

GERMAN LIQUID FIRE PROJECTORS CAPTURED BY U. S. TROOPS

JAPAN FEARS GERMAN PERIL THREATENS WHOLE FAR EAST; INVASION OF INDIA FORECAST

Tokio's Press Regards Situation Following Russian Collapse as Critical.

CECIL URGES ACTION.

Teuton Captives in Siberia to Aid in Scheme for World Domination.

TOKIO, March 9.—The Japanese press is increasingly alarmed at the Russian collapse. It fears the German menace may spread through the whole Far East.

LONDON, March 9.—German prisoners in Siberia are being organized and a Prussian General has been sent to complete the work and take charge of them, according to information received today.

Lord Robert Cecil, Under Secretary of State for Foreign Affairs, pointed out this serious menace in Siberia in urging Japanese intervention there. In expressing the hope that Japan would go into Siberia and act as the boundary of the Alliance, he said he was speaking for himself, not for his Government.

Another evidence of German activity comes in a despatch from the Hague, saying that the Wolf Bureau, the German semi-official agency, has sent a despatch boasting:

"We have acquired a direct route via Russia to Persia and Afghanistan."

The announcement of the Wolf Bureau, if true, has an important bearing on the situation in Western Asia, and possibly even in India. The route would force upon Russia the Caucasus region, through which it would be possible for the German allies to gain entrance from the Black Sea or Turkey into Persia. Passage through Persia probably would meet with only nominal opposition, while a still further advance into Afghanistan would be possible.

Details of an alleged landing of Japanese troops at Vladivostok in January are given in the Petrograd newspaper Novaya Zhiin of Jan. 19, which has just been received here. The paper says that the Japanese cruiser Mikado arrived on Jan. 12 and was followed by two more cruisers on Jan. 14. Four thousand soldiers were landed and numbers of officers continued to arrive in Vladivostok daily, according to the newspaper.

A German account of the alleged landing of Japanese troops at Vladivostok in January carried the report that American and British troops also were landed from warships of those nations. This report was contained in a despatch under Petrograd date printed in the Berlin Tageblatt of Jan. 20.

Information concerning the reported entrance of British and Japanese cruisers into Vladivostok Harbor was asked of the British and Japanese Embassies in Petrograd on Jan. 20 by the Bolshevik Government. The Japanese Embassy in Petrograd immediately issued an official statement denying that Japanese forces had been landed at Vladivostok.

SAFETY IN SIBERIA**

PEKING, March 9.—Plans for the restoration of popular government in Siberia under Admiral Kolchak, former commander of the Russian Black Sea fleet, through the organization of an army to co-operate with Gen. Semenov, the leader of the anti-Bolshevik movement in Siberia, are now in preparation. It is learned here that a newly formed organization of Russians has begun enlisting men for the support of Gen. Semenov, and yesterday four field guns and fifteen machine guns were forwarded to him on the Manchurian railways.

It is proposed that Gen. Semenov, with the support of the forces to be organized to reinforce him, shall advance from the town of Manchuria, on the Manchurian Trans-Siberian, where he is now fighting, as far East as Irkutsk, some 80 miles distant on the Trans-Siberian Railroad. There he is

FIRST EXPURGATED CASUALTY LIST OUT; STORM IN SENATE

War Department Assailed for Suppressing Addresses of American War Victims.

WASHINGTON, March 9.—The first American denatured casualty list minus home addresses was issued today.

The War Department, finding that the Public Information Committee stood firm in refusing to issue the list without the addresses, published the names in full.

The list contained several common names which may immediately result in causing confusion among relatives in this country. For instance, the slightly wounded list showed Private Edward J. Farrell, a name with many duplicates. Other names not much out of the ordinary, were "Ray Moore, Hugh Hunt, John M. Young and John M. Greene."

The War Department's decision to withhold the addresses of soldiers in the casualty lists aroused a storm today in the Senate. Senators New and Frelighuysen prepared resolutions on the subject. New's resolution calls on the War Department to give its reasons for the order, and Frelighuysen says it is the sense of the Senate that the Department should continue to publish casualty lists, as heretofore.

When Senate Administration leaders learned of New's resolution they promptly took steps to shut off debate. They agreed that New could introduce a resolution late in the day with the understanding there would be no discussion on it for the present.

