

MILLER CLEANS UP SLATE MUDDLE; SAYS HE WILL ACCEPT RENOMINATION

(Continued from First Page.)

tended me, but I have finally concluded that I cannot refuse to finish what I have begun, provided I am assured associates in the State Government who have the same views of public service that I entertain.

"If such a ticket is nominated and I am asked to head it, I shall not decline.

"If such a ticket is not nominated, I shall not consider it worth the effort and shall most certainly decline a nomination if one should be tendered.

"I shall not seek to influence, check or to prevent the nomination of any one, and I hope that every delegate in the convention will feel free to act and vote precisely as he pleases, certainly without regard to any wish of mine, and I trust that no friend of mine will feel that he needs to be influenced by any views which he may fancy that I entertain. The only person whose actions I can or have any right to attempt to control is myself. Every one is compelled to decide what he himself will do.

"I trust that the convention will be an open, free, deliberative assembly, and that its final action will reflect the united and deliberate judgment of the representatives of the party who have been chosen to give expression to the party will."

The term of the office of a Judge of the Court of Claims is nine years and the annual salary is \$5,000. Lieut. Gov. Wood's friends, who have been fighting for him under the leadership of Assistant Secretary of the Navy, Theodore Roosevelt, are now prepared to give three rousing cheers for any ticket dictated by Gov. Miller.

The only prospect of trouble in the convention is presented by Attorney General Charles D. Newton, who has announced his intention of fighting for a renomination, and Secretary of State John Lyons of New York City, who is brewing secret war medicine. Mr. Lyons is a very astute politician and his friends say that if Gov. Miller does not want him on the ticket he is open to argument, but the argument must be substantial.

Attorney General Newton, if he precipitates a fight, will have some up-State support, but Gov. Miller controls the line out of ten of the delegates. He is assured by politicians that Mr. Newton might be open to argument also.

Up to date the slate reads:
For Governor, Gov. Nathan L. Miller.
Lieutenant Governor, William J. Donovan, Buffalo.
Secretary of State, New York City.

Attorney General, H. Erskine Rodgers, Washington County.
State Engineer, Rogers Black Queens.
Comptroller, W. J. Malar, Incumbent.
State Treasurer, N. Monroe Marshall, Incumbent.

Col. Donovan is none other than "Wild Bill" Donovan, the gallant soldier of the old 89th Regiment, who made a great war record at the head of a lot of great warriors. He accepted the second position on the ticket with the greatest reluctance and yielded only to the persistent appeals of Gov. Miller. He was offered the place at Saratoga two years ago and wouldn't listen to any argument. He simply said "No," and it went. Col. Donovan is a lawyer with a fine practice, is a millionaire and was one of the most popular officers with his men that ever crossed the seas.

Judge H. Erskine Rodgers, picked by the Governor to succeed Attorney General Charles D. Newton, is a friend of the Chief Executive and hails from Washington County. He is described as a good "looker," a good talker and a good golf player. He plays with the Governor and is said to wield a wicked niblick.

The Judge will be presented to the convention by Congressman James S. Parker, on behalf of Washington County. In the Congressman's bailiwick are the counties of Washington, Warren, Saratoga and part of Rensselaer, and there is no doubt of his re-election.

Elihu Root will be Temporary Chairman of the convention and the keynote. According to the slate, H. Edmund Machold, Speaker of the Assembly, will be permanent Chairman. Mr. Machold is calculated to hold down any fractious delegates, if there should be any, the same as he held down undesirable legislation in the Committee on Rules.

No answer has yet been made by the leaders to the absorbing question as to why John J. Lyons has not been put on the slate to succeed himself as Secretary of State. The best answer one can get from the leaders, from George A. Glynn down, is a shrug of the shoulders or "Organization." But everybody knows that Gov. Miller is the organization, and this put the question up to the Governor. If the Chief Executive were asked the question he would probably give the party shrug and pass the buck to the leaders.

