THE WHIG ALMANAC AND UNITED STATES REGIS-

The States of PENNSYLVANIA and OHIO hold their Annual Elections to-morrow. New-JERSEY commences to-morrow and concludes on the following day. In New-Jesrey and Ohio the Whigs are wide awake, and we count with great confidence on their success. In Pennsylvania they do not appear to be, and there our hopes are slender. To know whether the Whigs will succeed in any State, we have only to seek the anewer to this question-" Do they try?" If they do, a victory is almost a matter of course.

Maryland.

It seems incredible that a party which sets out to be beaten should not be, and yet such is very nearly the result in Maryland. We are constantly receiving papers from distant points which echo our own 'foregone conclusion '- " The Whigs are about to be beaten in Maryland because they make no effort for success." Before the Election, we had assurances from friends in Baltimore that the Whigs were distracted by local questions and could see no necessity for putting forth their strength in a mere Legislative Election. And yet they have hardly been able to beat themselves! The Senate is Whig by a decisive majority; the House Loco-Foco by a very slender vote; and the Joint Ballot doubtful. If the three lower Counties, which are Whig to the core, have not been cut up by some personal contest and thrown away some of their Members, the Joint Ballot is Whig by one majority. We presume it is as likely to be the other way. But that the State is Whig on any spirited centest there cannot be a reasonable doubt. Two Delegates are thrown away in the strong Whig County of Montgomery by three Whigs running 'stump' against the regular ticket; the Senator in Prince George's is fooled away, where the Whigs our whole ticket in Caroline and Calvert We lose a Delogate in Allegany by ten votes on a feud, and another in Anne Arundel by one. Yet with all this fatality the Whigs are barely beaten if not victorious! Maryland is good for 3,000 to-morrow for HENRY CLAY.

We annex the votes of a few close Counties. #higs. ANNE ARUNDEL. Locos.

Correspondence of The Tribune. BALTIMORE, Friday, 5 o'clock, P. M. Maryland Election.

I have several corrections to make in my table sent to you this morning. Caroline has elected one Whig and two Loco-Focos to the House instead of 3 Whigs; Anne Arundel has elected a full Loco-Foco ticket; Frederick has elected 3 Locos and 2 Whigs; Allegany 2 Whigs and 2 Locos; Calvert 1 Loco Senator and 1 Whig and 2 Locos delegates.

I will write you to-morrow evening, giving you full returns.

P Hon. CHRISTOPHER MORGAN of Cayuga has been nominated for reelection to Congress from the District composed of Cayuga and Cortland Counties. Nobody else was thought of. Mr. Morgan has now been three years in Congress, and has proved himself one of the most capable, industrious, efficient Members of the House. He bore an impertant part last winter in effecting the salutary Retrenchments then made of Executive Power and Patronage, by requiring that all Printing, Stationery or other work required for the several Departments shall be given out by contract to the lowest bidder, thus saving largely the Public Money and cutting off a prolific source of Corruption and Favoritism. He did more than almost any other man to secure the ultimate passage of a Protective Tariff. He is deservedly popular with his constituents, and we trust his majority will not be less than 500.

JOSEPH G. PALEN of Hudson is the Whig candidate for Congress from the XIth District, composed of Columbia and Greene Counties We hope our friends in those Counties are at length aroused to the importance of the contest, and determined to do their whole duty.

The Whigs of DUTCHESS County have nominated EPENETUS CROSBY of Fishkill, ISAAC I. PLATT of Clinton, and EGBERT SHELDON of Dover, for Assembly, with L. B. VAN KLEECK for Sheriff. We believe this is a good and strong ticket, and that the Whigs mean to elect it. I they only take hold in earnest, the work is done. The Loco-Focos have nominated John M. Ketchum of Dover, Gilbert Bentley of Clinton, and Dr. Eisifer of Red Hook for Assembly. The Genuine Loco-Focos threaten to nominate another ticket, but we think they will be choked off.

