#### ENFORCE THE LAW, WET OR DRY, THAT MAJORITY WANTS

—GOV. JAMES M. COX.

Ohioan Favors League of Nations and Sees in It Hope for Ireland.

URGES CUT IN TAXES.

Would Teach, Not Terrorize Aliens—Checks on High Cost of Living.

By George Buchanan Fife.  
(Special Staff Correspondent of The Evening World.)

DAYTON, O., June 21.—Gov. James M. Cox, whose legion of friends in Ohio believe that nothing in the world can prevent his nomination for the Presidency at the San Francisco Convention, talked at length to-day upon the peace treaty, the high cost of living, profiteers, aliens and strikers. He was spending his week-end at his country home, Trails End, in the Miami Valley, four miles from Dayton.

The Governor is a man of middle height, sturdily built, with the brown of outdoor living upon his shaven face. He has a voice which, though low, has evident "carry," and a forceful trick of gesture with his right hand. He puts in periods with a forefinger. Also it suggests a pistol barrel for an oratorical bullet.

One of the first questions asked the Governor was in reference to the much discussed treaty. At the question he drew from his coat pocket his expressive right hand and, with an outburst of forefinger to underscore the words and put in the punctuation marks, said:

"We should not close our minds against any reservations, though I don't quite like that word, which will not be harmful but which will be of aid in reconciling differences as they now exist. One thing is certain, we must maintain the vital principles of the treaty as enunciated by President Wilson.

SEES HOPE FOR IRELAND IN THE LEAGUE.

"I am very strong in my belief in the Democratic Convention's reaffirmation of devotion to one of the fourteen points, that of self-determination by the people. We should call attention to this for the reason that war in the past have resulted, in part at least, through imposed restraint upon national aspirations.

"The governmental entities which will live and endure harmoniously with others are more likely to be those constructed upon racial homogeneity than those put together with reference to the physical characteristics of the earth—such, for instance, as rivers and mountains which have so often served as boundary lines and frontiers. As Americans, it would become us to deny to any large racial

#### HARDING COOL IN GOLF PLAY; DRIVES A BALL 200 YARDS AND STRAIGHT AS AN ARROW

#### WATCHING HIS DRIVE

#### Tramps Over Links, Keeping Up a Running Comment on Putts and Niblicks—Works to Win and Believes in Hard Plugging.

By John H. Tennant.

(Special Dispatch to The Evening World.)

WASHINGTON, June 21.—Forgot

partisan politics for a spell—the election is four and a half months in the future—and come out into the green of the country and tramp for four miles over the picturesque fairways of Chevy Chase golf course with Warren G. Harding, the Republican candidate for President. Every one has seen in campaign lithographs, in the movies and in the newspapers and magazines, the Ohio Senator pictured with serious, statesmanlike features, with the regulation sartorial equipment of a Senator, Prince Albert coat, boiled shirt and bow tie, and with big eyes set far apart that seemed to follow you about like the cowboy's gun in a famous poster.

But the Harding face of the familiar photo gives you only a faint and unconvincing glimpse of the personality of Harding the man. Away from the Senate, with its traditions of pose, camouflage and acrimony, in the less conventional environment and setting of the golf course, you get the genuine close-up of the nominee: Have the picture fixed in your mind before the caricature daubs of the campaign banners shock you from every street corner as November approaches.

MORE IMPRESSIVE AS A GOLF PLAYER.

To every outdoor loving American, Harding in tweed "knickerbockers,

soft shirt, a rain-wrinkled linen hat with green brim—the kind you buy for a dollar—gray golf stockings and old, sloppy, tan shoes shaped to his feet by miles of toilsome tramping over rain and dew soaked hills and ravines, is far more impressive than Harding in the stiff, gloomy old Senate formulating ponderous policies of statesmanship.

