Line Forms to the Right!

Everybody wants some—of course. And these are the only "ocean breezes" available in town. So be sure you have a dependable electric fan to tide you and the family over the torrid times.

Our How-to-Keep-Cool Department has an imposing array of fans of every size and kind. There are the little Polar Cubs (at \$5.85) that move a large volume of air with a little current. Like some small people—they can blow awfully hard!

And there are the Westinghouse fans at anywhere from \$10.50 to \$32. Desk or wall fans in a great number of kinds—but all of them agree in one thing—that a fan's job is to keep going—and keep blowing.

Our Mid-Summer SALE of Sheer Underthings

Shows Lady How to Keep Cool and How to Save a Pretty Penny

Only inexpensive garments have been included in this sale. But we have made a very special effort to give you the simplicity that usually accompanies high-priced merchandise.

These are warm-weather undies—their very simplicity makes them cool, and their absence of frills adds to their tubability. Each piece listed has been specially purchased and specially priced. And the purchases were made some time ago—a fortunate fact which takes a goodly slice off their prices.

There are over 5000 pieces in the sale—and not one is marked more than \$2.95. Which means that wise women will purchase a summerful of comfort at only a very small outlay.
