

MINERS' LEADERS PLAN HARD FIGHT ON STRIKE INJUNCTION

to the bitter end, let the consequences be what they may. MINERS' LEADERS KEEP HANDS OFF IN STRIKE; PLAN FIGHT IN COURT

Obey Federal Injunction Against Giving Orders—Judge Parker Probably Will Be Retained.

INDIANAPOLIS, Ind., Nov. 1.—From the zone of most activity in connection with the strike of approximately 400,000 bituminous coal miners, headquarters of the United Mine Workers of America here has been transformed in the last twenty-four hours to perhaps the most lethargic. This is the result of the restraining order issued yesterday by United States District Judge A. B. Anderson, compelling the miners' officials to refrain from taking any part in conducting or encouraging the strike of the miners, which, according to despatches, has been carried out almost to a man among the unions of the coal workers of the country.

Miners' leaders at headquarters this far apparently have obeyed the restraining order to the letter. They not only decline to give out statements and reports concerning the strike but will not discuss their plans for combating the action of the Government in the courts.

The restraining order secured yesterday is the first step in the Government's plan to render the strike ineffective. On Nov. 3 a temporary injunction will be asked. Government officials pointing out that the first order was merely an emergency measure intended not to prevent individual miners from quitting work but to prevent organized direction of the tie-up.

The order will leave the miners free to exercise their own judgment in quitting or remaining at work and also will give the miners' leaders time to prepare to present their side of the case to the court. If the temporary injunction is granted, the Government will ask that it be made permanent.

The only known step the miners have taken toward fighting the Government in the courts is the retention of Henry Warrum, an Indianapolis attorney. It was said that Alton H. Parker of New York probably would be engaged to assist with the mine workers' case. Both Judge Parker and Mr. Warrum have represented the organization at various times in the past. The names of W. G. McAdoo, former Secretary of Treasury, and Edward F. Dunne, ex-Governor of Illinois, are mentioned as possible associates of Judge Parker and Mr. Warrum.

The executive board of the union wound up its last batch of routine business this morning and the members started at once for their homes. John L. Lewis, acting president of the union, said he expected to leave for his home in Springfield, Ill., to-night, and hoped to remain there several days.

NEW YORK COAL DEALERS PROTEST PRICE FIXING

Content That Government Action Will Curtail Output at Mines.

Declaring that there will be no shortage of bituminous coal if the miners who want to work receive protection, the directors of the Wholesale Coal Trade Association of this city have sent a letter to President Wilson, each of the cabinet officers and to each Senator and Congressman. They say that fixing a maximum price will curtail the operators' ability to meet the abnormal production costs caused by the strike, and will discourage the operators in their efforts to produce coal. "We are not now confronted with a wartime condition, but one in which the demand for coal is normal, and will continue so, if the public is assured of producing the coal to enable them to produce, and non-interference by Government departments in the matter of distribution."

MINERS START MARCH.

CHARLESTON, W. Va., Nov. 1.—A party of 300 to 400 striking miners left the Cabell Creek country early to-day to march to Charleston, despite the rain and the orders of their district officers forbidding the march, according to official information received here. The men were expected to march only as far as the end of the interurban line, when, it was reported, they would take cars for the city. Four hundred Federal troops were quartered in the Army here to-day, preparatory to leaving for their permanent camp in Kanawha City.

SPAIN'S LOCKOUT LIMITED.

MADRID, Nov. 1.—Latest reports indicate that the decision of the employers of Madrid to bring about a lockout will be confirmed by Barcelona employers. It is rumored that an employer's delegate has left for London to inform King Alfonso of the situation, but it is denied the situation will cause Alfonso to cut his visit short. Employers say the lockout will not be applied to food distribution or public services.

All "Lost and Found" articles reported in "The World" or "The Evening World" will be listed in the "Lost and Found" Room 308 World Building, will be listed for thirty days. These lists can be seen at any of The World's Offices. "Lost and Found" advertisements can be left at any of The World's Offices, or can be telephoned directly to The World, 401 4090 Jackson, New York. Brooklyn Office, 4100 Main.

NEEDY CONSUMERS TO GET COAL FIRST UNDER MINES PLAN

Railway Director Names Committees to Take Charge of Distribution.

WASHINGTON, Nov. 1.—Enforcement of the coal diversion order issued yesterday by Fuel Administrator Garfield will be in the hands of regional coal committees to be set up in eight cities by regional directors of the Railroad Administration. These committees will work under a central committee in Washington.