The Whigs of Essex County have nominated SAMUEL SHUMWAY for Assembly and EDWARD F. WILLIAMS for Clerk. Hon. G. A. SIMMONS was first unanimously nominated for Assembly, but the demands of his own business compelled are three-fifths of all the voters; so with nearly him to decline. Although Essex will always send good and true man, we regret that Mr. Simmons is constrained to withdraw at this time from the

> The Loco-Focos of Essex County have nominated Reuben Whalon for Assembly, and George Throop, Jr. (a Whig) for Clerk. Mr. Throop does not thank them for the 'honor' of setting to be knocked down in a bad cause.

RECOVERY OF STOLEN PROPERTY .- On the night of the 6th of last month the store of J. Phil lips & Co., No. 141 Washington street, Boston was burglariously entered and about \$20,000 worth of laces, silk hosiery, silk and gloves, &c. stolen On Saturday, officers Relyea and Colvin, who had been made acquainted with the burglary, some days previous succeeded in recovering three-fourths of the property which they found at different places in this City, all of which was to-day idestified by the owners and restored to them. The burglars have not as yet been apprehended but there can be little doubt that these officers will soon arrest the thieves.

THE LIFE AND SPEECHES OF HENRY CLAY No. IX. (being the second of the Life,) has just been issued by James B. Swain, 68 Barclay-street. has been delayed somewhat by the inability of the author to furnish the copy so fast as required. Two more numbers complete the Life and the First Volume, and the superb PORTRAIT of Mr. Clay, en graved by Prud'homme, will be given with the lanumber of the Life, so as to bind at the commencement of the Volume. IF All the numbers are for sale at this office.

The numerous friends of T. W. WHITE of the Southern Literary Messenger, who has been for some weeks confined to his bed at the Astor House, from the effects of a paralytic stroke, will be happy to hear that he is now recovering and was able to ride out on Saturday. Teeth.

To the Editor of The Tribune : An article has been published in many of the papers taken from the A. S. Standard, edited by Mrs. Child, which has a tendency to mislead many in relation to their Teeth.

"A dear friend of ours bad, when about twenty years of age, a front tooth that turned black gradually, crumbled and broke off piecemeal. By frequently chewing charcoal, the progress of decay was not only arrested, but nature set vigorously to work to restore the breach, and the crumbled portion grew again, till the whole tooth was as sound as before! This I know to be a fact."

All physiologists and dentists know that the above is entirely incorrect, and has no foundation in truth whatever. The teeth, after the parts are through the gum, never change for the better; but, on the contrary, if there is any altera tion, it is toward decay or decomposition, which can never be restored in this life; but the decay may be arrested from tarther progress by artificial means. In this respect the teeth are different from other bones, which may be seen in a drawing of the teeth in the Health Almanac for 1843 As far as charcoal is concerned, I would say that the ena mel of many teeth have been worn or cut through to the sensitive part of the tooth by the free use of it, and the gums in some cases will carry particles of charcoal in them for

many years, and in most cases it is impossible ever to re-

move it, as many will see by examination in their own cases

by the dark spots in the gum. JOHN BURDELL, New-York, Oct. 8th, 1842. Dentist, 69 Chambers-st. Things in Philadelphia. Correspondence of the Tribu

PHILADELPHIA, Oct. 9, 1842. The creditors of Nicholson's estate held a meeting last night to take into consideration the storm of opposition which is brewing against them. The attempt to sell out thousands of our old Pennsylvania Farmers, who have been, for half a century, in peaceable and, as they believe, legal possession of their estates, has aroused a feeling of indignation which it will be found difficult to suppress. Think of a farmer's improving land for a long series of years, which had been purchased and paid for fairly and fully, as he supposes, and then the first intimation of any thing being wrong is, the reading an advertisement that his farm is to e sold next month to the highest bidder. The

thing is grievous and I am glad to find that the Commissioners have come to the wise conclusion of compromising with all who are willing to do so. Should Mary Allan attempt the same imposition upon your citizens which she has practised pretty extensively here, caution them against her comely face, oily tongue and Quaker garb. That exemplary sect never allow their members to beg, but support all their poor. The busy impertinent interference of officious

olders of place, under the general government in our local elections is not only discreditable but positively outrageous. The several meetings held on Saturday evening

nanifest the deep interest which the sober, thinkng portion of our people take in the approaching lection.