Harding at play, in his dearily prized moments of relaxation, with convention intrigues put aside and with Will Hay's Indiana bred political scheming out of mind, is full of the exuberant spirits of youth. He works hard—fifteen hours a day, and following his inclinations, if the day were thirty hours' long, he would devote six hours to sleep and nine to play—nine to golf. He has played the "Royal and Ancient game" of the Scottish highlands for twenty years, never had a lesson—it might spoil his game, he says—frequently drives the ball 200 yards, and occasionally clips off a less than 90 on Chevy Chase links, which has a par 72.

TWO ACID TESTS OF AMERICAN PERSONALITY.

It is said that there are two great American acid tests of personality—golf and poker. As to golf in Harding's case I may speak of experience. As to poker I am in the dark. The only contribution on this point came from the Senator's own lips in his comment on the result in Chicago: "I went in with a pair of eights," and "I came out with a full house." Maybe this will be of some value in forming your own conclusions. It

#### BOSSES SEEK WAY TO "DITCH" BRYAN AT SAN FRANCISCO

Look to Gov. Smith to Lead Fight for "Elimination" of Commoner.

ISSUE IS WET OR DRY.

Effect of McAdoo Withdrawal on Cox and Palmer Chances Uncertain.

By Martin Green.

(Special Staff Correspondent of The Evening World.)  
SAN FRANCISCO, June 21.—In one respect the pre-convention aspect in San Francisco is similar to that which prevailed in Chicago on the eve of the Republican Convention: The minds of the men who hope to control the Democratic Convention are bent, as were the minds of the men who ultimately controlled the Chicago Convention, in one direction—elimination ward, so to speak.

The controlling forces of the Chicago convention laid advance plans to eliminate Gen. Wood. The controlling forces of the San Francisco convention have laid no plans to eliminate any candidate for the nomination, but they are pretty well agreed that the time has come to eliminate William Jennings Bryan as a controlling and disturbing factor in the Democratic Party.

It is realized that Mr. Bryan is coming out here with a well defined idea of controlling the convention and that Mr. Bryan is an extremely astute politician, learned in the ways of conventions and a fully conversant with his rights as a delegate and assured of a considerable measure of support on the floor.

DRY'S MAY CONTROL ENOUGH TO BLOCK ACTION.

The leaders who are in favor of committing the convention to the policy of amending the Volstead Prohibition Enforcement Act to the extent of allowing the States to make their own regulations as to the alcoholic content of beer and wine are learning that there will be numerous delegates who are profoundly dry.

Many of these dry delegates—for instance, those from New York—are bound by the unit rule. On the other hand many wet delegates, are also bound by the unit rule. If the convention gets into a fight on the wet and dry question—and the indications are that the fight will be spectacular and bitter unless William Jennings Bryan is put on the casualty list early in the proceedings—the index

THREE SHOT IN WATERBURY.

Strikers Riot Near Sewell Factory; Police Lieutenant One of Wounded.  
WATERBURY, Conn., June 21.—Three men were shot during a riot near the Sewell Manufacturing Company's plant in Bridge Street this noon. The wounded are Lieut. Richard Leary of the Police Department; John J. Bordin, of the company's protective force and a striker, apparently an Italian, name unknown.

Capt. Watt, Canada's Ex-Commander, Dies.

The New York office of the Canada Line has been apprised of the death of Lt. James Birnie Watt, who retired from service in November, 1918, after being sent to New York on his maiden trip to the Lusitania. Capt. Watt had been Commander of the Canada Line since when he retired, after having been a skipper twenty-five years, during which he was one of the most popular commanders in the Atlantic trade. He was seventy-eight years old.

#### FIGHTING RESUMED IN LONDONDERRY; THREE WERE SHOT

Residents Afraid to Appear on Streets, Barricade Their Homes.

TROOPS ARE POWERLESS

When They Stop Battle in One Place It Breaks Out in Another.