But the New York County organization is asking "Why?" Leading politicians and the friends of "Jack" are asking "Why?" And no answer is forthcoming. It is pointed out that Lyons' two runs in the party have been phenomenal in the State and city. When he ran for Secretary of State two years ago his majority was over 750,000, the biggest ever made by any State officer before the people. When he ran for Sheriff in this city he was defeated by Dave Nutt by only 7,000 votes in the face of the Hylan landslide over Mitchell.

Those who profess to be most intimate with the methods of Tammany declare that the combination doesn't sound like Tammany politics, and that Gov. Walker will be the "key-note" and some one else—not Gov. Glynn—will be Permanent Chairman. The nomination of Governor is in the hands of Tammany, and it doesn't sound reasonable that Mr. Murphy is going to let any man or set of men take it away from him. If the name of Mr. Hearst is presented to the convention, Mayor Hylan will make the nominating speech—and Mr. Conners says that the name of Mr. Hearst will be presented to the convention.

These men are always on the scene when employer and worker clash ready to incite to lawlessness and riot, arson, and murder. They menace the whole system of our labor organization, and the trades union, for its own preservation, must take steps to eliminate them."

CHATTANOOGA, Sept. 25.—Declaring that strife and bloodshed in the nation's industrial life have reached the proportions of a "disgrace to our whole civilization" Secretary Davis of the Labor Department called upon labor leaders in an address near here today to help restore industrial relations to an orderly basis.

The "ultra-Red radical" was blamed by the Secretary for much of the violence which attends clashes between labor and capital. For its own preservation, he said, organized labor must put a stop to the activities of these "agitators" and their campaign of "riot, arson and murder."

Mr. Davis's address was delivered at the annual convention of the International Printing Pressmen and Assistants' Union of North America at the Pressmen's Home. His own experiences as a union man, he said had given him an intimate insight

into conditions which prompt violence to labor disputes, including the so-called private detective or hired plug-ugly and the agitator, the ultra-Red radical.

DEMOCRATS SEE GAIN OF 3 SEATS IN SENATE

Leaders Count on Iowa, Michigan and North Dakota.

WASHINGTON, Sept. 25.—The Democratic Senatorial Committee has seen figures its chances of gaining three Democratic Senators in rock-cribbed Republican States in the Middle West and finds them good.

These Democrats believe there is a strong possibility of defeating Smith Haddock in Iowa, Senator Townsend in Michigan and former Gov. Frazier in North Dakota. They are also counting on winning at least two seats from among New York, New Jersey, Maryland, Delaware, West Virginia, Connecticut and Massachusetts.

William J. Conners, Generalissimo of Editor William Randolph Hearst will leave tomorrow for Syracuse where the Democratic Convention opens on Thursday. Mr. Conners will probably have the satisfaction of being first on the ground, for the Tammany delegates do not leave on the special train until Wednesday morning.

A rumor is afloat that former Gov. Martin Glynn will be temporary Chairman of the convention, and the former Lieut. Gov. Harry J. Walker will be permanent Chairman. Gov. Glynn is not a delegate, but if the

HOTEL AT MONTICELLO FOR SHELL-SHOCKED MEN

Mental Sufferers Will Be Guests, Not Patients.

The Home and Farm Institution for Mental Convalescents, of which Joseph B. Ollfort is president. It was announced to-day, has bought a seventy-room hotel at Monticello, N. Y., where the services men who suffered brain injuries in the war will be cared for. Dr. Mons S. Gregory, head of the psychopathic department of Bellevue Hospital, has had a large share in planning the hospital.

It is the intention to make the institution a real home, according to Mr. Ollfort, in contrast to the hospitals in which "shell shocked" service men have been sequestered heretofore. They will be spoken of as "guests" and not as patients and will have light farm work to take their minds off themselves. Contributions to complete the equipment of the home are solicited. Mr. Ollfort has offices at No. 198 Broadway.