Director General Hines announced to-day that in allotting coal for commercial purposes the committees would give preference to consumers whose needs are urgent. Each regional committee will include a representative of Dr. Garfield. The cities in which these committees will be set up are New York, Boston, Philadelphia, Cleveland, Pittsburgh, St. Louis, Chicago and Atlanta.

No disorders necessitating use of troops had been reported at the War Department this morning. Secretary Baker left for Pottstown, Pa., where, it was stated, he was to plant a memorial tree and lay a cornerstone. His trip had nothing to do with strike distribution of troops, it was declared. Strike leaders and operators should be enjoined to Washington at once and the Government should insist on them getting together by negotiations, Senator Borah, Idaho, member of the Senate Labor Committee, said to-day.

Senator Thomas, Colorado, feared that neither side is in the mood to talk over differences now and that the appointment of an arbitration board should be delayed until the opposing sides are in a more favorable frame of mind. Senator Pomeroy, Ohio, suggested that a referendum be held on the miners' strike. "We all want this strike settled as quickly as possible and I think the atmosphere will be considerably cleared within the next twenty-four hours when we will know more about it," Pomeroy said. "I am satisfied that there would not have been a miners' strike if the American miners had been given an opportunity to vote on the question."

MINE OWNERS ADJOURN WITHOUT ACTING ON STRIKE

Still Willing to Negotiate but Opposed to Workers' Drastic Demands.

CLEVELAND, Nov. 1.—Any hope that the coal operators meeting here yesterday would make some move to forestall the coal strike at the last minute failed when the sixteen comprising the Executive Committee of the central competitive field adjourned. The Executive or Scale Committee consisted of four operators from each of the following areas: Western Pennsylvania, Ohio, Indiana and Pennsylvania. T. C. Brewster of St. Louis, Chairman of the committee, issued this statement at the close of the meeting:

"We have accepted in its entirety the President's proposal of Oct. 24, and reaffirm that acceptance. We welcome an investigation by a tribunal which the President may appoint, as suggested by him in the last paragraph of his statement of Oct. 26. We hold ourselves ready to comply at all times with any comments which the government, acting in the interests of the whole American people, may deem it wise to issue."

LIGHT AND POWER PLANTS HERE HAVE 90 DAYS' COAL

No Anxiety Over Miners' Strike at Present—B. R. T. Has Four Weeks' Reserve.

Robert E. Livingston, director of the bureau of information of the Consolidated Gas Company, said to-day that all the gas and electric companies of Manhattan and the Bronx were supplied with sufficient coal to carry them safely over a period of ninety days, and therefore no anxiety was felt at present over the effect of the miners' strike.

Mr. Livingston also said orders had been issued this morning prohibiting the further unloading of coal on the New Jersey shore. He believed the order was issued by the Government, which probably will use the coal for the purposes it deems most necessary.

At the offices of the B. R. T. it was said to-day there was a coal supply of from four to six weeks on hand.

Mme. Boutroux, War Worker, Dies. PARIS, Nov. 1.—The death is announced of Mme. Emile Boutroux, widely known for her relief work during the war. Mme. Boutroux was sixty-three years old. Her son, Pierre Boutroux, is a professor at Princeton.

400,000 COAL MINERS OUT, IS CLAIM OF UNION CHIEFS

How Strikes Has Affected Industry, According to Late Reports, Shown State by State.

Table showing the following table by States of men who left the mines last night and to-day to obey the strike call is based on reports, in most instances estimated, received by union leaders throughout the country:

COAL MINES IN MANY STATES CLOSED ON FIRST DAY OF STRIKE

(Continued From First Page.)

yet been served with a copy of the restraining order issued at Indianapolis yesterday.

"Judge Anderson," he said, "seems to have overlooked the fact that the men instead of the officials, dig the coal. Evidently the Federal Government underestimated the intelligence, courage and determination of the mine workers. Any hope the Government had that it was a strike of the officials instead of the membership has been disillusioned."

INDIANA. Tie-Up Is Practically Complete; 25,000 Out.

TERRI HAUTE, Ind., Nov. 1.—Practically all coal mines in District No. 11, which covers the Indiana field, and District No. 8, the black coal region, were on strike to-day, according to reports reaching the union headquarters here to-day. Mine whistles blew for the men to go to work, but few responded.

Trains leaving mining camps in Southern Indiana for the mine shafts, ordinarily crowded, carried only engineers and policemen, who the United Mine Workers decreed shall stay on the job to keep the mines in good condition.

The union membership in this district is approximately 25,000.

WEST VIRGINIA. All Out Except Miners Under New Contracts.

