WEIMAR, March 12 (Associated Press).—The German delegates to the Peace Conference will be Count von Brockdorff-Rantzau, the Foreign Minister; Dr. Eduard David, Majority Socialist and first President of the National Assembly; Dr. Adolph Warburg, Dr. Adolph Muller, Minister to Switzerland; Prof. Walther M. PARIS, March 12.—Estimates so far received from Latin-American governments of damages incurred in the war indicate that the total bill for reparations from those countries will be approximately \$1,000,000,000.

The claims are confined largely to ships sunk by the enemy, but some of the Latin-American countries are seeking the payment of money deposited in Berlin and Hamburg banks and confiscated by Germany, especially Brazil, whose citizens habitually maintained large accounts in Germany because of the coffee trade.

JURY MAY DECIDE MORTIMER CASE BEFORE TO-NIGHT

Judge Tells Them They Must Be Convinced Young Woman Drove Carelessly.

Justice Aspinall of the Long Island Supreme Court consumed forty-five minutes to-day in charging the jury in the case of Miss Edith Mortimer, charged with manslaughter because her automobile killed Nathan Wasserberger on Oct. 19 at Flushing. The verdict may be reached before night.

Judge Aspinall said: "It matters not what Murray may or may not have done if, at the time of the accident, Miss Mortimer operated her car recklessly, wantonly and without regard to safety." (Murray was the chauffeur of a truck which is said to have struck Miss Mortimer's machine before she killed Wasserberger.)

"If you find," continued Judge Aspinall, "that the defendant had her car under control and was operating it with reasonable care as she approached Linden Avenue, and that when she saw the truck coming out of Linden Avenue she accelerated her speed and turned her car to the left to avoid a collision—if you find she made only an error of judgment, you cannot convict her."

"If you find she did only what a reasonably prudent person would have done under similar circumstances, you cannot convict her. The defendant had the right to accelerate her speed to avoid a collision provided the doing of such was only an error of judgment and not a culpably negligent act."

John B. Stanchfield, counsel for the defendant, in his closing remarks to the jury, said:

"It was necessary for the District Attorney to prove that the accident was due to culpable negligence of the defendant in the operation of her automobile. It is also necessary to establish that the acts of the defendant were not merely negligent acts, but were culpably negligent. Culpable negligence is such a careless act or omission by a person as endangers the personal safety of life of another, and which could be avoided by the exercise of reasonable attention and exertion."

OFFERS TO SPEND \$25,000,000 ON JAMAICA BAY PIERS

F. E. Lomas Explains Project to City Officials—\$1,050,000 for 50-Year Lease.

F. E. Lomas appeared before the Sinking Fund Commission to-day to explain his offer to build four 1,000-foot freight piers in Jamaica Bay. He offered to pay a total of \$1,050,000 for a fifty-year lease, the property to go to the city at the end of that time.

He was asked many questions by the members of the commission, and all the members frankly stated that they would be ready to act on the offer if they could be satisfied that it was a serious business enterprise and not a promotion scheme. The matter was referred to the Committee of the Whole and Mr. Lomas was told to confer with his associates and come before the committee with evidence of his earnestness.

Mayor Hylan wanted to know what the city is expected to do as its part. Mr. Lomas said that the city is to dredge the main channel in the bay to a width of 1,000 feet and a depth of 30 feet, which he estimated will cost \$268,000. Of this, he said, the United States Government will reimburse the city for \$464,000 making the net cost to the city \$232,000. The main channel is now, he said, 18 feet deep and 500 feet wide.

The city also is to dredge Mill Basin Channel to a depth of 18 feet and a width of 300 feet at a cost of \$132,000, and Mr. Lomas estimated that it will cost the city \$100,000 for a bulkhead, making a total cost of \$462,000.

Mr. Lomas figured that it would take five years to complete the piers after the city had finished the dredging. The cost of the piers, he estimated, at \$12,000,000, and the cost of other improvements such as streets, sewers, railroad connections, filling in about the piers, buildings, &c., at an additional \$13,000,000.

PARIS, March 12.—The negotiations at Posen between the German delegates and members of the Inter-Allied Mission to Poland over the Polish frontier situation have been broken off by the German delegates, according to the Berlin Taegliche Rundschau, as quoted in a dispatch to Le Journal from Zurich.

The Germans have left Posen "as a protest against their treatment by the Allies," the newspaper reports. In a foot note Le Journal adds that according to its information the Germans by no means induced in a manifestation after the manner of that at Spa over the armistice conditions, but simply asked suspension of the negotiations to enable them to get instructions from their Government.

Woman Notorious on Three Continents Faces Jail Sentence Here on Minor Charge.

"Chicago May," notorious on three continents as one of the cleverest blackmailers in the business, whose career has been studied for many years by the best detectives of London, Paris, Chicago and New York, has been a prisoner in the Tombs for nearly two weeks, and nobody knew it until to-day.

This time she will probably serve a sentence for the first time in America, for she has pleaded guilty to a violation of the Sullivan law. She has been arrested many times before, but always escaped punishment, although she had no such luck in Paris and London.

On the night of March 5 last there was a row in a flat at No. 536 West 125th Street. The police found "Chicago May" there living under the name of May Wilson with a man who gave the name of William Avery. A revolver was found in the place and the man and woman when arraigned on the following day pleaded guilty. They are to be sentenced March 21.

FORMER KAISER PLANNED AN ASYLUM IN SWEDEN

Government Protested Against Occupation of Castle and Hohenzollern Went to Holland.

WASHINGTON, March 12.—William Hohenzollern, two months before the armistice was signed, planned an asylum in Sweden but was prevented from going to that country by the Swedish Government, diplomatic advisers made public to-day disclose.

