

"Mother" Jones Fined \$100.
PITTSBURGH, Sept. 8.—Four organizers of the American Federation of Labor, including "Mother" Jones, were fined \$100 each by Mayor Crawford of Duquesne to-day for attempting to hold a meeting of steel workers yesterday without first obtaining a permit.

ACTORS ASSURED OF CLOSED SHOP BY EQUITY LAWYER

Permanent Board of Umpires to Be Formed to Adjust Individual Disputes.
Justus Sheffield, chief counsel for the Actors' Equity Association, told 300 actors to-day that the association "will eventually get the closed shop." This statement came in the midst

of a noisy meeting of Equity members who were protesting about the terms on which the strike was settled. Lawyers and officials of the Equity were heckled by the dissatisfied actors, who are said to be a small minority of the membership. Mr. Sheffield went over the agreement clause by clause and tried to convince his hearers that justice would be done for every actor. He would be had assurances that the Producing Managers' Association would expel any of its members who might try to discriminate against an Equity member.

In individual disputes, he said, the Equity would represent its members, and he added that a permanent board of umpires will be formed, composed of absolutely disinterested and fair-minded men, "such men," he said, "as Mr. Taft and Mr. Hughes."

When questioned specifically about "the booking agent evil" he said that this had been entirely eliminated; that managers will no longer send the actor to the agent, who collects a commission on each job. The actor hereafter, he said, will deal directly with the manager and all of his salary will be his own.

There will be another mass meeting of the Equity to-morrow or Wednesday. Meanwhile the theatres are busy with rehearsals for the openings and re-openings scheduled for to-night.

Injunction suits instituted by members of the Producing Managers' Association to restrain members of the Equity from interfering with theatrical performances during the strike were withdrawn, with one exception, this being the case of the Equity Company against Cantor. Attorneys for the Equity Company were granted an adjournment until Sept. 12.

ALL VOTED FOR LA GUARDIA.

Only Small Number of Voters Answered Subpoena.
Up to noon to-day less than a dozen Republican voters had responded to subpoenas to appear before Assistant District Attorney Ferdinand Pecora, who is investigating charges of fraud at the recent primaries. About 45 have been summoned from the 23rd Election District of the 24th Assembly District and the 4th Election District of the 4th Assembly District.

Asked whether they had voted for P. H. La Guardia or William M. Bennett for President of the Board of Aldermen, all said La Guardia. One said he marked his ballot with a cross for each of the candidates.

MUST SOLVE CAR PROBLEM AT ONCE, NIXON TELLS HYLAN

Asks Mayor to Call Conference to Save Traction Companies From Crisis.

Mayor Hylan to-day was invited by Public Service Commissioner Lewis Nixon to agree to a conference on the transit situation in order to save the street railways from further deterioration and crisis. Commissioner Nixon declared that Mayor Hylan's course was not warranted to help the situation in which the railways found themselves and that it was time the city realized the real facts. The letter follows:

"Official reports have been sent to me from the receivers of certain of the traction companies. These give the results of communications from the Judge of the Federal Court to receivers appointed by him. Possibly searching examination, which you will order, may lead to more or less slight changes, but conclusions based upon them will, in general, be correct."

"The disclosures made were doubtless already known to you and your advisers, and I have been hoping that you would voluntarily arrange for a discussion with all parties at interest."

"Further drifting will not mend matters, but will still further jeopardize the integrity of the equipment, demoralize the organization and very vitally affect the city's credit. To say that these various systems should be turned over to the city government is simply to beg the question."

"Will you, not, with an open mind, call a conference that will be of so earnest a character that all phases of the situation may be recognized and a satisfactory solution arrived at?"

"This crisis has been drifting down upon the city for some time. Such efforts as I have made to bring it more strongly to your attention have been received in a spirit of antagonism and insinuation most unfair. Not even an appraisal, that would be unquestioned from any quarter, has been made, although it should be at hand now as no one could say that full warning of its necessity has not been given."