Today's casualty list, as given out in expurgated form, follows:

Killed in Action—First Lieut. Louis J. Jordan, Private William Stover, Private Tony Wroblewski.

Died of Automobile Accident—Corporal Harlan C. Wise.

Died in Aeroplane Accident—Lloyd Ludwig.

Slightly Wounded—Corpl. Barrett J. Rice, Private Ernest H. Stevens, Sergt. Benjamin S. Lipschitz, Private John Hurrell, Corpl. Morris Jasmow, First Lieut. John M. Greene, Corpl. John A. Rohde, Private Barney E. Pogtogue, Private Paul Skorocholski, Private Frank Kivapikowski.

Corpl. Harry Haaseel, Private Albert J. Carron, Private Hugh Mellon, Private Ray Moore, Private Antonio Yenoo, Private Garfield Joflyn, Private Ennis Lewis, Private Toureny F. Boroughs, Private Edward J. Farrell.

Severely Wounded—Private Frank J. Coyne, Private Cyril Johns, Private Hugh I. Hunt, Private Willie L. Pierce, Private Homer Milan.

DIED OF NATURAL CAUSES—Private Alex. Henry Cook, Jones E. Fowler, David A. Pugh, Private James E. Doucette, Nicholas Daley, John E. Freeman, Private George H. Collins, Private Alexander McAllister.

DIED ENEMY'S GUN—Private John E. Ernest, Private John M. Young.

SIMS CHEERED IN LONDON.

Chief of U. S. Operations in War Zone Hails Bond Campaign.

LONDON, March 9.—The war bond campaign was featured Thursday by the presence in London of Vice Admiral Sims, Chief of American operations in the war zone. Accompanied by several members of his staff, Admiral Sims launched in Fountain Pond in the shadow of the Nelson Monument in Trafalgar Square, models of warships. A huge crowd cheered for the United States and Great Britain.

LONE U. S. SENTRY PUTS 40 GERMAN RAIDERS TO FLIGHT

(Continued from First Page.)

Two projectors, two of which were flaming. The Americans went into action so quickly that the enemy had no chance to light the other two.

No damage was done by the projectors. The projectors lay in No Man's Land for three days. Today they were brought in by an American patrol. All had been punctured by shots from the American trenches.

Late this evening the projectors were taken to headquarters. They were strapped to the backs of the men who brought them from No Man's Land, and moving pictures were taken. They are of the type long familiar on the western front.

Enemy snipers have been exceptionally busy in the last twenty-four hours at a certain point. Various parts of the American sector were bombarded without suffering great damage. Many valuable points in the German positions were bombarded with success by the American artillery. A gas in the wire through which the Germans apparently thought patrols were emerging was covered with bursts of machine gun fire all night long, and even today.

An enemy observation balloon in the rear of Montsoe caught fire this morning and was hauled down. There was great activity in the air all day, following the bombing expeditions of last night, during which the Germans threw down near towns behind the American lines bombs, aerial torpedoes and heavy shells. They set the fuses and dropped them from their planes, but the only result was to dig large holes in the ground.

American anti-aircraft guns drove off several enemy machines of the many which crossed the lines today. One enemy plane was driven out of control behind the German line after an aerial battle which thrilled the men in the trenches.

GIRL FINDS TWO SOLDIERS ON TRACKS; HIT BY TRAIN

Rouses Dazed Man and Then Discovers Member of 69th, N. Y. Guard, Seriously Injured.

A little girl out on an errand early today found a soldier, apparently dazed, lying between the railroad tracks near Chappaqua, on the White Plains Division of the New York Central.

"You had better get up," she said, "a fast train will be passing in a few minutes."

The soldier roused himself and they walked up the tracks a short distance where another soldier was found, dazed and unconscious.

At the White Plains Hospital the injured man said he was Aloysius Kelly, No. 259 West 142d Street, New York, and that he had been on guard duty at Pleasantville. It was found necessary to amputate his left leg at the hip. He evidently had been struck by a train.

Kelly, who is expected to die, was a member of the 69th Regiment, New York Guard, and lived with the family of his cousin, Thomas Kelly, a chauffeur. His parents are in Ireland. He has a brother who has served two years in the British front and another brother is at Camp Upton. Kelly has applied recently for a transfer to the regular army in the hope of getting to France soon.