CHARLESTON, W. Va., Nov. 1.—Reports received at the headquarters of District No. 17, United Mine Workers of America, to-day indicated that approximately 45,000 miners had answered the strike call in West Virginia. With one or two exceptions, where organized miners are working under recent contracts, and with the execution of the men left at the mines to protect the property, union officials asserted that the response to the call was 100 per cent.

The report does not include the Randolph-Tucker counties coal region, district officials said, although some of the union men in that district which is not thoroughly organized may have walked out.

For the first time the Fairmont-Clarksburg region, which includes one of the largest coal fields in the State, employing approximately 14,000 men, was forced to suspend operations. The men were only recently organized.

KENTUCKY. 10,000 of 40,000 Out; Some Working Under Contracts.

MAINSVILLE, Ky., Nov. 1.—Approximately 10,000 miners of the State had struck early to-day, according to union officers, who predicted that several thousand additional men would quit before Monday.

Although officials of District No. 23 (Western Kentucky), United Mine Workers of America, have repeatedly asserted that from 15,000 to 20,000 men would answer the strike call, available reports to-day from the entire State did not show that many miners were out.

In Christian, Hopkins and Webster Counties, 4,000 miners, working at forty-seven mines, did not strike, they having entered anti-strike contracts which have been endorsed by the miners' national organization.

There are approximately 40,000 miners in the State, more than half of whom are reported unionized.

MICHIGAN. All Mines Tied Up by Strike of 2,400.

BAY CITY, Mich., Nov. 1.—Not a pound of coal is being produced in Michigan coal mines to-day, according to union officials. The 2,400 members of District No. 24, United Mine Workers of America, they added, went out yesterday to remain out "until they have won this strike."

COLORADO. Troops Near Mines as 5,000 Quit Work.

DENVER, Nov. 1.—Approximately five thousand coal miners were on strike in Colorado to-day, and State troops were putting into Trinidad this morning to aid in preserving order in the South Colorado fields. Additional forces were expected to move into Fredrick, in the Northern Colorado fields, during the morning.

OKLAHOMA. 8,000 Quit Work in 125 Mines of State.

OKLAHOMA CITY, Okla., Nov. 1.—More than 8,000 miners employed in over 125 mines are on strike through-

out the Oklahoma coal fields, according to early reports from union officials. MARYLAND. Tie-Up Complete in Two Coal Fields. CUMBERLAND, Md., Nov. 1.—When 4,500 miners in the two fields here (the Georges Creek and the Upper Potomac) ended their day's work at 9 o'clock last night they took their tools with them and quit. The day's shift, scheduled to go to work this morning, did not start. There is disorder.

ALIEN COAL MINER HAS \$3,000 IN BANK, AMERICAN, ONLY \$100

Big Difference in Average Deposits of Pennsylvania Workers.

Pittsburgh, Pa., Nov. 1.—PROMINENT BANKER of Brownsville section to-day shed an interesting light on the coal strike so far as it affects the foreign miners. He declared the average bank account of the alien coal miner was \$3,000, while the average bank account of the American miner was less than \$100.

When the steel strike began it was stated that the foreign workers in that industry had bank deposits ranging from \$2,000 to \$3,000.

ENGRAVERS' STRIKE FORCES STREET AND SMITH TO CLOSE

Cosmopolitan, Now Printed in Chicago, Makes Its Appearance Here.

Street & Smith, No. 75 Seventh Avenue, publishers of Popular, Top Notch and other magazines, to-day closed down. A week ago the publishers broke away from the Employing Printers Union and hired pressmen from the outlawed unions. As a result the engravers walked out and Street & Smith found themselves worse off than they were before.

The "Cosmopolitan" made its appearance on the newsstands to-day, the first of the magazines, formerly here, to be printed in Chicago. It was asserted to-day that other magazines that moved to Chicago will soon be on the market.

"Big 6" Typographical Union will meet to-morrow in the Star Casino. "Big 6" has been told by its international body to order the "vacationists" to return to work.

MRS. COLE IS APPOINTED DEPUTY COUNTY CLERK

First Woman to Hold That Office in Bronx County; Takes Oath of Office.

Mrs. Alma J. Cole, No. 2634 Grand Concourse, was to-day sworn in as a Special Deputy County Clerk of Bronx County, the first woman to hold that position. County Clerk Joseph M. Callahan announced that Mrs. Cole will be assigned to duty in the naturalization office, where she has been employed as clerk and stenographer.

The new Special Deputy County Clerk is the wife of William B. F. Cole, who fought overseas with the 27th Division.

COL. JAMES D. BELL DIES.

