

HELD FOR SELLING MACHINE GUNS TO SET IRELAND FREE

Arms Seized on S. S. East Side Said to Be Traced to George Gordon Rorke.

Charged with selling to persons representing the Irish Republic 495 Thompson machine guns which were seized on board the tramp steamship East Side in Hoboken as she was about to sail for Europe on June 13, George Gordon Rorke of Washington, D. C., was arraigned before United States Commissioner Hitchcock today. At the request of his counsel, William Harmon Black, the hearing was adjourned until Oct. 10. Rorke furnished \$3,000 bail.

The defendant, a clean-cut, energetic young fellow and a graduate of Georgetown University, the famous Jesuit institution of learning, wears a pin denoting that he is a member of the Myotic Shrine, a branch of the Masonic order. He was anxious to talk to reporters, but Mr. Black advised him to refrain from making statements for publication.

"I don't believe," said Mr. Black, "that any jury in the United States would convict a man for aiding Ireland. No crime has been committed & prohibitive of the United States would free my client in a minute if it could be held."

Rorke was taken into custody at the Waldorf-Astoria by agents of the Department of Justice on a telegraphic order from Attorney General Daugherty to Col. William Hayward, United

States Attorney here. The complaint, made by Assistant United States Attorney Maxwell B. Shattuck, charges that since Nov. 19, 1920, within this jurisdiction and with three other men yet to be arrested, Rorke engaged in a conspiracy to violate the Neutrality Law, section 19, of the United States Criminal Code, by agreeing to "set on foot and provide and prepare the means for a military expedition and enterprise to be carried from the Southern District of New York, against the British Empire, with which people the United States was and is at peace."

The complaint, continuing, charges that Rorke and his three co-conspirators, one of whom is named and the other two described as "John Doe" and "Richard Roe," conspired and agreed among themselves to "supply subjects of the British Empire with arms and munitions and also promised to instruct the aforesaid subjects of England in the use of the arms and munitions."

HILLBOURNE CLUB DESTROYED BY FIRE.

Patients in Sanitarium Removed to Nearby Cottages.

KATONAH, N. Y., Sept. 27.—The Hillbourne Club, a sanitarium conducted by Dr. S. F. Armstrong about a quarter of a mile east of here, was practically destroyed by fire last night. There were only five or six patients in the institution at the time, and they were carried out by firemen and placed in nearby cottages belonging to the sanitarium.

The fire started in the roof from sparks from a chimney and within a short time the entire roof was ablaze. The building, constructed to accommodate about 100 patients, was 100 feet long and 40 feet deep, three stories high. The alarm that it was a fire brought firemen and apparatus from Bedford Hills and Mount Kisco, as well as from Katonah. Within ten minutes the Katonah department had its streams playing, but nothing availed to save the structure.

Dr. Armstrong said that it was not yet possible to determine the loss. The structure was partly insured.

Attorney Mortimer defended the integrity of Sangamon County citizenry in his answer yesterday to Gov. Small's petition for a change of venue from the county.

Supported by 2,000 affidavits, Mortimer's answer, filed in the Circuit Court, declared Gov. Small and his co-

defendant, Vernon Curtis, Grant Park banker, could get fair and impartial trials here on charges of conspiracy to defraud the State Treasury. The State's Attorney's answer denied Gov. Small's contentions of immunity from arrest. It also denied "a deep seated and widespread prejudice" against the Governor.
