ROW IN SENATE OVER PEACE TREATY LEAK

EXPLOSION IN MINE TUNNEL COSTS 78 LIVES

WHITE HOUSE ASKS INQUIRY INTO PEACE TREATY LEAK; HITCHCOCK ATTACKS LODGE

Nebraska Senator Says Republican Leader Held Stolen Goods in His Hands.

LODGE HITS AT WILSON.

Williams Accuses Him and Borah of Wishing Only to Nag President.

WASHINGTON, June 5.—It was stated authoritatively to-day that Senator Hitchcock introduced his resolution providing for an investigation in the treaty-leak in Wall Street at a request from the White House after a conference yesterday with Secretary Daniels.

President Wilson is being kept fully advised of the situation in the Senate, but so far as has been made known he has not indicated whether he would authorize the State Department to furnish the treaty text to the Senate in the event of the passage of Senator Johnson's resolution.

In the Senate Mr. Hitchcock brought the resolution up for discussion and in closing he bitterly criticized Borah and Lodge.

"These Senators declare in effect," said Hitchcock, "that the President withdraws the treaty from the Senate and insinuates that he permits copies to go to business interests. These interests, they say, have a particular interest in the treaty. This is an attack on the President of the most scandalous character. It is a new chapter in the attack on the treaty. It is done for the purpose of attacking the treaty."

CONVEYS WRONG IMPRESSION ABOUT THE PRESIDENT.

"It conveys to the public mind the impression that a secret combination exists between the American Peace Delegation and certain financial interests, by which the latter are given advance information—a monstrous charge."

"I wish you wouldn't say 'they,' Lodge interjected. 'I did not say anything about business interests having the treaty. I'm willing to take full blame for having brought the matter up, but please quote me correctly.'"

Borah added that Lodge was correct, "although I wish he had said something about business interests." "Well," replied Hitchcock, "apparently the business interests in whose confidence Senators Borah and Lodge appear to be, did not favor Senator Borah with a glimpse of the treaty. They appear to have shown Senator Lodge greater favor."

"Men who make such a charge owe it to the public to demand an investigation and they would have, had they made the charge in the public interest. They apparently do not appreciate the gravity of the charges nor the embarrassing position in which they have placed themselves by not demanding an inquiry."

Senator Hitchcock declared that if New York interests had treaty copies they "apparently are in closer communication with enemies of the treaty than with friends of the treaty."

HITCHCOCK SAYS LODGE HELD STOLEN GOODS.

"If he held the treaty in his hands," shouted Senator Hitchcock, referring to Senator Lodge's statement as made in the Senate, "he held stolen goods; goods probably secured by bribery; goods which the American representa-

MAYOR AND CRAIG DISAGREE FIRST TIME IN OFFICIAL LIFE

Tilt Caused by Proposal to Raze Buildings and Evict 225 Families.

For the first time in the history of their official relations Mayor Hylan and Comptroller Craig to-day disagreed. It was over the action of the Comptroller in turning down a request of Park Commissioner John N. Harman for the razing of buildings in the block bounded by Johnson Avenue and Lorimer, Leonard and Boerum Streets, Brooklyn, and converting the site into a park.

"If the request of the Park Commissioner is complied with," reported Comptroller Craig, "the result will be the eviction of 225 poor families on short notice."

When the matter came before the Sinking Fund Commission to-day, Commissioner Harman said these families would have every opportunity to find new living quarters.

"I don't want to see any poor family evicted," said the Mayor, "and I do not think Commissioner Harman wants to, either. I might add there is no man in the City Administration more in sympathy with the welfare of the people than the Brooklyn Park Commissioner. I don't want him placed in the position that he is seeking the eviction of poor families."

HOT WAVE TO CONTINUE, WEATHER MAN PREDICTS

Greater Humidity To-Day Despite Slightly Lower Temperature—Cooling Breezes Possible.

Down at the Weather Bureau this morning Meteorologist Jim Beary said he would like like anything to tell New York that the heated spell is on the way out to sea or some place but as an officer and a gentleman he just couldn't do it.

At 9 o'clock the temperature was 72, or six points below the figure for the same hour yesterday.

"The humidity, however," explained the United States meteorologist, "is considerably higher; so that there is little change in the degree of discomfort."

New York's high mark yesterday was 92, not at all bad when considered alongside Albany's 96, Scranton's 98, and Hartford's 98. The freakest weather performance of the day was staged at Northfield, Vt., celebrated in New England as the "place the cold weather comes from." With a temperature of 96, Northfield, yesterday was one of the hottest places on the map.

LOW INTEREST RATE BIDDERS GET TAX SALE PROPERTY

8,000 Pieces of Realty Sold at Mineola at First Auction Under New Law.

About 8,000 parcels of real estate were sold to-day for taxes at public auction at the Mineola Court House. About \$150,000 is due on the property. This is the first sale of the kind since the new law went into effect, requiring that the bidder who bids the lowest rate of interest shall get the property. Some bidders to-day were offering a flat price without interest. The highest interest permitted is 15 per cent.

APOSTOLIC HEALER "TREATS" 100, ALL SEEMING IMPROVED

James Moore Hickson at Trinity Chapel Talks and Prays With "Patients."

