to the tracks. I held the package containing the extra fuse and caps."

"Then we left the subway and as we neared Central Park we heard the explosion. I threw the package of fuse and caps over the wall. At Fifth Avenue we dispersed."

"Did you see Pollock later?" Mr. Weller asked.

"Yes, at our headquarters. He said: 'That was a good job; no one was killed or injured.'"

"McCord, Murnagh and I thought we should be paid for the job we had done, so we told Pollock that we had spent \$50 more than the \$50 given us for expenses. He gave us that amount and we split it up."

"Then Hamilton came to me later with \$50, which I gave to Murnagh."

In this national crisis as "unbelievable."

Among the railroad executives there was discussion of a compromise proposition, not in the nature of a concession to the present form of labor's demand, but an entirely different basis of adjustment which would "save the faces" of both brotherhoods and companies.

The nature of this proposition was not disclosed, but during the afternoon it was under consideration of the highest authorities of great railroads. The financiers of Wall street heavily interested in great railroads kept in close touch with the proceedings. The entire railway world was practically in a council of war.

STRIKE PRACTICALLY INEVITABLE, SOME OFFICIALS BELIEVE.

Some of the operating executives were of opinion this afternoon that a strike is practically inevitable, and began making preparations for eventualities.

Others were more hopeful and believed that an outbreak of domestic hostilities could be stayed off again. They held to the President's view that a strike at this time was unbelievable.

They expressed the opinion that the party committing the first overt act would be visited with the punishment of an aroused public anger knowing no restraint.

The Brotherhood chiefs have heard from the country. They have been impressed by the almost unanimous press condemnation of a proposed nation-wide strike at a time when the nation is facing a crisis which may prove the greatest in its history.

This condemnation is based on the open declaration of the Brotherhood chiefs that they are promoting a strike at this time solely because the country is facing a crisis and they hope to profit by the outlook.

The Brotherhood chiefs have also heard from many parts of the country that they cannot depend on the undivided support of their unions. Thousands of members of the Order of Railway Conductors and Brotherhood of Locomotive Engineers have declared that, in view of the critical situation, they will ignore the strike orders which, according to the plans of the union managers

delivered under these conditions, the executives gave consideration to the probabilities of what is likely to happen if the demands are flatly rejected.

There is disinclination on both sides to go before President Wilson again, but it is recognized that unless the critical situation can be relieved to-night or some promise given of getting together to-morrow, the President will be compelled to interfere to save the country from disaster.

RADICAL ACTION EXPECTED TO BE TAKEN BY WILSON.

If the President is obliged to intervene, the methods he will employ will not be limited to the legislative methods employed last summer.

Both sides believe that some form of radical action will be taken, even to the extreme of the Government taking possession of the roads and operating them under military law.

From Washington came unofficial word that the President hopes that the contestants in this struggle will succeed in getting together through their own efforts. He regards a strike

As a Violin differs from a Hand Organ

A machine-made garment no more resembles Franklin Simon & Co.'s finely hand-tailored Clothes for Men than a hand organ resembles a violin.

You cannot get Style at so many revolutions per minute—it takes Talent and Time.

Franklin Simon & Co.'s Ready-For-Service Clothes for Men are hand-tailored by craftsmen who have an abundance of both.

HALTS PLAN FOR CAR YARD NEAR VAN CORTLANDT PARK

Aldermanic President Dowling Acts to "Nip Project in the Bud"—Inquiry Ordered.

Aldermanic President Dowling has halted plans of the Public Service Commission for a storage yard for Interborough subway cars in an unused section of the Jerome Avenue Reservoir tract near Van Cortlandt Park. The request of the commission was presented at to-day's meeting of the Sinking Fund Commission. The commission stated it was willing to pay \$125,000 for the space needed.

"This proposed site for a storage yard," said Dowling, "is in one of the most desirable sections of the Bronx. Van Cortlandt Park is one of the city's finest play grounds, and the plan calls for the establishment of this yard at what will very soon be the most popular end of the park when the Mosholu Parkway Station of the Jerome Avenue line is opened. I am in favor of nipping this project in the bud before we have the residents of the Bronx down here in droves protesting against it."

