THE TRIBUNE.

Home League.

We predict that the Home Industry Convention held in this City last fall will hereafter rank in importance with the great assemblages which led to the Declaration of Independence. The object of both this and those which preceded the adoption of our glorious Constitution were the same-INDE-PENDENCE. We shall relinquish its life, spirit and essence if the Compromise Act is left unchanged at the close of the present Session of our Congress. Much of the Iron we at this time use, a portion of our Clothing, and many other necessary articles of consumption are obtained from Foreign Countries, the supplies from our factories and work shops not being equal to our home demand. Since the termination of the great wars in Europe, competition has assumed a new character, and operates with a power in former days not at all understood, and which individual enterprize and efficiency cannot withstand. If a market offers any temptation, the surpluses of the Old World are poured into it in overwhelming quantities-several years supply in a single year. This is not fancy. Our Government documents show that it is true. For a series of years our imports of Silks did not equal Seven and a Half Millions-that is, while a duty was exacted; after the Compromise Act, making them duty free, the imports of Foreign Silk in a single year exceeded Twenty-three Millions of dollars,-being a supply of three years imported in a single year. The excess of Imports over our Exports in the three years which preceded the passage of the Compromise Act were \$35,732,860. The excess in the three years succeeding were \$111, 703,519, an increase in the excess of imports over our exports in three years of \$75,970,655. The repeal of duties was the signal for a rush from all parts of the world. Our market was made the grand focus for competitors. It was their battleground. For it is aptly called a war of competition. There is no roar of cannon. Like the airgun it does the work of destruction silently and effectually. It is well to see what class of articles imported, embrace the bulk of this increuse; they will be found to be duty-free articles. The increase of the imports of duty-free articles the three last years over the three years first named was \$197,989,831. The excess of the imports of articles paying duties of the three years after the year of the passage of the Comp.omise Act varied from the imports of three years previous, only \$6,638.032. The main attraction of the enormous importation was the duty-free principle.

We wish our merchants to examine and ponder over these figures. They are not guessings, but Treasury Statistics. They may ask the question, · If the Compromise Act had never been thought of should we not have imported in the last three years \$75,000,000 less than we have imported under this Free Trade Law?"

We will admit, for argument's sake, that the duty on free articles would have increased fifty per cent; the imports then would have been \$55,970. 655 less than they now are. For this we have paid specie or its equivalent as every thinking merchant will admit. This went out of the country. Suppose the law had not passed, would this not have remained in the country? If New-York does two-thirds of the business, as used to be estimated, would not \$37,000,000 now have been in New-York that are now out of it? And could not our Banks have discounted on that specie on safe principles three times its amount, viz: one hundred and eleven millions of dollars more than they can now discount? If the Banks now had it in their power to accommodate the merchants, \$111,000,000 would not their interest induce them to do it? And would not a notice that the Banks would extend their discounts \$111,000,000 give a new face to our whole city, and make the heart of many a desponding merchant leap for joy? We ask the merchant whether it would not have been better to have employed the \$55,000,000 sent out of the country in trading in domestic fabrics? The answer often made is that "we can't make as much on domestic as on foreign goods, they won't bear as much profit." But we ask the merchant had you not better make less profit and save profit and capital both ? Is not a currency of bank bills essential to the merchant? Must it not be based on specie? And is it not vitally necessary to have a powerful restraint which shall prevent its Essing out of the country? And what will restrain it but a Tariff? Individuals always have been and always will be tempted by cheap bargains, and while this one-sided Free Trade keeps our ports open and restrictions close others to us, we shall continually be offered goods, beautiful indeed, and all in the fashion, and cheaper than everthey will cheapen every day until starvation is as common here as it is in Europe. Our Bank circulation is rapidly contracting, and no one contends that our specie is increasing, and if Free Trade could retain all we have now in the country without the help of bank paper, there is not enough in our whole State to transact the business of our city alone. Let the merchants join the "Home

WILL YOU BELIEVE and live, or DOUBT AND DIE? PHILADELPHIA, December, 1857.