James Moore Hickson, apostolic healer of the Church of England, continued to-day his work at Trinity Chapel, in 25th Street just west of Broadway, of laying on of hands for the increasing of faith in those afflicted by disease.

There were about 100 persons present at half-past 10 o'clock. Mr. Hickson is a layman in manner, speech and bearing, but his meetings with those who come to seek his help in the church have nothing of the clinic about them. They have more the atmosphere of family prayers.

In his talk with those who gathered at Trinity Chapel to-day before the service Mr. Hickson made sympathetic inquiries as to the ailment of each. He asked in a general way for the history of their efforts and those of physicians to better themselves. He explained that his powers were not those of a "healer," but one who could help them to a new faith in God, in the efficacy of prayer and in the normal healthfulness of life.

As the "patients," nearly all of whom were obviously chronic invalids, moved forward to seats along the centre aisle a young woman assistant to Mr. Hickson, with a notebook and pencil, quietly took down their names and data as to the ailment from which each one had suffered, how long and how much had been done to counteract it.

Mr. Hickson stood at the front bench of the choir, and after he had read a few prayers of the Episcopal ritual to open the service the young woman conducted the sufferers to him in the order in which she had taken their names.

He led them to the bench, each in turn, and sat talking with them for a moment or two, evidently offering sympathy, consolation and assurance in faith. He ended the talk with each one by laying his hand on the patient, sometimes on the head or arms, once or twice on the hips, and closed his eyes to recite the prayer of the church for the sick and afflicted. Sometimes the prayer was not uttered aloud.

In several instances the persons who sought him were feeble and were assisted to him by those who accompanied them to the chapel. Nine-tenths of those who sought aid were women. There was a noticeable change in the carriage of those who left the chapel after Mr. Hickson had worked with them. They seemed uplifted, walked with less lagging steps and were smiling, though often through tears.

At the conclusion of the service Mr. Hickson asked those who had been present as observers only not to charge him with any thought that he was a "healer" in his own person. In early life, in his own family, he said he discovered his ability to inspire new faith in those who were discouraged by long suffering, even to the extent of their being able to resist pain and find a new vitality for getting well.

"I believe," he said, "that my work has enabled those who have come to me to find a physical cure. But it would be doing a great wrong if anything said of my efforts should be used for the depreciation of the scientific use of medicine and surgery. To strengthen faith, faith in the divine healing powers of a Christ Who

TRAIN FILLED WITH MINERS BLOWN UP IN PENNSYLVANIA; 78 KILLED AND 40 INJURED

WILKES-BARRE, Pa., June 5.—Seventy-eight men lost their lives in an explosion and fire in the Baltimore No. 2 Tunnel of the Delaware & Hudson Coal Company to-day and 31 others were injured.

Forty-one bodies have been identified and 37 remain unidentified. The injured list, given out by the company, is not complete and it is certain that the number of injured will reach about 40.

A train of empty cars was sent to the mouth of the tunnel to take the men into the chambers. One hundred men piled into the cars, which were drawn by an electric motor. Near the end of the train was a car of black powder. John McGroarty drove the motor.

When 200 feet in the tunnel, the trolley wire broke and fell. Sparks ignited the powder and instantly there was an explosion that sent the bodies of men flying in all directions. The force was so terrific that it was heard throughout the greater part of the city.

Flames caused the greater loss of life. Other men who were burned and were trying to reach safety, died of suffocation.

When rescuers reached the tunnel there were dead and dying scattered everywhere. The injured were rapidly

EX-SOLDIERS MASS TO CRUSH REDS IN WINNIPEG STRIKE

More Than 4,000 Declare Anarchy Must End and Prepare for Action

WINNIPEG, Man., June 5.—More than 4,000 Winnipeg veterans of the great war, including scores of officers and hundreds of union men, after standing at attention in the auditorium this afternoon and singing "God Save the King," pledged themselves and their resources to maintain law and order in Winnipeg and to stamp out Bolshevism and anarchy from the forces of Winnipeg labor.

Resolutions were passed demanding that the authorities immediately arrest and punish all persons responsible for the strike situation who have attempted to overthrow constitutional government. Deportation of "all undesirable aliens" also was urged.

The mass meeting decided to appoint a committee to visit the strike headquarters in the Labor Temple to-day and to demand that the strike leaders immediately announce their stand on the local food situation and the alien question. It was intimated that if the strike leader's reply was not satisfactory, the delegation of returning soldiers "would take things into their own hands." Military authorities urged the paraders not to visit the temple en masse to-day.

Mayor Charles F. Gray addressed the meeting and said the city wanted two thousand special constables from the ranks of returned soldiers, "to protect honest labor from intimidation, to provide food for all classes, and to safeguard every branch of municipal and civil life."

A roaring response, "We are at your service" followed the Mayor's request. The city will pay the constables six dollars a day.

VANCOUVER, B. C., June 5.—Street car men joined in the general strike here to-day and thousands walked to work. The Vancouver Sun, morning newspaper, was issued under a labor censor this morning and carried not a line regarding the walk-outs.