The meeting in front of the Mansion House vas a spirited affair, large and enthusiastic, and the same may be said of the others, especially those n Southwark and the Northern Liberties.

Our Grain market is exceedingly limited in upply, owing it is probable, in part, to the holdig back of the wheat growers for better prices. In flour there has been a deficiency and the prices keep up, as the sales of last week show. It retails readily at \$5 a 5.50 per bbl., and wholesale as high as \$4.62. The shipments to foreign ports exceeded 7000 bbls., besides rye, meal, &c. Wheat, Pennsylvania, 95 cts. per bushel.

The interest which the appearance of the new Whig Almanac" has excited here, must be no less gratifying to the publishers than the rush for the work will prove profitable. To politicians it is invaluable, and they are rapidly availing themselves of the immense amount of political information which it contains.

As something of an offset to the above, Philadelphia turns out a new set of Arthur's famous Temperance Tales, which promise to do as much good in the great moral reformation, now going on, as the Whig Almanac does in the important work of political regeneration.

NEW PAPER .- We understand that arrangements are in progress for the establishment of a new daily paper in this city. It is to be under the editorial direction of N. P. WILLIS, T. N. PARMELEE, and another gentleman, who has a high reputation as a Commercial writer. The Herald noticed their project some days since, but, with characteristic inaccuracy, misstated all the facts. It is not the purpose of these gentlemen, as we learn, to start a Tyler paper, or a party paper of any kind. They intend to make a ousiness news journal, devoted mainly to the Agricultural, (Planting,) Commercial, and Navigating interests, and setting forth, no doubt, the usual sophisms of Free Trade. At the same time, the name of Mr. Willis is a strong guaranty that the Literary portion of the paper will be acceptably done. As to politics, the paper will probably be neutral enough to satisfy even the Journal of Commerce. Mr. Parmelee, who is to manage that part of the concern, is Whig in all his former asociations and instincts. Just now, he has a twist towards Tylerism, but that results from his personal relations with the Captain and his sons. We presume he has too much sagacity to blast the enterprise by any public display of this par-

THE SACRED CONCERT .- All that was hope" and anticipated of the grand Sacred Concert at St. Peters Church last evening has been fully realized. It was a performance of the most impressive perfection and of a most brilliant artistical linish in every one of its parts-all replete with expressive motive of the composer. It was attended by over three thousand persons, and will be repeated on next Wednesday and Friday evenings by the desire of numbers who could not gain

ANOTHER MAN MURDERLE BY FIGHTING .- On Saturday vening about 10 o'clock, a young Trishman named James Goodwin, aged about 23 years, was invited from his home a Sixteenth-street by some friends to go out and take a limk of fiquor at a house kept by one Mrs. McKay in the Ninth Avenue, his father accompanying him. They went there and drank. James Goodwin soon after left and went o another porter house in Sixteenth-street, called the Helen McGregor House, and while there met with a man named George Cronkwright. About II o'clock they had a ispute, and left the house to fight, Cropkwright being at the time stripped of his coat or jacket. Soon after they eft, a watchman, Mr. Gary, observed the man in his shirt deeves strike the other, and he fell like a log on the ground. He went up to him and procured the assistance of Dr. Nelson, who lives in the neighborhood finding the man inensible; but in the interim Cronkwright had escaped. Good win was immediately taken home, and Dr. Nelson ailed, who used every effort to restore animation, but withnt effect. He died yesterday morning between 10 and 11 Colock. Drs. William Parker and John Ostrom were called a make a post mortem examination of the body, and found he right parietal bone injured, and extravasated blood unler the dura mater, wiso, a fracture of the scull extending from the lower part of the parietal bone through the occi-pital bone, and also to the foramen magnum, which no oubt was the cause of death. The Coroner having obained the services of these physicians, summoned a jury in he case, and from their testimony, coupled with the circu instances attending the melanchoty affair, they rendered verdict that James Goodwin came to his death by a vio ent blow feloniously inflicted by James Cronkwright on the side of the head, on the evening of the \$th instant. The Coroner immediately issued warrangs for his appre

