

## CUBAN SMUGGLERS GROW RICH LANDING ALIENS IN AMERICA

Many Chinese Are Run in Along With Booze, Say Federal Investigators.

WASHINGTON, Sept. 26 (Associated Press).—Smuggling of European aliens into the United States from Cuba, surreptitious smuggling in the waters off the Florida coast of large quantities of liquors by "international bootleggers" and mock marriages designed to insure entry into this country of women barred by immigration laws form the basis of a report submitted to Secretary Davis by the Bureau of Immigration.

Government investigators, by direction of Commissioner General Hubbard, visited Florida points and Havana. They mingled, it is said, with

the kings of the smuggling industry and talked with aliens of every nationality who sought entry to the United States. The smuggling ramifications, it is declared, extend to the capitals of Europe, and involve Greeks, Spaniards, Poles, Roumanians, Russians and Chinese.

The report states that the favorite method of gaining entry to the United States from Cuba for certain alien women has been for them to enter into fake marriages with naturalized American citizens who accompany their "wives" to some Florida point (obliging "bridegrooms" have been paid as high as \$200, it is said.

Smuggling craft, it is declared, land and depart from Matanzas, are of Cuban registry, and do not enter clear at the Custom House there. Names used by the schooners and lower launches, it is said, are in script on removable plates, and some vessels are said to carry several name plates. Inspectors report that a majority of the bigger schooners anchor outside the customs limit off the American coast and send their loads of aliens ashore a few at a time in small boats. If liquor or narcotics, the cargo is often submerged at a predestined point, to be grappled up subsequently. No less than four or five vessels with aliens and contraband goods cross from Matanzas to the United States each week, the report states.

In Havana, according to the report, hundreds of aliens throng Central Park in the afternoons and at night,

and constantly a dozen or more runners for the chief smugglers operate among them.

Since the present amended Immigration Act became operative in this country last May, at least 7,000 aliens are said to have arrived in Havana with the hope of gaining entry to the United States. There are at present it is estimated, approximately 30,000 Chinese alone in Cuba for whom there is no employment.

The usual fee charged for smuggling aliens, it is learned, ranges from \$500 to \$1,000 for Chinese and about \$150 for a European alien.

### TO BE TRIED IN ITALY FOR NEW YORK MURDER

Captured Fugitive Accused of Killing Two Women Here.

ROME, Sept. 25.—Vincenzo Pataceto, alias Frank Valtuzzi, charged with the murder of two women in New York City in 1920, will be placed on trial in Naples Nov. 30.

Pataceto was arrested in Mentone, France, shortly after the shooting of Lena Fennell and Josephine Gentile in an attack on Giuseppe de Cesarì, a Mulberry Street barber. The women were walking near de Cesarì when a man, who escaped, emptied a revolver in their direction. De Cesarì was the target. Pataceto was accused.

### Salad Sets

## Years ago in New York

*The Fifth Avenue Stages, in 1857*

covered much the same route as does the present Fifth Avenue Bus Line. Their destination, 65 years ago, in New York, was what is now known as Central Park—then a wilderness dotted with a few squatters' shacks! In the winter-time, the heavy snows made it difficult to use the stages, so huge sleighs were substituted. Today there are six different modes of travel—train, subway, elevated, street car, bus and motor. Whichever one you may use, be sure to stop in and Celebrate with us

**Beginning Next Monday**

the 65th Anniversary of the establishment of this organization. It will be a birthday in which we will give as well as receive.