G. A. R. Commander Is Victim of Pneumonia.

Col. James D. Bell, for many years Democratic Leader in Brooklyn, where he was almost constantly in public office, died early this morning at his home, No. 91 Bushy Road, Brooklyn. He was seventy-four years old. Gen. Bell was elected Commander in Chief of the Grand Army of the Republic last September.

Pneumonia was the cause of his death.

Air Bombs Dropped During War Cause \$500,000 Collapse.

PADUA, Italy, Nov. 1.—Three Austrian air bombs to-day caused the collapse of the big electric power plant here, which suddenly slid into the Pavego Canal. The bombs, dropped during the war, damaged the foundations, facilitating corrosive action by the canal waters. The damage was estimated at \$500,000, and the city is without light or power.

West Va. Pochontas Mines Operate Normally.

BLUEFIELD, W. Va., Nov. 1.—Mines in the Pochontas stockless coal field are operating normally to-day, reports the superintendent indicated. Order prevailed at all points.

Steamer Missing With Crew.

HAVANA, Nov. 1.—The small steamer Maria Julia, belonging to the Antillas Navigation Company, bound from Havana for Uruetitas, is missing. The steamer sailed Oct. 22. She had a crew of thirteen men.

DRY LAW GUM-SHOERS HAVE NEW WEAPON TO STRIKE JOHN BARLEYCORN

It's Called a Chilloscope and Can Register the Kick of 2.75 or Weaker.

THE Prohibition gunshoers in their campaign against booze, it's the chilloscope and they carry it concealed about their person as thoroughly as John Barleycorn is concealed in a cellar.

Instructions are to be given in the use of the new weapon in the Customs House beginning Monday, so that the agents may not hurt themselves with it. It is said to be a cross between a stethoscope and a horse syringe.

An agent calls for a glass of beer and immediately shoots his chilloscope (pronounced "chilloscope") into the glass and 2.75, fifty-fifty, or whatever it is, immediately registers and the result is an arrest or an apology.

There is one good thing to be said for the chilloscope. It shoots John Barleycorn direct instead of shooting bystanders and bartenders.

400 FAMILIES GO ON RENT STRIKE IN EAST NEW YORK

Refuse to Pay \$4 and \$5 a Month Increase—Five Evictions Reported.

The biggest rent strike that New York has yet known, measured by the number of families participating, was started this morning in the East New York section of Brooklyn.

Four hundred families in 184 apartment houses are involved. The area covered is in New Jersey Avenue, Vermont, Wyona and Bradford Streets, between Blake and Dumont Avenues. The property is owned by the John Decher Development Company and the John Decher estate. The agent is Joseph Lazarus.

The tenants say that on July 1 their rents were increased \$2 a month on the four-room apartments and \$3.50 on the six-room apartments. Then on Oct. 1, they complain, they received notices of another boost effective to-day. The new increases are \$4 a month for four rooms and \$5 a month for six. This brings the rent of a four-room flat up to \$22 and that of a six-room flat up to \$32.

The tenants unanimously refused to pay rent to-day, the day of the new increase. No disorder has been reported.

INJUNCTION IS ASKED TO STOP ENFORCEMENT OF BONE DRY LAW

(Continued From First Page.)

I do not believe there are many of them. Such "blind tigers" will continue to exist, and it will be routine work to close them. It is my opinion that few, if any, self-respecting citizens will patronize places that remain open in defiance of the law, knowing that they are sure to be closed. No self-respecting man wishes to run the chance of being found in company with lawbreakers and drunkards."

HAD THE REAL "KICK."

Brooklyn's Celebrator Forgets Where He Got It Fixed.

The first case of intoxication to be heard in the Adams Street Police Court, Brooklyn, since officers of the Internal Revenue Department appeared in that borough on Monday in connection with the War Prohibition Enforcement Act was called this morning when Thomas Gustafson, twenty-two years old, of No. 423 33d Street, Brooklyn, was arraigned. Gustafson, who couldn't remember where he got "it," paid a \$3 fine.

Harold Lockwood Home Robbed.

NORWALK, Conn., Nov. 1.—Under cover of Halloween activities in Norwalk, thieves last night entered the residence of Manie de F. Lockwood, escaping with several thousands of dollars' worth of silverware from the dining room.

Accepts Premier Hon'g's Resignation.

TORONTO, Ont., Nov. 1.—The Lieutenant Governor to-day accepted the resignations of Premier Sir William Miller and his cabinet. E. C. Drury, leader of the farmers-labor coalition, has been called upon to form a Government.

WASH DAY LATE THIS WEEK.

More laundry will be washed and delivered to-day as a result of the return of a large number of hand laundry workers, according to Vernon B. Smith, international union leader. The only differences left to settle are with the steam laundry workers, and the prospect is a good one for an early adjustment.

