Remarks of Gov. Seward.

A slight report was provided in the City Hall for the guests of the City in the Celebration yesterday, and partaken of at the close of the ceremony. No speaking was expected; and, as we have no special taste for Corporation feeding, this was the only part of the doings of the day which we overlooked or did not attend to.

We regret the fact since we have since casually learned that Gov. SEWARD, on being toasted by Mayor Morris, briefly commented on the character of the great work whose happy consummation was the subject of the day's festivities, and proceeded to deduce some pertinent and practical inferences therefrom.

He held up the atrocious doctrine of Reputation in vivid colors to general abhorrence and execration, and exhibited the considerations of honesty, good faith, character and policy which should impel every American to regard with jealous care the preservation and scrupulous redemption of the Public Credit, whether Municipal, State or National.

No matter though imprudently contracted, he insisted that the last dollar of Public Debt should be paid, principal and interest, and that it was the duty and should be the pride of every American citizen to feel a patriotic and deep solicitude for this payment to the last dollar.

But not in this point alone should the Public Faith be vindicated and preserved. Gov. S. with the completion of the magnificent Croton Water Works before him, insisted that all the commenced and unfinished Public Works of the State should be vigorously pushed to an early completion.

He considered the Erie Railroad the most urgent, piercing as it does a region now comparatively secluded; but he regarded the Canal Enlargement as of like importance; after this the Lateral Canals. All these together, and interlarding the State in every section, constitute an enterprise of far less magnitude comparatively for the State than that undertaken and successfully completed by the City merely to supply herself with water!

And can it be deemed that the opening of a market and a medium of cheap transportation to every quarter of the State is of less importance or urgency than the supply of the City with water? Shall it be said that after the City has readily obtained and expended Twelve Millions for her Croton Aqueduct, the State cannot raise Fifteen Millions to complete her vast and most beneficent system of Internal Improvements, but must leave them to dilapidation, while the interest of over half their cost is left to press upon her annually for objects now utterly useless? Such an idea is repugnant to reason, to sound policy, to common sense.

Such, we heard from a friend who was present, was the drift of Gov. Seward's remarks at the Hall last evening. We commend them to the earnest regard of every reflecting citizen of the Empire State.

New-Jersey.

The Loco-Foco presses palliate their defeat in New-Jersey by asserting that they have a majority on the Popular Vote—that is, counting their votes in Bergen, Sussex, Warren, Hunterdon and Atlantic, where the Whigs ran no tickets, they have polled more votes than the Whigs. Now it is a sufficient answer to this plea to state the notorious fact that they made just the same excuse in 1839. Then we carried the Legislature, but they claimed a Popular Majority of 2,000, and said the State would certainly go for them in the General Ticket the next year. That year came and the Whigs again carried the Legislature, and the same excuse was repeated. One month after came the General Ticket Election for Congress and President, and the Whigs beat them all hollow by over 2,000 majority. Just so will it be again, whenever we are called to hitch on the long team. It was well understood and often proclaimed by both parties before the Election that the result this Fall settles the Political character of the State for five years to come. So they all regard it now. The fact is, Mr. Slamm, you party in Jersey are a hood-on people, and right well do they know it. Your whistling over their defeat deceives no body, and only aggravates their sense of misfortune.

It is rather bad that the only answer that the Albany Argus & Co. can make to the plain truths set forth in the recent Circular of the Whig State Committee is to quote a Faneuil Hall Whig as testifying what is notoriously untrue—viz: that the Loco-Focos are as favorable to the policy of Protection as the Whigs. He is used of late as a general endorser of assertions which will not bear their own weight. Call you this backing your friends?

The HOME INDUSTRY CONVENTION held a most interesting session at the Lyceum last evening. Gen. TALLMADGE, on accepting the office of President of the Home League for a second term, (though he had declined a reelection,) made a brief but most forcible Speech, embodying Statistics of our Commerce and Ship-building, of the most striking character. (We took notes of this Speech, which we shall write out and publish as soon as possible.) A series of Resolutions bearing on the Industry, Business and Prosperity of the Country, were introduced by Mr. C. C. HAYEN from the appropriate Committee, and by other Members, severally discussed, and adopted. We hope to publish them in our next, and we bespeak for them the consideration of the friends of Home Industry. Finally, the Convention adjourned, sine die, at 10 o'clock. Another is to be held steadily in October next.

FIRE.—Last night about 11 o'clock a destructive fire broke out in a slaughter-house situated between 27th and 28th streets and the 2d and 3d avenues, directly in front of the Almshouse. The flames soon communicated to the Rose Mills, a large six story brick building, the interior of which from the ground floor to the roof was soon burned. The West, South and North walls then successively fell with a tremendous crash, crushing some sheds and other buildings within the range of their fall. This accelerated the extinction of the flames, which at 12 o'clock were reduced to a smouldering ground-fire. Two cows, one horse and several hogs were burned in the slaughter-house, which, it is supposed, was maliciously set on fire.

