Homes Get 47 Per Cent., But Tax Exemption Gives New York 76 Per Cent.

GREATER WORK FOR '22

Contemplated Projects Promise to Carry Boom Into New High Volume.

Building outlays throughout the country will reach \$2,500,000,000 for the year.

Contemplated work for an equal amount will be carried over into 1922. It assures a continuance of construction activity at new high volume records.

During the past eleven months the country's building outlays have crossed \$2,500,000,000. Reports from twenty-seven Northwestern States, as announced by F. W. Dodge Company to-day, show \$2,161,500,000 in contracts awarded.

The coming year will exceed this total as indicated in contemplated work for the past month calling for \$295,555,000—more than double the \$122,311,000 started under contract.

NEW YORK HOLDS STRONG LEAD IN HOME BUILDING.

Current residential operations average 47 per cent. of the total throughout the country. In contrast, builders of homes in New York State and Northern New Jersey are contributing 76 per cent.

This metropolitan section has awarded contracts during the eleven months for \$178,523,000. It beats the five-year average by 53 per cent.

New England contracts awarded since the first of the year call for \$178,523,000, or 17 per cent. less than the five-year average.

WESTERN OPERATIONS BACK ON NORMAL BASIS.

Middle Atlantic States reach \$322,513,000 for eleven months, with \$30,308,000 in November—more than double that of a year ago—and \$49,022,000 contemplated. Home builders are contributing 34 per cent.

Pittsburgh with its environs—Ohio, West Virginia, Kentucky, Tennessee—score \$259,536,000, or 25 per cent. above the five-year average.

Central West contracts this year have reached \$599,119,000. They cover Illinois, Indiana, Iowa, Michigan, Wisconsin, Missouri, parts of Nebraska and Eastern Kansas.

Kept Up Late, He Detects Odor and Traces It.

The studiousness of William Walls, fourteen years old, of No. 74 Cortland Street, Belleville, a suburb of Newark, saved the lives of his sister and two of her children early this morning. In an adjoining room were her daughter, Doris, three years old, also unconscious, and son, Lawrence Jr., partly conscious. They had been overcome by coal gas from the range.

The annual business meeting of the Alumni Association will be held this evening in the Doremus lecture hall, at the college, to elect officers. Judge Robert F. Wagner of the Supreme Court of New York has been nominated to succeed Thomas W. Kill Your Cold Over Sunday

GO back to work Monday feeling better than you have since you returned from your vacation.

A quick cure isn't possible with drugs that merely relieve the symptoms of a cold. You must strike at the cause—kill the germs in the system that cause the cold.

If you really want to be well by Monday, just omit the quinine for the fever, the aspirin for the headache, the syrup for the cough, the liniment for the chest—that's the long way, the slow way, the dangerous way.

If you want to feel well by Monday, stop at the druggist's on your way home to-day and get a bottle of Creofos. Take a few doses to-night. Take it regularly to-morrow. Sunday night the cold germs, the influenza germs, the pneumonia germs will be gone from the system. And when the germs are dead the symptoms of the cold disappear. Creofos for results!

Creofos has long been used by noted physicians and in the great hospitals, and is now sold by all druggists. In three household packages: the liquid Creofos, \$1.25; Creofos Capsules, for convenience, \$1.50; Creofos, with sulphur, for coughs, \$1.50. Economical; fully guaranteed.