"My earnest hope was that this acute condition could be put off till after the end of the year, but the increase of wages has precipitated matters and the problem must be faced and a solution found without delay."

"Increasing and crushing debts cannot be discharged by calling them the result of conspiracies or plots. Much study has been given to this question. The damage done already is through attempting to regulate conditions that were refused recognition."

"I trust that the following advantageous results may be secured in the final adjustment which will be made:

1. "Each of the present transit systems to be simplified by the consolidation or merger of the constituent companies into one railroad company.
2. "All holding companies (not railroad companies) to be abolished.
3. "Leases of roads to be terminated.
4. "Perpetual franchises to be changed to franchises limited to fixed periods within City Charter limitations or to what are known as indeterminate franchises.
5. "Values of all property to be arrived at in such a way that the determination shall be unquestioned.
6. "The city to have the option of acquiring the properties within a fixed period at an agreed valuation plus the cost of additions, extensions and improvements. (It may be advisable to provide for the amortization of purchase price out of earnings.)
7. "A flexible fare to be established whereby fares shall be automatically adjusted to meet the cost of service, together with a reasonable return to capital upon the agreed fixed valuation and upon the cost of additions, extensions and improvements. The variation in fare to be secured by maximum and minimum limits in a surplus fund. Only by such means can ultimate lower fares be secured.
8. "The city to have a representative upon the directorate of all companies.
9. "In the readjustment of preferences and possible refunding of certain loans and advances to be secured in the order in which returns are paid on city bonds, so that at least substantial blocks of such bonds may become self-supporting and so automatically freed from the debt limit."

"The solution of this vexed question must be secured without delay. As at best it will take eight or ten weeks, I beg that you will call a preliminary conference at your early convenience, and impress upon every one present that this is the paramount question before the City Government."

A new corduroy robe

The very popular and becoming bath robe of corduroy is appearing this season in the form of a less informal negligee. It slips over the head and has all the airs and graces of a tea gown.

These negligees will be ideal for the college girl, as they are very trim and easy to slip into. They will give comfort to any woman.

Aside from the practical qualities, the material is so very becoming. While they are heavy enough to give the desired warmth, they are not at all bulky.

In soft rose, American Beauty, wistaria and lavender, blue and navy; \$7.85.

Third floor, Old Building.

If you are going to buy an aluminum saucepan—Test it!

Take it up in your hands and try to squash it. The Wanamaker saucepans at 90c will stand this test. Cheaper, inferior saucepans will NOT—they squash!

Then, notice that this same Wanamaker saucepan has a handle made of two pieces of steel and hollow inside—this keeps it cool. We could give our customers a less expensive good-looking saucepan—but it would not be a really good saucepan.

Again—
the frames of all casseroles, pie dishes and baking dishes in the sale are made of solid brass and nickel-plated (not easily-rusted steel). The little standards are not cheaply soldered on—the handles are firm, the pottery is substantial and good. When you buy a casserole at \$1.90 you have bought something that will last and look well as long as it lasts.

19,600 pieces fancy china including 80 dinner sets

IN THE CHINA SALE

Five years ago, when the great war cut down European production, Japan entered more strongly into the field of dinnerware and fancy china. Oriental designs were laid aside, and occidental designs were used. The china turned out was good. It was real vitrified china—quite translucent. And the designs were such as we are used to—floral designs and border patterns like the patterns on European and American china dinner sets.

Well, we have been fortunate enough to get 19,600 pieces of this good china at

30 per cent. underprice
And you will find it on the tables tomorrow.

80 dinner sets
106 piece sets, \$45.
Our \$65 grade. Floral design, with coin gold handles.

Are you a style authority?

We want a woman of taste, intelligence and resourcefulness who is familiar with the correct fashions and can offer constructive criticisms and give assistance to the heads of our fashion sections. To qualify for this position a woman should know style and fashions herself through having been associated with people who wear them. She may have bought them for herself or others. Adequate salary and permanent position await the right person.