Plebanning.

You may always tell the near approach of an Election by the general bearing of the lower strata of Loco-Foco journals. At such a time they always eschew the lie circumstantial as too tame and prosy and adopt the lie direct. Take for example, the following paragraphs from the last Plebeian:

"WHIGGERS AND DEBT.—Since the Whigs have had the ascendency in Maryland, for a period of ten years, they have run the State in debt seven or eight millions of dollars. Ten years ago the State had on hand a balance of thirty-five thousand dollars."

Now who can be so ignorant as not to know that the House of Delegates of Maryland has repeatedly been Loco-Foco within the last ten years—that it was so last year—and that the Governor has been uniformly Loco-Foco since 1838? The State Debt has been incurred for Internal Improvements, and, whether wisely or otherwise, a full proportion of Loco-Focos voted to incur it. We have seen the Yeas and Nays, distinguishing those of either party. Again:

"LET US TRY FEDERALISM.—That his party in Congress proposed to pay General Hall for his treason, and voted a bill through the Senate to pay \$300,000 to the Massachusetts Militia, because they refused to fight the battles of their country in the late war."

Isn't this first charge awful! 'His party proposed,' did they? To pay William Hull his salary for the time he was legally Governor of Michigan? Well, we would have voted to pay the last sixpence of that salary, though we hung the receiver the next minute. Shoot a coward, hang a traitor, if proved such, but don't stop the pay of a public officer on a vague charge of treason, after he has been rigorously tried on that charge and acquitted, as Hull was. He was pronounced a coward, which may be a good reason for shooting him, but not for stopping his pay.

As to the Massachusetts Militia, they never refused to 'fight the battles,' &c. but did turn out in her defence; and it is for services rendered in that capacity that payment is now claimed. Repeated Committees of Congress have decided that the claim is just and ought to be paid. Still, even the present Congress failed to make any provision for its payment. But again:

"The Newark Advertiser asks: 'What party is responsible for the late "badly say, neighbor. Rather good however, it's the party whose great leader once pronounced it "a national blessing." Mr. Plebeian! You do know what Administration voted the Government with abundant resources and no debt, and left it with an inadequate, declining revenue, in debt, and falling deeper and deeper. You know right well that was Martin Van Buren's. Then as to the 'national blessing'—what leader was even in favor of one? and where did he so express himself?—Are you not ashamed of such low appeals to ignorance and prejudice?"

Hon. ALBERT SMITH of Batavia is the Whig candidate for Congress in 'Old Genesee,' or the XXXIIIrd District composed of Genesee and Wyoming Counties. He was an able and most efficient Member of the last Legislature. His election is beyond a doubt, but we trust the Whigs will not the less work to put his majority above 3,000. He deserves it—THE CAUSE needs it, and the District can give it. Freemen of Genesee! give the Albany Regency one more genuine roar of the Young Lion of the West!

BENJAMIN D. SILLIMAN of Brooklyn is the Whig candidate for Congress in the Second District composed of Kings and Richmond Counties. He eminently combines talent with worth and popularity, and will be a most creditable and useful Representative. We trust the Whigs of that District have determined to elect him.

CHARLES ROGERS of Washington Co. is the Whig candidate for Congress from the XIVth District composed of Washington and Essex Counties. This District can give 2,500 Whig majority very easily—2,800 if it tries. Will it not try? Whigs of WASHINGTON and ESSEX! let us hear from you in your strength in November!

The Whigs of COLUMBIA County have nominated JOSHUA T. WATERMAN of Hudson, JONAS MILLER of Taghkanic, and EDWIN E. GRIGGS of New Lebanon for Assembly. They had a very new Convention, which was addressed by WILLIS HALL and Hon. A. B. DICKINSON, and the Republican says they are awaking from their two years' slumber, and resolved to do their utmost. If they do, their friends elsewhere will be most agreeably disappointed.

The Whigs of CLEVELAND, Ohio, had their Grand Rally and a Torch-light Procession on Monday evening, the night before the Election, (Tuesday.) Hon. FRANCIS GRANGER (our Granger) and Hon. S. J. ANDREW, M. C. were to address the meeting.

The Whigs of WESTCHESTER County have nominated for Assembly GOVERNUR M. WILKINS and ARNOLD F. DICKINSON. They are good men and true, and can be elected if the Whigs try. Then why not?

DANIEL LASSELLS of Ephratah is the Whig candidate for Assembly from Fulton and Hamilton Counties. There can be no serious doubt of his election, and we hope for a strong majority.

