ANOTHER VETO. Albany, Thursday, April 13, 1854. The Governor has vetoed the bill with reference to the filling of vacancies by the Governor during the recess of the Senate. His objections are that the law would be inoperative, so far as vacancies are concerned, by reason of the expiration of term of office, because the incumbent would hold over. He also objects that the bill prevents the Governor from removing for cause. The bill will not be repeated.

Mr. CASS offered a resolution directing inquiry, by the Committee on Public Lands, as to the expediency of selling the public lands in the Territory of Idaho from Iron Bay, in Michigan, to Little Bay de Loquette. The resolution was adopted.

At 12 o'clock, on motion of Mr. MASON, the Senate went into Executive Session, and the doors remained closed until 4 o'clock, and then adjourned until Monday.

HOUSE OF REPRESENTATIVES.

The House ordered to be printed 30,000 additional copies of Lieutenant Henderson and Gibbons' report of the Survey of the Amazon and its tributaries, making 100,000 in all.

Mr. GRAY (Ky.) asked leave to introduce a resolution calling upon the Postmaster General to furnish to the House copies of all rules and regulations adopted by him during the past year, and to the expediency of the Post Office the right of going into the rooms during office hours for the purpose of examining the public records, and further, that the Postmaster General should not be permitted to reply to the House on any subject.

He stated that the report of the Postmaster General, relative to carrying the mails between Montgomery and Mobile, being contradictory, he went thither to look into all the facts, but he denied the privilege. It was impossible for him to discharge his duties, and facilities, and he was therefore asked to be discharged as a member of the Committee on Post Roads. Agreed to.

The resolution was referred to the Committee on Post Offices.

Mr. OLDS (Ohio), from the Committee on Post Offices and Post Roads, reported a bill modifying the rates of postage. He said two weeks ago, when he reported a bill increasing the compensation of deputy postmasters, he avowed himself willing to vote for the bill, but he has since changed his mind, and he is now opposed to it.

Mr. OLDS (Pa.) said he certainly wanted to be convinced as to whether a resolution should be passed, or whether he should be content with the bill. He feared that the gentleman from Ohio would fail to convince him that this bill is right. However, if the gentleman should convince him that this measure is just and right and proper, his constituents would vote for it, because it would be against his constituents. He hoped, however, the gentleman would be convinced of the propriety of its passage.

Mr. KITCHIE (Pa.) said he wished the gentleman to understand the matter on Pennsylvania. He said he had no objection to the bill, but he had no objection to the gentleman who had just taken his seat.

Mr. FLORENCE (Pa.) said he certainly wanted to be convinced as to whether a resolution should be passed, or whether he should be content with the bill. He feared that the gentleman from Ohio would fail to convince him that this bill is right. However, if the gentleman should convince him that this measure is just and right and proper, his constituents would vote for it, because it would be against his constituents. He hoped, however, the gentleman would be convinced of the propriety of its passage.

Mr. SKELTON (N. J.) asked that the bill be postponed till a day certain. It was a measure of too much importance to be considered at this time.

Mr. WENTWORTH (Ill.) said he was tired of postponing bills to days certain. He preferred certain days hereafter.

Mr. OLDS resumed, arguing that five-cent postage is the revenue point, and this will restrain the Post Office Department, and add to the revenue of the country.

Mr. HENDERSON (Pa.) stated his intention to reply to the gentleman, but gave way to Mr. SAGE, on whose motion the further consideration of the bill was postponed for four weeks.

Mr. STANTON (Tenn.) from the Committee on the Judiciary, reported a bill modifying the Judicial system of the United States.

The House then went into Committee on the Land Graduation bill.

Mr. HAYDEN said it was of no use for the members to spend their time on this bill. Was it to benefit the poor and laboring man? No. They had already passed the Homestead bill, giving him as much land as he can occupy without paying a cent for it, nor could a rich man get more than twenty acres. He therefore moved that the Committee rise and report the bill before them, with a recommendation that it do not pass.

Mr. COBB was sorry his worthy and learned friend proposed this bill, because he could not know how much it would cost the heart. This bill did not interfere with the Homestead bill, as he proceeded to show.

Mr. BISSSEL (Ill.) looked on the Graduation bill as a sequel to the Homestead bill.

The amendments were debated, and several of verbal character adopted, when the Committee rose and reported the bill to the House. It provides for the sale of lands which have been in the market for ten years at one dollar an acre; fifteen years, seventy-five cents per acre; thirty years or more, twenty cents per acre. It therefore moved that the Committee rise and report the bill before them, with a recommendation that it do not pass.

Mr. BRIDGES (Pa.) moved the bill be laid on the table.

ANOTHER VETO. The following Message was received from the Governor, vetoing the bill amending the Revised Statutes relative to appointments during the recess of the Senate.

THE HON. SANDFORD E. CURRIE, President of the Senate: I return to the Senate the bill entitled, "An Act to amend the act of the 12th chapter 5, part 1, of the Revised Statutes."

The bill makes no actual change in the 5th section, as it has been judicially determined in this State that the Governor does not now possess the power of filling any office vacant during the recess of the Senate.

The second section of the bill is wrong. It takes from the Governor of this State a power which he ought to have, that of removing certain officers, if they are guilty of misconduct or neglect of duty.

The bill relative to the construction of nassau buildings in New York City, was reported for consideration. (Such a report, to late in the session, will most likely prove fatal to the bill.)

THE GADSDEN TREATY—ITS SECRET HISTORY—LETTER FROM MR. WARD.

plained in the light of the collateral conversations, and of surrounding circumstances, will convict me, in any conceivable mind, of any such design or design to mislead. Perhaps it may then appear, as Gen. Gadsden himself has repeatedly intimated to the public, that the very reasons given in the instructions themselves for not disclosing to invade the expedition claims in the pending negotiation, left him implicitly at liberty to secure their adjustment, when he found the course of that reason was the case; that in fact, he could not be said to be acting in the interest of the Mexican Government and people from the fact which haunts them like a shadow—that while these reasons remain open a single ground of dispute with our country, Mexico is always exposed to invasion and final absorption.

But the testimony of the American Minister himself upon the point is thoroughly conclusive, so far as any imputed interference of mine is concerned. Soon after his return to his home in Charleston there appeared in The Charleston Courier a series of articles, which, from their general tenor, and especially the particularity of their details in regard to the provisions of a Treaty now at that moment in the secret recesses of the State Department, led me to doubt they were authorized if not written by Gen. Gadsden himself. In one of these articles it is stated:

"Gen. Gadsden," proceeded to the fact that he had by a Convention with Mexico, secured to ourselves in the acquisition of the Gadsden grant by the recognition of a like grant to Col. Sloss. This Convention, made without authority, greatly embarrassed our Executive. The President had recognized a new class of American claimants, the acquisition of the Gadsden grant, and the American Minister recognized the Mexican population of that grant, and acquiesced in the one to Sloss. In this difficulty, Gen. Gadsden was left to his own resources. He was authorized by a Convention with Mexico, secured to ourselves in the acquisition of the Gadsden grant, and the American Minister recognized the Mexican population of that grant, and acquiesced in the one to Sloss.