The former Kaiser's plans had reached the point, the advisers said, where a deal was virtually closed for him to rent Castle Stora Sundby, situated on one of the large lakes in the centre of Sweden, about four hours' run by train from Stockholm. The castle is owned by old friends, Prince and Princess Wedel.

When the Swedish Government learned the purpose to which the castle was to be put, representations were made and William Hohenzollern changed his plans. In a few weeks he fled to another castle in Holland.

ACCUSER'S WIFE FAINTS ON STAND AT INCH TRIAL

Mrs. Herrman Swoons Under Questioning—Juror Removed for Talking to Himself.

Mrs. Anna Herrman, wife of Eugene P. Herrman, President of the Herrman Motor Truck Company, who is prosecuting Mrs. Betty Inch for the alleged extortion of \$215, fainted on the witness stand to-day while being cross-examined. Justice Davis of the Criminal Branch of the Supreme Court, before whom the case is being tried, declared a recess, and himself was the first to render her aid. Mrs. Herrman was revived quickly and continued on the stand this afternoon.

Mrs. Herrman had told of a woman's voice she heard over the telephone, informing her she could get evidence for a divorce. William J. Fallon, Mrs. Inch's counsel, turned a fire of questions on Mrs. Herrman, particularly regarding her statement that she had recognized the voice as that of Mrs. Inch.

"I heard her testify at the last trial," said Mrs. Herrman. "A thing like this does not happen every day. I can never forget it."

Mrs. Herrman leaned heavily against the witness box and suddenly became unconscious.

Joseph W. Davis Jr., an architect, the first witness called, testified that the screen in the woman's parlor of the Hotel Woodward is so situated that detectives hiding behind it might easily hear a conversation carried on in the parlor. It was in the parlor of this hotel that Herrman declares Mrs. Inch accepted the \$215 in marked money.

The opening moments of the trial were enlivened when District Attorney Talley presented an affidavit asking the removal of one of the jurors. The affidavit read:

Herrman followed his wife on the witness stand. "Immediately after Juror No. 8, who is Benjamin W. Wells of No. 67 West 113th Street, took his seat in the box yesterday, I observed he began talking to himself in an animated manner. He constantly closed his eyes, but at other times rolled them about wildly. At times he appeared to be deeply absorbed in prayer. I do not believe the Court desires such a juror."

Newspaper reporters also called this matter to the attention of Mr. Talley, he explained to Judge Davis. The Judge summoned William J. Fallon, attorney for Mrs. Inch, to the bar, and read in the affidavit. Attorney Fallon objected strenuously, but Judge Davis excused Juror Wells from further duty in the box and the man who talked to himself left court quietly.

BERLIN PRESS EXCITED OVER THE ALLIED PLAN OF CUTTING UP GERMANY

Awarding of Danzig to Poles and Buffer States on the Rhine Arouse Protest.

BERLIN, March 12. (Associated Press).—REPORTS from Paris to the effect that the peace treaty will provide that Poland shall have Danzig and that a buffer state shall be formed along the Rhine have stirred up the German press, both conservative and Radical.

"It is to be hoped there is no body in Germany who would suffer such a treaty to be signed," says the Lokai Anzeiger, which adds that if Danzig were given to the Poles they would get little enjoyment from it.

"This stolen property," the newspaper asserts, "would burn in their hands."

TROLLEY STRIKERS IN NEWARK STONE CARS AND CREW

(Continued from First Page)

Center of Streets and Public Improvements, said he would settle the strike in a minute by recognizing the union.

The company reiterated that it would not attempt to import strike-breakers. Efforts to employ citizens and discharged army and navy service men have so far proved fruitless.

Fifteen cars were running in Jersey City, that number being distributed over the Greenville, Montgomery, Hudson and Grove Street lines, while one car was in service between the Erie Ferry and the Lafayette District. The situation also was improved in North Hudson, where every line was in operation on a ten-minute schedule.

Commuters, however, continued to depend largely on jitney service. The Boulevard Commissioners of Jersey City yesterday granted permission for jitneys to operate on the Boulevard to the Summit Avenue station of the Hudson tube. Jitney drivers have been reaping a harvest, and the public so far has taken the new method of traveling good naturedly.

The New Jersey Co-operative Industrial Commission, seeking a settlement of the strike, will meet representatives of both sides to-night at the Robert Treat Hotel in Newark. Union leaders met this morning in Paterson.

Worry over the strike is attributed as the cause of two deaths. John Dickman, No. 222 Third Street, and another man, Michael Martin, and also one sister, Mrs. Edward Murray, native of Newark, Fairmont, County Roscommon, Ireland.

It is suggested, however, that the aviators might hold their duel over the sea.

GERMAN ISLET ASKS PROTECTION OF U. S.

Gottschee Wants to Be an Independent Republic—Many Inhabitants Are American Citizens.

VIENNA, March 12 (Associated Press).—The inhabitants of the German language islet of Gottschee in Carniola, consisting of one fair-sized town and 171 villages, have petitioned the American Commission, under Prof. A. C. Coolidge, a memorandum, asking permission for the formation of a neutral republic under the protectorate of the American people.

The memorandum embodies a complaint of oppression by the Slovene authorities. It says half the population of the Gottschee District consists of former emigrants from it to the United States, many of them American citizens.

The Gottschee District lies about twenty-five miles northwest of Trieste in the Jugo-Slav territory. It is completely surrounded by Slavic areas, but preserves German customs. It is estimated that there are 25,000 of these Germans in the main town of Gottschee, which has about 2,000 inhabitants, and the 171 villages.