MYNDERT M. R. WIMPLE is the Whig candidate for Assembly in Schenectady County. He is the right man, and we have hardly a doubt but that he will be elected. The Whigs of Schenectady are READY.

The Whigs of OSWEGO County have nominated JOHN L. KIP of Hannibal and JACOB CROWELL of Williamstown for Assembly. They mean to elect them, most decidedly.

The Whigs of GENESSEE have nominated JAMES LONO of Darien for Sheriff, ROBINSON SMILEY of Elba and IRA WAIT of Bethany for Assembly.

THE ALABAMA TRIBUNE, a Daily, has just been started at Mobile, to advocate the election of JOHN C. CALHOUN as next President.

A tremendous rain-storm commenced about 10 o'clock last evening, and continued down to the hour of our going to press. We may presume that our readers between Mars Hill and the Chattahoochee will generally have heard from it before this reaches them.

We are requested to call attention to the notice of the Irish Emigrant Society in this day's paper.

WISCONSIN.—The following Returns reach us in our last St. Louis papers:

Table with columns: County, Whig, Loco, Whig, Loco. Rows include Grant, Iowa, Crawford, Dane, Rock, Sauk.

IN THE OHIO Election, from which we expect returns hourly, three Loco-Foco Counties having 13,511 voters elect seven Representatives, or one for every 2,000 voters, while four Whig Counties, having 21,953 voters, elect but four Members, or less than one for each 5,000! This barefaced robbery of the People is called Democracy!

In St. Mary's County, Maryland, where there was a tie on the third Delegate, the seat has been given to Mr. Key, Loco, on the ground that a vote intended for him had been improperly rejected. This gives the Locos six majority in Joint Ballot—they having carried twice their majority by splits in undoubted Whig Counties.

Loco-Foco Nominations. Third Senate District.—John C. Wright of Schoharie. Sixteenth Congress District.—(Schenectady, Saratoga and Fulton.) Chesseldean Ellis of Waterford, Saratoga Co. Twenty-Seventh District.—(Seneca and Wayne.) Byron Green of Wayne. Wayne Co.—Frederick U. Sheffield and Philip Sours for Assembly. Daniel Chapman for Clerk.

Tenth Congressional District, (Utah and Delaware).—Jeremiah Russell of Ulster. Schenectady.—Edward H. Walton for Assembly. Madison Co.—Venoni W. Mason, Lorenzo Sherwood, and Henry Palmer for Assembly.

POLITICS IN CANADA are a little more ferocious and scurrilous than they have ever been in this country. The New Era in its palmist days was hardly a match for the Montreal Herald, etc., in bitterness and personality. The Tories, it appears, have just had the public pap taken from them and given to the Liberals, and they refuse to be comforted.

The County of Hastings has just elected to Parliament Murney (Tory) over Baldwin (Liberal), by 492 to 433. Mr. Dunscombe has resigned his seat for Bauharnois and Edward Gibbon Wakefield (famous for a certain abduction of a young lady in England) is the Government candidate to fill his place.

A BANK PRESIDENT IN A CORNER.—Benjamin Shaw, late President of the Frankfort Bank, Me., was tried at Belfast last week, on a charge of embezzling the funds of the institution. The Jury could not agree—eleven for convicting, one for acquitting. He will soon be hauled over the coals again.

THE RAINERS sang again last evening at the Society Library. The more we hear these delightful melodists the better do we like them.—Their voices are all remarkably sweet—while the tenor of Louis and the bass of Mr. Simon have few, if any equals among our most celebrated performers. Their songs and their manner of singing have in them nothing of the stage effort at effect which is so common, and yet so peculiarly repulsive, at musical festivals. All their pieces are delightfully executed—though we prefer their own mountain melodies to the more ambitious English songs. Their voices are among the most pleasing musical entertainments with which our citizens are favored.

THE TROPIC is the name of a new daily of the medium size, the second number of which has just reached us from New Orleans. It is well filled with valuable matter, literary and political, the latter being of the true Whig stamp. It is edited by G. W. Bradbury, W. H. McCordle and A. S. Merrifield. The Crescent City is well supplied with well conducted papers—including its namesake. They have there what we seem, with one or two exceptions, woefully to lack—Editors of neutral papers who are witty and spicy without being vulgar and low.

We are happy to learn that the Trustees of the ROGERS' Institute have made arrangements for an interesting and valuable series of Lectures for the coming season. The people of the Eastern portion of the city will thus have a delightful and instructive entertainment at their own doors.—Several gentlemen of eminent learning and ability have already been invited, and others will be.

