**OFFICER MISSING  
29 DAYS "WENT ON  
PARTY," SAYS GIRL**

In Cell, She Declares Lieut. Doyle "Got Sore" and Left Camp—Denies Drugging.

"Jimmy got sore at a superior officer and went on a party—and that's all there is to it."

In these few words Miss Mildred Perry, No. 200 West 70th Street, awaiting trial in Jefferson Market Prison, accused of felonious assault on Lieut. James Doyle, 9th Company, 10th Battalion, missing from Camp Upton for twenty-nine days, explains her version of what happened to the young officer now at his home, No. 1517 Morris Avenue, the Bronx, in a semi-conscious condition.

Doyle was taken to his home from the West 70th Street apartment last Wednesday in a taxicab by Miss Perry and Miss Ursula Thompson, and immediately replaced into unconsciousness. Until that time nothing had been heard from him since he left Camp Upton one month ago.

A physician was called and said the lieutenant was suffering from drug poisoning. An army surgeon

**STOPS ANY COLD  
IN A FEW HOURS**

"Pape's Cold Compound" opens clogged nose and head and ends grippe.

Relief comes instantly. A dose taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.—Adv.

was summoned and on Saturday the police decided to arrest the two women. Miss Thompson could not be found. Miss Perry was locked up charged with felonious assault. A search of the apartment failed to reveal any drugs.

Miss Perry talked freely this morning when seen in the Jefferson Market Prison. She has only recently got out of the Metropolitan Hospital where she was treated for influenza. When she was taken ill she was a bill clerk at the Biltmore Hotel and formerly was employed at the Manhattan.

"It's like this," she said this morning. "Miss Thompson owns the apartment and is Jimmy's girl. I only room there. I'm from Chicago. She's an actress, but not working. I knew Jimmy because he used to spend his week ends with 'Tommy,' but I was only out with him once and then we had dinner at the Astor—theatre, too, I think.

"Jimmy used to spend all the week ends he could at the apartment. He came in about four weeks ago to spend a week end and we couldn't get him away. He said some officer had promoted a man over him and he was sore. I wasn't in the party, even, because I had been ill.

"But Jimmy refused to leave 'Tommy,' although both of us tried to get him to go home or back to camp. Finally when he got so bad last Wednesday, we pulled the soft stuff on him and asked him if his mother wouldn't be worried. That brought him around, but he wouldn't go home unless 'Tommy' and I went with him.

"We called a taxi and drove him home. He made us get out and go in to his mother. We gave our names and addresses. Thursday morning 'Tommy' went to Jacksonville, leaving me to face whatever might follow, but there is nothing to it. When 'Jimmy' comes around all right all he has to do is to tell the truth and they won't have anything on me."

"What about the drug charge?"

"Drugs nothing—plain sense," Mrs. Doyle, the lieutenant's mother, stated this morning that the entire case was in the hands of Lieut. Finerty of the Army Intelligence Bureau, and she had been told not to talk.

"I can say this much, however," Mrs. Doyle added, "the story told by my son to the Army Intelligence Bureau has been investigated and thoroughly substantiated. The story told by the Perry girl is entirely untrue."

A private from the military police is on guard at the house, and Capt. Chase of the Army Medical Corps will permit no message to be taken to Lieut. Doyle or any one to see him.

Miss Perry was committed in default of \$1,000 bail on a short affidavit for a hearing to-morrow morning. The complaint was made by Lieut. Finerty.

**EDITOR AND PROSECUTOR  
CLASH OVER MOONEY CASE**

District Attorney and Fremont Older Said to Have Had Encounter in San Francisco Hotel.

SAN FRANCISCO, Nov. 25.—Fremont Older, editor of the San Francisco Call and Post, and District Attorney Charles K. Fickert, who prosecuted the Mooney case, commented to-day on an encounter in the lobby of a hotel.

Older's friends asserted that Fickert struck at Older when the men met in the hotel last night and that Older attempted to defend himself.

"I heard Older had threatened 'to get me,'" Fickert said. "I struck him with my left hand when I saw him make a move towards his hip pocket."

"Fickert took a mean advantage of me," said Older. "He is a comparatively young man. My friends told me he had threatened to get me. After he knocked me down, he raised his foot, but his friends pulled him away."

The encounter followed the publication here of Director General of Employment Denunore's report on the Mooney case.

Upton Hearings Appeals for Mooney. San Francisco, Cal., Nov. 25.—Upton Sinclair to-day wired Gov. Stephens in behalf of Thomas Mooney as follows: "I, you permit Mooney to die you accomplish two results. First, you greatly weaken the influence of President Wilson with labor and Socialist forces abroad, upon which he must depend for the support of his programs of international justice. Second, you make almost impossible a peaceful issue of the impending struggle between labor and capital in America."

**LEGISLATION URGED  
TO PROTECT GIRLS  
WITH JOBS IN PERIL**

Mrs. Rosalie Loew Whitney Says There Will Be No Sex Controversy.

Legislation or military regulations to safeguard the interests of girls and women who have been engaged in their duties or supplanted by returning soldiers was advocated to-day by Mrs. Rosalie Loew Whitney, one of the leading women attorneys of the United States.

"Now that the soldiers are starting home from the front," said Mrs. Whitney, "the first effort that should be made in the demobilization of the army of women who have been doing war work is to insure their return either to other work or to domestic life under favorable conditions."

"There should be no general throwing out of women from the work in which they have been engaged either in the munition or other factories or in the offices at the national capital and other centers. The same splendid military regulations governing the demobilization of the men in the army should govern the demobilization of the women who, for patriotic or economic reasons, will remain in industry of some kind. By this I do not mean they will, in retaining their positions, exclude the men who have given up those positions for the service of the United States."

"I believe those who have no domestic ties will continue to do the work they are better fitted for, and that the men who formerly filled these positions will find opportunities in outdoor work—farming or the

heavier kinds of labor—for which they are best adapted.

"There will be no sex controversy. The readjustment will work out gradually, and as for the women as a whole, there is no fear that they will eschew domestic life."

"The women of leisure who have been so industrious during the period of the war, but who theretofore had never taken any active part in public life, now will be ready and better fitted to devote their energies to civil welfare. There is as much to do in community betterment in peace times as there was in the larger war work field."

"The most important duty of women during this period is to help in every way and to watch and make sure that such legislation as will insure the protection of women is passed and properly administered."

**KEEP LOOKING YOUNG**

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities. You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.—Adv.