1,500 AT LABOR MEETING JOIN PLEA TO SAVE MOONEY

Declare Hanging of Convicted Bomb Plotter Would Be Calamity.

A resolution declaring that the hanging of Thomas J. Mooney would be a national calamity, worse than the bombardment of American cities by enemy guns, was adopted this afternoon at a labor mass-meeting in Union Square.

About 1,500 men were present at the opening of the meeting, which was under the auspices of the Central Federated Unions. An American flag was placed on the platform before the speaking began, but it drew no cheers. There was wild applause, however, when the Chairman, Charles C. Shay, International President of the Theatrical Stage Alliance, declared that Mooney had been convicted by an unfair trial.

Mooney is condemned to die for his alleged part in a bomb plot which resulted in killing ten persons in San Francisco.

In the opening paragraphs of the resolution organized labor proclaimed its "allegiance to the Government and its attachment to the constitution." Then a protest is entered "against the execution of a capital sentence on testimony admittedly perjured."

Paragraphs follow praising the war aims of the United States but declaring that "the sincerity of the United States would be impaired by an innocent man who presided at the trial and by the Attorney General of the State, who asked the Supreme Court to reverse the verdict." Attention was also called to the fact that President Wilson's commission had favored a new trial.

Anton Johnson, who came from San Francisco to tell about the trial of Mooney, described the war work that labor unions are doing there, and said that if Mooney were hanged it would be extremely hard to "hold back" the working men on the Pacific Coast.

NO DATE SET FOR EXECUTION OF MOONEY.

SAN FRANCISCO, March 9.—No date has been set for the execution of Thomas J. Mooney, whose conviction for murder recently was upheld by the California Supreme Court. His counsel still has about two weeks to file petition for rehearing, but announcement has been made that no such petition will be filed and that Gov. Stephens will be asked to extend executive clemency.

BIG COAL TRESTLE AFIRE. FIREMEN CALL FOR HELP

Blaze at Port Johnson, Bayonne, Hard to Get At—Tidewater Oil Tanks Near.

This afternoon threatened the destruction of the coal trestle at Port Johnson, Bayonne, from which thousands of tons of coal are shipped daily to Manhattan, Brooklyn, and points along the Hudson and the Sound.

The trestle is 1,300 feet long, 55 feet high at the highest point and about 50 feet wide, having four tracks. Firemen were handicapped by the difficulty of getting to the fire with their hose. They called for help from the Tide Water and Standard Oil Companies' departments and several tugs with the pumps were sent to the scene. The trestle is a part of the wall of the Tide Water and Company's yard and near it are a number of the smaller tanks and some small buildings.

'WELLINGTON'S OWN' OFFICER LAUDS PERSHING FIGHTERS

"Yankee Boys in France Take to War Business Like Veterans," Says Capt. Foulds.

AN ATLANTIC PORT, March 9.—"Your boys over in France are just ripping. They take to this war business like veterans and the way they go about their work is the admiration of all the Allied officers."

This was the tribute to Pershing's men, given today by Capt. George Foulds, an English officer of the Sixth West Riding Regiment, "Duke of Wellington's Own," who arrived today on an English ship. Though he had not had the opportunity to see the Americans in the first line trenches, Capt. Foulds said he had witnessed many demonstrations of their work of training and had the highest admiration for their determination and warlike spirit.

"I have been in this grim business from the start of the war up to six weeks ago," said Capt. Foulds, "and have not received a scratch. Though I wish I could say the same about the rest of my regiment," he added sadly. He has come to America on furlough to do lecturing work in connection with recruiting.

SISTER WANTS BOY JAILED.

Tells Court He Steals Everything He Can Get His Hands On.

Donald Wetzel, sixteen, of No. 1873 Second Avenue, was held in \$1,000 bail by Magistrate Ten Eyck in Harlem Court this morning on a charge of burglary.

Morris Herskowitz, owner of a store opposite Wetzel's home, last night discovered a large hole had been bored in the wall of his store connecting with the public passageway. Wetzel is said to have confessed that he and two companions entered the store and took \$115 from the cash register. In court a 15-year sister of the boy said:

"I wish you would send him to prison. He steals everything he can get his hands on."