We hear reports of insolence and imposition on the part of the drivers of some of PALMER'S Broadway omnibuses. We know instances in which they have demanded a shilling, instead of the regular fare, and have been exceedingly abusive toward ladies and gentlemen who were not disposed to submit to their gross extortion. If the proprietor cannot find a remedy for this, the riding portion of the community can and will.

THE FISHERS STANDARD, Dutchess county, hitherto neutral, has avowed itself in favor of CLAY, BRADISH and FURMAN, on the ground of their devotion to the cause of PROTECTION to HOME INDUSTRY.

Three Divorces were granted this week at Hartford, Conn.—Lorenzo T. Keeney and Fidelia Motross got clear of their better halves on the ground of willful absence and neglect of duty; Ann C. Woodworth ditto for adultery. For shame, Land of Steady Habits!

APPLES OF THE THIRD CROP.—We were presented, the other day, with a few Apples of the third crop this summer, by Mr. Samuel Dole.—They were small, hard, and rather ill-flavored, though apparently nearly or quite ripe. Mr. D. informs us that the tree is now out in blossom for another crop. This we think is unprecedented. [Portsmouth, Ohio, Tribune, Oct. 7.]

IMPORTANT INVENTION.—We had shown to us yesterday the model of a contrivance for the outlets of canals and mill ponds, called the canal bank and mill dam reservoir, which strikes us as well worth the public attention. It is the invention of Robert Robinson, of Greece, Monroe county, and is designed to keep the water in mill ponds or canals, at any desired level in case of a sudden freshet. The machine is self acting, and from the appearance of the model, there can be no doubt that it would work well in practice and prevent the disasters so commonly the result of a sudden rise of water. [Albany Argus.]

AMERICAN MUSEUM.—There will be two splendid performances this afternoon and evening at this favorite establishment, offering great inducements to strangers, ladies, children, &c. Never were better attractions put forth than are found there this week.

The New-York Museum never before presented such a vast number of visitors as attended it yesterday. The manager comprehends catering to the community; in his anxiety to gratify the public he appears regardless of expense—they perceive it and patronize him accordingly.—There were close upon five thousand persons present yesterday. There will be a performance to-day at 3 o'clock, being the last entertainment given by Signor Blitt, as he leaves by the Boston boat this evening.

BY THIS MORNING'S MAIL.

PENNSYLVANIA.—The Philadelphia Gazette of last evening has returns as far West as Westmoreland County: 32 Whigs to 29 Locos to the House—a Whig gain of 13. It appears that our friends all the Members (4) from Chester. Our friends have thrown away 2 in Adams, 1 in Dauphin, 1 in Bedford, 1 in Franklin, and probably 1 or 2 in Allegheny. But for this we should have had a clear majority—now we shall not.

GEORGIA.—Our returns from this State yesterday show a decided Whig gain from last year, both on the aggregate vote and on Members of the Legislature. We are surprised at this, having supposed that Anti-Tariffism would carry the day there by 10,000 majority. It will hardly reach 4,800. If our friends in Georgia will only take a manly and fearless stand on Whig principles and measures, they will soon regain the State.

Things in Philadelphia. Correspondence of the Tribune. PHILADELPHIA, Oct. 14, 1842. Mr. Editor.—Our newly elected Council assembled this morning and were organized by the election of WM. M. MERDITH, Esq., as President of the Select Council and SAMUEL NORRIS, President of the Common Council. Had your grand Celebration come off one day later, it would have enabled our Council to accept the invitation so politely tendered them on the part of your City.

John M. Scott was also elected this morning as Mayor of this City. His reelection is a matter of very general congratulation, for his private character is spotless and irreproachable that the best results are anticipated on the political and moral condition of the City.

The result of the election of the Districts is not fully ascertained, but it is believed that the result either of bungling incompetency on the part of our opponents, or something worse.

Some singular facts in the recent Election are in the course of development, and it is now satisfactorily known that nothing but the keen, sharp-eyed vigilance of our Clubs and Committees prevented the preparation of some astounding rascals upon the Election.

The triumph of our Whig friends in New-Jersey is the occasion of great rejoicing. A grand procession of Loco-Focos was conducted last night by the streets of New York City. His reelection is a matter of very general congratulation, for his private character is spotless and irreproachable that the best results are anticipated on the political and moral condition of the City.

Mr. Ryckman was standing looking at the Fountain in the Park, talking with three men, when feeling a hand in his pocket, he turned and seized them, and the pocket book and contents dropped at his feet, together with John Cherry, Mary Jane Montgomery, and Robbing a Countryman.—A man named Stoddard, from the country, was inveigled on Thursday night by a female into a house in Reade street, kept by Charles Stone, alias French Jack, and while there he was robbed of his pocket-book containing \$20, by one of the females, aided by others.