hension, and no doubt at the time of going to press he is imprisoned to await the charge of murder.

SANDS'S SARSAPARILLA .- 'KING'S EVIL'-so called from SANDS'S SARSAPARILLA — KING'S EVIL'—so called from an imaginary cure said to be performed by the royal touch. This fatal disease makes its appearance on different parts of the body, but principally affects the glandular system in its commencement, from whence it proceeds to seize upon and utterly destroy the cartilages, ligaments and bones. The first symptoms are enlargement of the glands about the neck, and under the chis and behind the ears, which continue to spread and increase in number until the internal organs become affected and the lungs, liver and presentery glands are enveloped in disease, from which the patient is glands are enveloped in disease, from which the patient is only relieved in his sufferings by the pale messenger of Death. removal of the causes of disease, that he never suffered the families he visited to be without a box of them, to be given in cases of emergency; and it is a well known fact thee by their prompt administration, many valuable lives have been saved, which, without their aid, would have been lost beore medical assistance could be procured. It is important, therefore, that they should be kept in every family, not only on account of their general efficacy, out most particularly for their invaluable properties, affordng immediate relief in those painful and starming complaints-windy spasms, sensation of suffocation, violent neadache, gisdiness, fear of talling, apoplexy, gout in the tomach, throbbing in the temples, fits, and nervous tremblings, &c. That they had occasion during last winter to expel from their institution, for offences committed, Mr. James Alexader Houston, a Reporter connected with the "New-York Herald," and the "Lancet," papers of which Mr. James

Gordon Bennett is proprietor. That since that event those periodicals have indulged in incessant attacks on this public institution, misrepresenting its condition. They have widely circulated that it has no means of giving clinical instruction, that it is a failure, that one of its members, Professor Mott, is about to leave it and go to Europe, with many other alterations, which are no

terly false. Whilst, therefore, the Faculty make known that all the advantages of the New-York Hospital, the Eye and Ear Infirmary, and other similar institutions, are open to their students every day in the week, together with clinical instruction in their own building, that no change whatever has taken place, or is even contemplated in their Professorships—that so far from being a failure the prospects of their school were never so bright as now, more than sixty stadebts having already entered their names on the Matricalation list, a month before the session begins, a thing without precedent among Colleges; they feel that they cannot deseend to any altercation with those libellous prints, or with

the individual who is the proprietor of them. But it is their intention forthwith to seek for this public institution the protection of the laws of the country, and call the individual who is endeavoring to perpetrate these injuries to account for his offences before a tribunal of in-Signed by order of the Faculty.

The time for examination was Tuesday, the 4th nstant, but owing to other important engagements on the part of the committee, only one of them attended, which is he more to be regretted, as the weather was extremely fine and the location of the school is one of the most pleasant in the country, being about two nty-six miles from New-York. about one mile from Rye-Port landing, on the East-River, r Long-Island Sound, affording a delightful trip of about three hours. The school, though small, the number being limited to 15, is under the best regulations, and the exami nation was one that did great honor both to the principals and the scholars. In all the exercises the young gentlemen did themselves great credit, and their teachers much boror. The course of instruction is every branch, and particularly in the languages, had been very systematic, and it was estdent that the pupits thoroughly understood the subjects on which they were examined.