To Dr. Jayne-Dear Sir. The astonishing and almost miraculous beneficial effects your valuable EXPECTO-RANT had on my neighbor, the Rev. Mr. Russing, made so favorable an impression on my mind that after consulting with several friends, and learning that you were a regular Practitioner of Medicine, I called upon you, and purchased half a dozen bottles, and told you that if I lived to take them, you should have a good report from me.

I am alive and well this day! Thanks be to a merciful

God, and your Expectorant; and now I come forward cheerfully to tulfil my promise.

For twenty long years had I been a constant sufferer from the effects of a hard dry cough, pain in my breast, and difficulty of breathing; the last five of which chills and fevers, every spring and fall, were added to my misery. I was worn away to a mere skeleton; with the greatest difficulty only could I get up and down stairs; my appetite was gone and my strength had so far failed me, that my friends were persuaded I could not survive many weeks, unless I obtained relief. Iudeed, sir, my situation was so perfectly miserable to myself and family, that I felt willing to die, whenever it should please the Master to take me home. But I heard of your medicine, and relief came. Yes! it proved the "Balm of Gilcad" to my poor afflicted body. Before I had taken ONE BOTTLE I experienced a mitigation of all my symptoms, and to my great joy I found in the continued use of it the happiest relief. In short, sir, it has made a perfect cure of me, and I can truly say, I have no desire to be better.

Now I consider it a duty I owe you, and through you the public, to make my case known, believing that it will be the means of directing hundreds who are afflicted as I have been, to the use of a remedy which, under the blessings of God. I consider to have preserved my life.

You are at liberty, sir, to make use of this letter to your advantage, and make my case as extensively known as you please. If there be any who doubt the truth of the above account, refer them to me. I shall be happy to see them, and will not only confirm the above statements, but will give them particulars which it would be unnecessary to furnish for the public press. With everlasting gratitude, I am, dear sir, your obliged friend MARY GILL, sir, your obliged friend MARY GILL,

TMPORTANT Testimony .- If further proof is required to establish the fact of the inestima-ble value of Dr. Starkweather's Hepatic Elixir, the fol-lowing communication from the Hon. Samuel W. King, Governor of the State of Rhode Island, centains adequate testimony to substantiate it beyond dispute, and must put entirely at rest the idea that this potent remedy is classed with the many useless and dangerous nostrums which are palmed upon the public merely for the sake of gain.

Please read the following statements communicated to the undersigned by His Excellency, under date of

JOHNSTON, Jan. 29, 1842. Mr. Charles Dyer, Jr: My dear Sir-Your communication tion of yesterday, asking my opinion of Dr. Starkweather's Hepatic Elixir, has been received this morning. In reply, I will inform you that my confidence in patent medicines generally is not very flattering. I have had too much reason to believe that unprincipled men will often palm upon their fellow citizens their useless if not dangerous nostrums for the sake of gain, the use of which takes up that important and critical period of time without producing any good effect, when otherwise perhaps, proper remedies would have been used, and much suffering and distress prevented. For that reason I have not used them, feeling myself and family to be much safer under the directions of my family phys cians; but having been afflicted for the last six years with difficulties in the side and chest, uncomfortable and often distressing, painful and somewhat alarming, and from which I could get only temporary relief, I very fortunately noticed your advertisement of the medicine in question. I had been a school boy with Dr. Starkweather, and had with hlm a long and intimate acquaintance when we were young men, and from my knowledge of him I thought him incapable of practising deception on any person; this fact induced me to try Dr. Starkweather's Hepatic Elixir, and by its use I now believe myself to be entirely cured. I need not, therefore, say to you that I consider it of great value. I certainly think its discovery of great public impor-

The first bottle I took gave me much relief, which regularly progressed until I had taken six bottles, when I discontinued it, having, thank God, no further use for it at present.

With much regard and respect.

Your obedient and humble servant,

SAML. W. KING.