BLAZE IN STATE HOSPITAL.

Dr. George Thompson, attending surgical cases in a ward on the second floor of Metropolitan Hospital on Blackwell's Island this afternoon, traced smoke in the hallway to a closet used for storing waste paper. He opened the door of the closet and found a lively blaze.

With the aid of nurses Dr. Thompson attacked the fire with extinguishers and fire buckets and put it out. There was some excitement in the hospital and an automatic alarm was registered at Fire Headquarters.

ARREST MADE IN PITTSBURGH MAY LEAD TO THE SEIZURE OF ENTIRE GANG OF BOMBERS

Women Sought as Members of Band Who Placed Bombs—Army Officer Asserts Radicals Planned to Seize Government.

WASHINGTON, June 5.—Many of the aliens now being caught in the dragnet thrown out by Federal and Municipal police as the result of the bomb outrages last Monday night may be deported. It became known to-day that records in the case of all of those arrested who cannot be connected directly with the bomb plot are being turned over to the Department of Labor.

Deportation of at least fifty alien agitators is understood to be pending, but officials of the Immigration Bureau decline to discuss the cases. Some of the men are said to have taken out their first citizenship papers.

GERMANY WILL SIGN TREATY, SAYS TAFT

May Be Necessary to Move Troops Farther, the Former President Adds.

PHILADELPHIA, June 5.—Ex-President William H. Taft to-day expressed the opinion that Germany will sign the Peace Treaty "although it may be necessary to move our forces farther into Germany to uphold the hands of those who will do the signing."

Taft spoke at the commencement exercises at Bryn Mawr College, of which institution his daughter, Miss Helen Taft, has been appointed president.

TEXAS SENATOR PLEADS FOR A SALOONLESS WORLD

"We Are Not 2.75 Per Cent. Americans" He Tells Anti-Saloon League.

WASHINGTON, June 5.—Delegates attending the annual convention of the Anti-Saloon League of America were promised to-day by Senator Sheppard of Texas that sale of any beverage containing even a trace of alcohol would be prohibited by laws now being framed for enforcement of nationwide prohibition.

"We are not 2.75 per cent. Americans," said Senator Sheppard, who made a plea "not only for a saloonless America, but for a saloonless world."

PITTSBURGH, June 5.—With the arrest of George Oliver, twenty-eight of Cleveland, police to-day believed they were on the trail of the anarchists responsible for Monday night's bomb explosions here.

Oliver, who has been sought since shortly after the blasts at the homes of Federal Judge W. H. S. Thompson and Immigration Inspector W. W. Sibray, was taken into custody last midnight. According to the police, literature of a radical nature was found on Oliver who came to this city the day of the explosions.

John Johnson, President of the local I. W. W., and fourteen other alleged anarchists, were being examined to-day by agents of the Department of Justice. Meanwhile, police and special detectives were searching the city for names of all persons of radical tendencies.

An Army officer connected with the Military Intelligence Service is authority for the statement that there has been hatching for some time a Red plot to seize the Government. He asserted he so reported to his superiors and the police not long ago.

He said the plan was to recruit 4,000,000 radicals, paralyze the country's transportation, seize by violence the government in the thus isolated large cities and subject the whole country to the soviet form of government. The elements in the plot, he said, included Bolsheviki, I. W. W. and other radicals.

A general strike was to have been called as the first step and it was expected that Bolshevism would be firmly established before arms could be mobilized to combat it.

WERE TO USE BOMBS IN REIGN OF TERROR.

Secret meetings were held daily in this and other cities to further the plot and recruits were taken in at every opportunity, but only after they had been tested and found thoroughly in sympathy with the movement. The secret meetings in this city, the agent said, were in Moorhead Hall, which was known as the recruiting station. Other meetings were in a local theatre, but these were closed and at them the prospective recruits were found. When a man showed special interest in the cause he was addressed individually by leaders and when it was found he could be depended upon he was admitted to the secret meetings.

Quotas for the four-million army have been assigned every city where the movement is afoot, the agent said, and preceding this great upheaval a reign of bombing and killing was planned to intimidate and terrorize the people.

He is quoted as saying this reign of terror probably would begin with the bombing of homes of prominent individuals and perhaps aggregations of people.

REGISTRATION OF ALL ALIENS TO BE URGED UPON CONGRESS AS WAY TO CURB ANARCHISTS

Quick Legislative Action in Prospect to Force Reds From Cover Under Caminetti Plan.

WASHINGTON, June 5. COMMISSIONER OF IMMIGRATION CAMINETTI is preparing a statement advocating the registration of all aliens in the United States. Stirred by the latest revelations of activities of foreign-born anarchists, Commissioner Caminetti said to-day that he would advocate the most dramatic handling of the situation.

Apparently awakening to the seriousness of the situation, a strong sentiment has developed in Congress for rigid laws and the legislation will be enacted with little delay. It is probable that the recommendations of Mr. Caminetti will serve as the basis of the new law.

Under the Caminetti plan the Government would at all times know the whereabouts of every alien within the United States, his means of livelihood and his affiliations. As it is, practically no cognizance is taken of dangerous aliens until they have committed an overt
