

A Deposit Account Compels Savings

The ordinary charge account is expensive because it is a credit transaction. A Deposit Account at **Macy's** means economy because it is the equivalent of a cash purchase. Ask for the Booklet "Dollar-Diplo-Macy." It will interest you.

Misses' Wool Jersey Suits

259 All Wool High Standard of Tailoring \$15.74

Two Pretty Town, Country or Shore Models.

Had we a lower standard in making selections for this event, we could have bought "wool" jersey suits to sell for much less. But this store is satisfied only when the materials, workmanship and styles are past the point of negative discussion.

Rose Beige Copenhagen Fawn Purple Gold
Size 14, 16, 18 years

(A) Is a plain, smart sport style with deep pointed patch pockets, narrow belt and small soft collar. The skirt is almost tailored, shirred in back and belted.

(B) This one has a 36-inch coat, trimmed with border, collar, cuffs and deep revers of jersey in contrasting color. Plain, belted, shirred-back skirt.

You Should Know This

When we buy Chinaware we are not necessarily buying ware made in China. If it is American made, the chances are it was produced in Ohio or New Jersey.

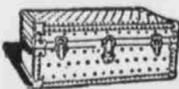

We get Chinaware from England, France and other parts of Europe. It is called China because it is made partly of Kaolin or China clay, which was unknown in Europe until brought from China.

Every manufacturer has his own formula for the preparation of his clay. Usually he takes Kaolin and mixes with it sand, pipe clay, chalk, ground flints, Cornish stone and the calcined bones of oxen and sheep.

There is a marked difference between China and porcelain. The former is transparent and rough on the bottom, while porcelain is opaque and smooth on the bottom.

By the way, do you know that the thicker a piece of glass is the more easily it may be fractured by heat? The answer is that glass is not a good conductor of heat.

PHONOGRAPHS, \$8.74

Tireless Entertainers for the Whole Summer

Chief camp comrade and music master is the phonograph, leading for song and dance with unflinching enthusiasm and untiring energy. Every camp and campfire can know a little more good fellowship with the phonograph.

If the mission of a phonograph is to produce any record accurately, that is, a maximum of tone with the proper shading and emphasis, then this is all one needs in a reproducing instrument.

Not a toy,—it is nearly as large as machines costing about double. Well built of metal. The important reproducing parts would do credit to a more expensive instrument. Light in weight and as portable as a suit case.

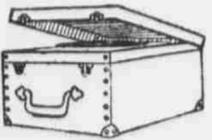

Take one along this summer to camp, summer home, picnic, in the car or canoe, and when autumn comes bring it back, and it will play its part as well as your own expensive instrument.

Every summer home, bungalow, camp, summer school, or military training encampment should know the fun and delight of music this summer at this unusually low price, \$8.74

Weights only 13 1/2 lbs. with case

Pack it up and Carry it off in this Strong Fibre Case, \$1.98

The case just fits the instrument, and forms the best means of transportation you could wish for. So light that its weight is almost negligible; strongly made of fibre, riveted with metal and finished with metal corners. Illustrated.

THOUSANDS of VICTOR RECORDS Still to Be Had In This Clearance Sale at About 1/4 LESS THAN LIST PRICES