LENINE REPORTED IN PLOT AGAINST U. S. AND ALLIES

Seeking to Bring About Industrial Revolution With Germany's Aid.

(Copyright, 1918, by the United Press.) WASHINGTON, March 9.—Germany, with the aid of Nikolai Lenine, Bolshevik Prime Minister, is planning to bring about industrial revolution in the United States, Japan, France, Italy and England.

Information reaching here from a highly authoritative but confidential source show the machinations of Lenine in the campaign against the "militarism of the Allies" while acting as the catspaw of the Teutons.

Following the statement of Lord Robert Cecil, British Minister of Blockade, that certain elements of the Bolsheviks, acting in collusion with German agents, have plotted an openly anti-Entente attitude, information revealed in Washington today shows the German-Lenine propaganda now under way as the most dangerous since the war began.

Already it has gone to the point where the Germans have laid before the Bolshevik leaders a proposition whereby Germany's agents, sailing in Russian ships, are to be landed in Japan, the United States and British East Asia colonies to do the work of agitators.

Already this Government is informed of freedom granted German officers to organize German prisoners of war now in Siberia.

And meantime, through a number of Swedish Socialists and Lenine's carefully chosen agents, the work of spreading ultra-Socialist propaganda among the workers in all Allied countries is to go forward, aimed to stir up industrial rebellion.

The immediate use Germany is making of Lenine and the Russian Bolshevik Government now under its domination is seen in the following cable received here today:

"The Petrograd representative of the German Navy has received instructions to propose to the Council of the People's Commissaries the following scheme:

"That several steamships be placed at the disposal of three German agents at Vladivostok to be loaded on merchant vessels and sent to the United States, Japan and the British colonies in Eastern Asia. The cargo really carried to be German agents to act as agitators.

"If unable to get Russian ships the instructions were to charter vessels under any flag."

"The action of the Russian Government on the matter has not been ascertained.

"That Germany will do her utmost to finance all the projects tending to the industrial upheaval in Allied countries is known to her promise. A deal has been made with Lenine to push the propaganda from the Bolshevik standpoint and 500,000 rubles have been appropriated for the purpose.

60,000 Harbor Men to Postpone Strike.

Indefinite postponement of the strike of the 60,000 men employed on boats in New York Harbor that had been announced to begin today was the outlook yesterday. Officers of the Marine Workers' Affiliation said the workers have decided to await the outcome of conferences between the United States Board of Arbitration and the boat owners. An amicable settlement is expected.

BRITISH REPULSE A GERMAN ATTACK ON A MILE FRONT

It Was the Second Formidable Effort in Same Region in One Day.

LONDON, March 9.—After a bombardment lasting all day the Germans yesterday evening made an attack on a front of nearly a mile in Belgium, from a point south of the Menin Road to a point north of Poelsterhoek, the War Office announces. This was the second formidable German attack in the vicinity of Ypres in one day.

"Yesterday evening," says the official report, "after considerable artillery activity all day east of Ypres, the enemy's infantry, covered by a heavy bombardment, attacked on a front of nearly a mile from south of the Menin Road to the north of the Poelsterhoek Chateau. Despite the intensity of his artillery fire and the determination of his attack, the enemy was repulsed at all points except in the neighborhood of Poelsterhoek, where his troops succeeded in entering some of our advanced positions on a front of about 200 yards. In this locality severe fighting during the night resulted in the recapture by us of the whole of our positions."

"A party of the enemy which approached our line yesterday evening east of Neuve Chamelle was driven off by our fire. At dawn this morning Portuguese troops successfully raided German trenches in this neighborhood and captured several prisoners."

"Another successful raid in which a large number of prisoners were captured by us was made this morning by West Kent troops south of Fleurbaix."

Berlin Claims Capture of Prisoners on British Front.

BERLIN, March 9 (Via London).—Troops of Crown Prince Rupprecht on the Flanders front yesterday brought in numerous prisoners after lively reconnoitering, says the official statement issued today by the German General Staff.

"East of Messenker and Houtholst Wood, north of the Ghentvelt and along the north bank of the Lys, there were vigorous infantry combats," the statement said.