LONDON, June 21.—Civil war conditions prevail in Londonderry, and the authorities are powerless, it is declared in an Exchange Telegraph despatch from Londonderry this afternoon. Several additional persons were killed this morning in rioting there, according to this message. The firing is maintained with desperate intensity. Business is suspended and the postmen are refusing to deliver mail.

John Gallagher, one of the men wounded in yesterday's fighting between Unionists and Nationalists, died to-day, bringing the number of deaths up to 28, exclusive of to-day's casualties. Shops and schools were closed to-day and many houses were barricaded because of the rioting. The streets were deserted by all except those fighting or protecting vantage points. The dock workers struck, declaring they would not handle freight until peace had been restored.

The rioting, which started at 2 o'clock this morning after the troops had been withdrawn following yesterday's battles, continued all day. Reports of additional casualties were received, but travel on the streets was so dangerous that it was impossible to obtain accurate details.

From 2 to 5 o'clock this morning there was intermittent firing in many parts of the town. Between 5 and 7 o'clock three Unionists were shot, one of whom was thrown into the river. Thereupon a large body of Unionists charged down Carlisle Street, firing volley after volley toward the Sinn Féin stronghold in Bridge Street. The Sinn Féiners returned the fire. The two sides manoeuvred between the streets, keeping up a fusillade most of the day. Troops with an armored car broke up the fighting temporarily at 10 o'clock this morning. When the troops appear at one place, however, fighting breaks out at another. More troops are being sent to the scene of the rioting.

WILLS TO BE PHOTOGRAPHED

All Copies of Surrogate's Papers to Be Supplied That Way.

On and after June 30 copies of wills and other papers on file in the Surrogate's office will be made by photography, according to an announcement to-day. The new department will be in charge of George Gomprecht, whose knowledge of chemicals led to his appointment by Chief Clerk De Lano.

The use of photography in making copies of documents will enable the Surrogate's Court to supply correct copies of original wills more expeditiously than under the old system of typewritten copies.

CITY CENSUS TO-MORROW.

112 Manhattan Districts Will Be Checked Up.

Dr. Frank J. Monaghan, Acting Health Commissioner, said to-day the work of checking up the recent Federal Census in Manhattan would begin to-morrow. It will be confined to 112 selected districts.

According to Dr. Monaghan, 700 persons will do the work, and it is planned to complete it by Saturday.

#### PAY RAISE CHANGE FOR FIREMEN AND POLICEMEN LIKELY

Lower Paid Men Protest That Percentage Plan Is Not Equitable.

HEARINGS BEGIN TO-DAY

La Guardia Threatens to Tie Up Proceedings Unless Library Workers Get Boost.

Radical changes in the plan of increasing the pay of police and firemen will likely be made by the Finance and Budget Committee of the Board of Estimate, which this afternoon begins hearings to decide how the \$5,000,000 raised through legislation by Comptroller Craig for pay advances shall be apportioned.

When the \$3,000,000 for mid-summer pay increases became assured, the Finance and Budget Committee discussed the advisability of giving a 20 per cent. increase to all employees who did not obtain increases through legislation. Unless there are last moment changes the 20 per cent. rule will apply pretty generally except perhaps in the police and fire departments. Here the lower salaried men have entered such vigorous protests that city officials adjusting the salary question feel the twenty per cent. increase is not an equitable adjustment. The following table with the salaries of four grades of patrolmen shows how the 20 per cent. increase works out.

Present Salary	20 P. C. Increase	Increased Salary
\$1,900	\$380	\$2,280
1,750	350	2,100
1,600	320	1,920
1,450	290	1,740

The new plan, which has not been adopted, but which is said to meet with favor among the majority of the rank and file in the Police and Fire Departments, is a flat increase of dollars and not in percentage of salary. For instance, if the Board of Estimate should decide to give every one in the uniformed rank of the Police and Fire Departments a flat increase of, say \$350, the following would be the effect in the four grades of the Police Department:

Present Salary	\$350 Increase	Increased Salary
\$1,900	\$350	\$2,250
1,750	350	2,100
1,600	350	1,950
1,450	350	1,800
1,450	350	1,800

It will be seen by the foregoing that the increase of \$350 as applied generally to all ranks in the Police and Fire Departments would mean a gain for the rank and file, especially

WOOD SAYS HARDING WILL HAVE TO FIGHT

If Republican Policies Are Reactionary It Will Jeopardize Success, General's View.