WAR! WAR! Heads long divested of even the first rudiments of hair, after using his Hair Tonic, soon appear with new and flowing locks, which Absalom himself might have enwied. Beardless boys are seen with large and bushy whis-kers, and ladies smile again through their own raven ring-lets, more beautiful and bewitching than ever. WORMS in Children.—Of all diseases to which children are exposed, none are so fatal to them as Worms. Unfortunately children are seldom free from them, and as they imitate the symptoms of almost every complaint, they often produce alarming effects without being suspected. Worms are not only a cause of disease themselves, but by their irritation aggravate all other dis-eases, wandering from one part of the body to the other, winding themselves up into large balls and obstructing the bowels, and frequently the throat, causing convulsions and too often death. The desired remedy will be found in Dr. Jayne's Tonic Vermifuge, which will very soon destroy the Worms, and invigorate the powers of digestion, so as to pre vent a return of them.

SCARLET AND TYPHUS FEVERfectious maladies are making sad ravages in this community. They all begin with langour, lassitude, confusion of ideas pain in the back and in the calves of the legs; chills and shiverings, alternated by fits of heat. The thirst is considerable, the skin dry, and the patient is much troubled with nausea, anxiety and vomiting. No danger need be apprehended from these distressing symptoms, provided the BRANDRETH PILLS be freely given. The infectious humor is by these Pills at once removed from the body, and by taking only such doses as will purge the bowels freely for a few days, the patient will be restored to better health than he had before the attack. In general, four or five pills every night will be sufficient, but if these do not purge freely, more may, with advantage, be given.

The cure will be assisted by the patient putting his feet and legs in warm water, and when it is convenient the warm bath will be highly serviceable. Teas made of catnip, balm or camomile will be also of much use; the food may be raw oysters, oyster soup, or good meat soup; and two three oranges may be sucked during the day; the great object, however, is to purify the blood-to abstract from it those humors which are the cause of disease-this the BRAN-DRETH PILLS will do, and they will do it effectfully, and without leaving the body debilitated; every dose will strengthen the body, not weaken it.

Dr. FRANKLIN says: 'All these acute fevers ever require some evacuation t bring them to a perfect crisis and solution, and that even by stools, which must be promoted by art when nature does no do the business herself. On this account, an ill-timed scrupulousness about the weakness of the body is of bad conse quence; for it is that which seems chiefly to make evacua tions necessary, which nature ever attempts, after the humors are fit to be expelled, but is not able to accomplish for the most part in these diseases; and I can affirm, that I have given a purge when the pulse has been so low that it could hardly be felt, and the debility extreme, yet both one and the other have been restored by it.' The good effect to be derived from the use of Brandreth's Pills have to be experienced to be fully believed. By their timely use neither the scarlet, the typhus fever or the small pox would ever assume their malignant form.

of PRANDRETH'S PILLS, they must be used when the First Symptoms of Disease present themselves. One dose then, and their good effects will be felt throughout the attack-it is taking them in time that is the great secret in the cure of all appearances of disease arising from bad blood, and I presume there are few at the present day will say any thing of those diseases which affect the body when the blood is pure. Such diseases I have yet to see.

Hoping that some who read this may be benefitted by so doing, I am, respectfully, the public's servant, B. BRANDRETH, M. D., 241 Broadway. The BRANDRETH PILLS are sold at Dr. Brandreth's rincipal Office, No. 241 Broadway, between Park Place

185 Hudson, and 175 Second street, at 25 cents per box, with

full directions. Observe that the gennine Brandreth Pills have three labels on each box, which are printed on white paper, Benjamin Brandreth's Pills being pointed with red ink on the top under label nearly 200 times. There is also on each label two signatures of Dr. Brandreth: one B. Brandreth, and au24 if dreth is on each of the three labels. 10f 1m superior article of Cooper's Brass.