"This price of \$125,000 for about eight acres of land seems to be very low. It is less than \$500 per city lot, and I understand owners of private property in that neighborhood are being assessed at the rate of about \$3,500 per city lot."

A committee was appointed to investigate the matter.

PRISON FOR FLAG BURNERS; BOUCK WHITE FINED ALSO

Thirty Days, Extreme Penalty, Given Three Convicted—Leader Boasts He's "Bad Patriot."

Expressing regret that he could not make the sentence thirty years, Judge McIntyre in General Sessions this afternoon sentenced Bouck White, pastor of the Church of the Social Revolution, to thirty days in the penitentiary and fined him \$100 for burning the American flag last summer at a "melting pot" meeting in the back yard of the church in West Twenty-first Street. This is the extreme penalty for desecrating the Stars and Stripes.

Edward R. Ames and August Henkel, the other men convicted with White, were given thirty day sentences. White, before making his way to the Tombs through the throng of long-haired and soft-colored "uplifters," who have offered him encouragement during the two weeks' trial, said to the court:

"I do not think a more unrepentant prisoner ever stood at the bar of justice. I spent last night in prison. I will spend many other nights in the same place. It makes no difference. I insist I am a good citizen, but a very, very bad patriot."

WILLIAM R. BAIRD DEAD.

Patent Lawyer Was Authority on College Fraternities.

Announcement was made to-day in the city of the death at his home in South Orange, N. J., of William Baird, a patent lawyer and member of the law firm of Baird, Cox, Kent and Campbell, with offices No. 21 Broadway.

Mr. Baird was born in Philadelphia on April 21, 1855, and received his education at the public and high schools of that city and Orange, N. J. He was graduated from Stevens Institute of Technology with the degree of M. E. in 1878, Columbia University with the degree of Ph. D. in 1882. He practiced law in this city about thirty-five years.

Mr. Baird was an authority on college fraternities and was the author of "The History of the Fraternity." With his wife he was the donor of the chapter house of the Wesleyan chapter of Theta Theta Pi in memory of their son.

EGG THROWER IN PRISON.

Harry Kelso, an actor and member of the White Rats organization, which is on strike against the vaudeville managers' association, was sent to Blackwell's Island to-day for ten days for throwing an egg in the Fulton Theatre, Brooklyn, last night, which struck Police Sergeant Jeremiah Conroy of the Gate Avenue Station in the face of the actors on the stage at which it was aimed.

SHERIFF'S MEN MAY ARM.

County Holds Special Deputies Do Not Violate Law.

Justices Herbert, Kernochan and Garvin, in the Bronx County Court of Special Sessions, to-day decided that special deputy sheriffs of the county may carry arms without violating the Sullivan law and dismissed the complaint against Special Deputy Enrico Clementi of No. 35 East One Hundred and Forty-eighth Street, who was charged with such a violation. Sheriff O'Brien of Bronx County testified that on February 5 he had instructed all his special deputies to be ready for immediate duty and that they might carry arms.

HEAVY FIGHTING IN MEXICO.

Battle Raged All Day at Trinchera, West of Santa Anna.

WASHINGTON, March 15.—Reports of heavy fighting between Mexican troops and Villa bandits at Trinchera, forty miles west of Santa Anna, came to the War Department to-day by way of Nogales.

Gen. Gomez, commanding the de facto troops, and the bandits under command of Gen. Roys, began fighting on the morning of March 13 and it still was in progress at noon the following day.

Saves Eggs

Royal Baking Powder makes it possible to produce appetizing and wholesome cakes, muffins, cornbread, etc., with fewer eggs than are usually required.

In many recipes the number of eggs may be reduced and excellent results obtained by adding an additional quantity of Royal Baking Powder, about a teaspoon, for each egg omitted. The following tested recipe is a practical illustration:

SPONGE CAKE
1 cup sugar
1 cup water
3 eggs
2 teaspoons Royal Baking Powder
1 cup flour
1 teaspoon salt
1/2 cup cold water
1 teaspoon flavoring

ROYAL BAKING POWDER

Made from Cream of Tartar, derived from grapes, adds none but healthful qualities to the food.