KANSAS CITY, Mo., June 21.—Republicans who expect an easy victory for their Presidential candidate at the fall elections are mistaken in the opinion of Major General Leonard Wood.

#### SLAYER OF WHIST EXPERT NOW BELIEVED A KINSMAN OF ONE OF TWO WOMEN

Elwell's Torn Pajamas Evidence That Struggle Preceded Killing—Investigators Sure Visitor Fired After Hurling Victim Into Chair.

A near relative of the "woman in gray" or of the "lady of the lingerie" killed Joseph Bowne Elwell after a struggle with him in the home of the racing man and whist expert, No. 224 West 70th Street, in the belief of the investigators of the murder mystery.

While the District Attorney has been tracing the movements of Elwell on the morning of Friday, June 11, his men are also tracing the movements of others to learn where they were at certain hours on that murky morning.

#### MECHANICS QUIT SPAIN FOR FARM WAGES PAID HERE

Nearly 200 Skilled Workers Arrive On Way to Middle West, to Toil in Fields.

ONE HUNDRED AND EIGHTY-NINE farm laborers for the Middle West arrived here to-day, headed by Francisco Salinas, until recently foreman of a gas plant at Barcelona, Spain, on the Spanish Royal Mail liner Montserrat, which left Cadix on June 1.

According to Salinas, the farm crew left Spain because they found it pays better to farm in America than to be skilled mechanics there. They were formerly peasant field hands. A manufacturing boom reached Spain and they became mechanics until they recently read in the papers of the farm wages paid in the Middle West.

WERE NOT TORN.

Mrs. Marie Larsen, Elwell's housekeeper, told the District Attorney that Elwell had worn the pajamas on two occasions, once on the morning he was slain and on the night before.

"Why," she told the investigators, "my job wouldn't have lasted five minutes if I had laid out a torn pair of pajamas. He was too fastidious to have worn them, and I know that there wasn't a tear or any blemish on the suit that I laid out for him."

The police went further and had a shirt gossamer expert examine the garment. He said that there was no doubt that the garment had been rent in a struggle.

The District Attorney is investigating another lead which involves Elwell's stock transactions. It is said that Elwell was the manager for a group of men in a pool which was formed on a certain stock. Elwell had a big interest in the pool himself, and it is said was accused of double crossing the men for whom he was working.

The stock in which the pool was formed is said to have been American Mail Preferred and Elwell held 2,000 shares. Elwell is said to have received a tip that the Government was about to place restrictions on foodstuffs and get from under before the term of the pool's dissolution had expired. His friends it is said, then found that he had left them holding the bag and that he had made a big cleanup.

Another matter into which the District Attorney is looking is that of several men who were interned at Fort Oglethorpe and whose property was confiscated on information re-

WASHINGTON, June 21.—Call for a convention of railroad workers at Chicago June 23, to perfect the organization of one big union of railroad workers has been sent out by leaders of the so-called insurgent workers, according to information received to-day by the Department of Justice.

CAMDEN, N. J., June 21.—The new "outlaw" railroad strike has spread to New Jersey. Freight crews on the West Jersey and Seashore and the Atlantic City Railroads went out to-day, completely tying up freight movements on these lines. The reason given by the strikers is that there has been no settlement of recent demands made to the railroad labor board.

New Jersey Central—Seashore Service, Camden, N. J., full summer schedule will be in effect via NEW JERSEY CENTRAL All Rail and Seashore Hook Routes. Phone Room 200 022. Hours 9:15 a.m.—6:30 p.m.—Adm.