THE REAL Camphene Oil and Webb's New Improved Burner.-The improvement in the Burner is complete and unequalled, regulated by a single notion, extremely simple and convenient to trim, &c. If those who have been annoyed with poor oil, gas, or spuri-bus camphene, will only try Webb's, the only real Cam-phene, they will be well pleased. This camphene is as safe is oil, will not explode, will not soil the richest carpet or dress, will not crust the wick, will light a large room at the cost of one cent an hour, one gallon giving as much light as 2 or \$3 worth of oil. Those who are doubtful of its safety or economy will be amply convinced by examining the thorough experiments of Professor Locke, or the Journals of the Franklin and American Institutes. No metres are required to ascertain the quantity consumed. Astral, mantel, and chandelicr lamps altered, and the whole expense saved in a short time. COVERT'S BALM OF LIFE.—This Medicine is doing wonders. Almost every person who buys this article comes recommended by others who have used it themselves, which speaks volumes in its favor. For Dyspepsia, Bronchitis, Coughs, Colds, and Consumption, its equal does not exist. We hope the afflicted will turn their attention to this valuable article.

The following certificate from Mr. Chasteney, whose wife had been twice or thrice so low as to leave but little hope of recovery, shall here speak for itself:

Mr. Covert—Dear Sir: Mrs. Chasteney has taken 2 bottles of your Balm of Life, and to my surprise is now in better health than I have known her to be for several years. She has been afflicted with a severe Cough for fifteen years, and many Physicians her lungs have been pronounced incura-e. She has several times been so low that it was thought she could not recover. Now her Cough, comparatively speaking, is andly visible, and the darting pains of the lungs have subsided. Mrs. C. hastaken a variety of medicines, but has never experienced so much relief as she has from your valuable Balm of Life. It is from a sense of gratitude and a feeling

459 BROADWAY. 459 BROKENGES, Wholesale and Retail, at 459 Broadway, N. York. It is now well ascertained, that the most eligible way of administering medicine, particularly to children, is in the form of Lozenges. This, while it preserves the virtues of the medicines in a very concentrated state, at the same time obviates the measurement of the medicines in a very concentrated state, at the same time byiates the nanseousness which usually attends the exhib tion of medicinal substances. The proprietor, baying been regularly bred to the medical profession, and engaged in an extensive practice for many years, feels the utmost confidence in recommending the following medicine to the public, for the cure of the diseases for which they are designed,

PETERS' COUGH LOZENGES

Are now rapidly superceding all other preparations for the relief of Coughs, Colds, Asthma, Whooping Cough, Catarrh, tightness of the Chest, Bronchitis, and similar pulmonary affections. It is now well established that a large proportion of cases of Consumption, by which so many valuable light an annually sacrificed, owe their origin to the neglected Colds and Coughs, which might easily have been removed a: rannually sacrificed, owe their origin to the neglected Colds and Coughs, which might easily have been removed at an early period. No medicine will be found so efficacions in curing such cases as these Lozenges. They intallibly allay the cough, by removing the irritation which keeps it up, while at the same time they promote expectoration, and relieve congestion. Dose.—One Lozenge is usually a dose for an additional content of the cough.

for an adult. PETERS' WORM LOZENGES Are acknowledged by the faculty to be the most scientific and successful preparation for the destruction of worms ever offered to the public. There are several medicines advertised as specifics in such cases, but they have proved so un-certain and worthless, as to have lost all confidence with the public. Some of them, indeed, are so violent in their opera-tion, as to frequently lead to fatal results. The public, therefore, is cautioned against them. These Lozenges, while the will be found to be perfectly safe, will at the same time neve fail, where worms are present, to destroy them.
PETERS' CORDIAL LOZENGES

Are a specific for the relief of nervous or sick-headache, lewness of spirits, or melancholy, languor and debility, either from previous disease or too free living, trentors, spasses of the stomach, irritability of the nerves, hysterical affections, drowsiness, cholera morbus, sense of fatigue and palpitation of the heart. From their efficacy in the relief of headache they are called by many the Headache Lozenge.