Steam laundries have in most cases resumed operation in spite of the shortage of workers.

Knocked Out by New Yorker, Ex-Boxer Is in Serious Condition.

MILWAUKEE, Nov. 1.—Tommy Perry, Chicago bantamweight boxer, who last night was knocked out by Sammy Marino, New York, in the last round of a ten-round, no-decision contest, was said, by the Emergency Hospital, to be in a serious condition to-day. Physicians said his injuries consisted of skull fracture and were preparing to operate on him. The blow that stopped Perry appeared to go to the chin following one to the chest.

RELIGIOUS NOTICES.

TSANG—YAU. Services at the CAMPBELL FUNERAL CHURCH, Broadway and 66th St., on Sunday, at 2 o'clock.

PERSONALS.

ANNA BATHURNE wife of the late Mrs. Bathurne died at 8 P. M. Martha Washington Hotel, (near 7th St. and Broadway) on Oct. 31. Funeral services at 10 o'clock, at 23rd St. and Broadway. Interment at 23rd St. and Broadway. Mrs. Bathurne was 77 years old.

WILSON ARRANGES FOR CONSULTATION WITH HITCHCOCK

Will Discuss With Senator Proposal to Vote on Treaty on Nov. 12.

WASHINGTON, Nov. 1.—Senator Hitchcock to-day made an appointment to see President Wilson with regard to the treaty situation.

It was understood Hitchcock wished to consult the President particularly with regard to the situation brought about by Senator Lodge's request for a vote Nov. 12.

When Lodge made his request Hitchcock made a counter proposal that the Senate meet at 11 o'clock daily, each Senator to be allowed only fifteen minutes to talk on each subject, no definite time for voting being set.

President Wilson had a good night and his condition to-day was satisfactory. The President showed no ill effects from his exertion in connection with the coal strike.

U. S. AMBASSADOR TAKES NEW RESIDENCE IN PARIS

Wallace Now Occupies a Famous Mansion Once Occupied by Prince Radziwill.

PARIS, Nov. 1. (Associated Press).—The United States Ambassador, Hugh C. Wallace, has taken up his official residence at No. 5 Place d'Iena, removing from the residence of former Ambassador William G. Sharp on the Avenue d'Eylau.

The mansion now occupied by Mr. Wallace is famous in the annals of Paris. It was once occupied by Prince and Princess Radziwill. The building, a spacious, imposing structure, is surrounded by beautiful gardens and overlooks the Seine River and the Champs de Mars.

Among the new neighbors of the Ambassador are Mrs. Felix Faure, wife of the former President of France; Prince Bonaparte and Mrs. James Gordon Bennett.

CLERK TURNS DETECTIVE.

Gives Information Leading to Recovery of 200 Stolen Watches.

Assistant District Attorney Richard C. Murphy gives to a young shipping clerk, whose name was not disclosed, credit for recovering a case of safety razors and blades stolen from a shipment to Sweden last March and 200 stolen watches.

As a result of the disclosure father and two sons, Isidore and Max, comprising the firm of Herman Raft and Sons, of No. 233 Fifth Avenue, were arrested at Grand Central Station last night on the charge of having stolen goods in their possession.

Detectives McCoy and O'Hara say they went to the home of the Rafts, at No. 308 West 93d Street, and recovered the razors and 200 watches, which they say were the property of the firm, and which the manufacturer says disappeared from his factory.

WASH DAY LATE THIS WEEK.

More laundry will be washed and delivered to-day as a result of the return of a large number of hand laundry workers, according to Vernon B. Smith, international union leader. The only differences left to settle are with the steam laundry workers, and the prospect is a good one for an early adjustment.

Steam laundries have in most cases resumed operation in spite of the shortage of workers.

PERSHING WANTS TO RID ARMY OF "DEAD TIMBER"

Tells Committee There are Few Officers Who Have Passed Useful Stage.

WASHINGTON, Nov. 1.—"Elimination of dead timber" among army officers was suggested by Gen. Pershing before the Senate and House military committees to-day as one of the steps advisable in peace time reorganization of the military establishment.

In nearly every grade, the General said, there were a few officers who had passed the stage of usefulness and should be replaced.

Extending some of his remarks of yesterday, Gen. Pershing said the Army Department of Purchase and Finance recommended by him should not take the buying of articles now secured by the Quartermaster General's bureau.

In reducing the army from 600,000 to 300,000 men, the General said only a very small reduction could be made in the number of staff officers.

"We had 350 on our staff in France for an army of 2,000,000 men," he said. "We should have needed the same number for half as many."
