

ANOTHER RAILROAD DISASTER.

Bursting of a Locomotive Boiler. Three Killed—One Wounded.

HARRISBURG, Pa., Tuesday, Sept. 5, 1865. The Erie express train on the Pennsylvania Railroad, coming East this morning, when near Dun-

FROM WASHINGTON.

Special Dispatch to The N. Y. Tribune. WASHINGTON, Tuesday, Sept. 5, 1865. TOBACCO WEST. Census returns of 1860, represent the value of tobacco manufactured during that year in the Western States was \$4,891,813.

PENSION SURGEONS APPOINTED. Dr. Marton Waterhouse of Portage, Wisconsin, and Daniel Bostwick of Litchfield, Conn., were today appointed Examining Surgeons of the Pension Bureau by Acting Commissioner Pusey.

POSTAL MATTERS. During the past week the Post-Office Department closed 25 contracts for carrying the United States mails over important routes in the Southern States, and also reopened 45 Post-Offices.

PERSONAL. Assistant-Secretary Fox represented the interests of the Navy Department in the Cabinet meeting today, Secretary Welles being home on a visit to Connecticut.

OUR FINANCES. The Treasury Department does not anticipate raising any money before the coming session of Congress. The receipts from internal revenue alone, from July 1 to the 1st prox., will probably amount to from one to one hundred and ten millions of dollars, while there will be no falling off of custom's duties, as heavy orders for foreign goods are known to have gone abroad for supplying the exhausted markets of the South and West.

THE GOVERNMENT IS AT PRESENT engaged in the sale of 300 first-class locomotives, an immense number of freight cars formerly in use on its military roads, beside 418 river steamboats and steam-tugs at the South and West, and a large number on the Eastern seaboard. Five thousand horses and 10,000 mules will be also sold this month, together with 6,000 tons of railroad iron at City Point and Alexandria, Va.

THE PUBLIC DEBT INCREASED only \$4,000,000 last month, and it is now certain that the gross aggregate of our National debt will never reach the sum of \$3,000,000,000. There will be over \$40,000,000 of gold in the Treasury after all of the September gold interest is paid, and the sale of this large surplus is now under consideration. Our daily receipts are largely in excess of our current expenditures. It is the mounting volume of certificates of indebtedness which has raised the question of a temporary loan, which is one of expedience rather than necessity.

ABANDONED LANDS. The subject of abandoned land having some time since been referred to the President by Gen. Howard, has finally been referred back to the latter with power to grant or deny, as he may think proper, all applications made by former Rebel owners of lands, as applied for by the Government, for restoration to such property. Gen. Howard has today issued an order intended for the government of applicants for abandoned property, in which, after citing the law of March 3, establishing the Bureau, he directs—

ASSISTANT COMMISSIONERS will, as rapidly as possible, make a description of all abandoned and abandoned real property that is now or may hereafter come under their control, to be made, and besides keeping a record of such lands and the setting apart of such land and property, care will be used to take that about which there is the least doubt that this Bureau should have custody and control. Whenever any land or other real property that should come into the possession of this Bureau as abandoned does not fall under the definition of abandoned as set forth in section 2 of the Act of Congress, approved July 2, 1864, heretofore mentioned, it will be formally surrendered by the Assistant Commissioner of the Bureau to the State within which such real estate is situated, upon its appearing that the claimant did not abandon the property in the sense defined in said section and act. Former owners of property held by this Bureau as abandoned, who claim its restoration on such facts as may assist the Commissioner in his duties, especially the use to which the property is put by the Bureau.

A REBEL ACTOR. A notorious Rebel actor took a leading character in the opening at Grover's Theater last night. His appearance was the signal for a general outbreak of cheers and hisses. The cheers preponderating. Today the town has been jumping over the row and has twice taken the oath.

INTERNAL REVENUE DECISION. The Acting Commissioner of Internal Revenue has just made the following important ruling: When the decision No. 140 was made the 23d of June under the act of June 30, 1864, had not been put into the market, and the said bonds should now be included in the list of United States securities to be deducted from bank capital under the section of the revenue law.

INTERNAL REVENUE RECEIPTS. The receipts from Internal Revenue to-day were less than \$1,000,000. The total receipts from the 1st of July to date, as exhibited by the books of the Internal Revenue Bureau, are \$63,470,000.25, which is largely in excess of the estimate made by the Secretary of the Treasury, who only expected to obtain about \$60,000,000 from this source during the present quarter ending the 31st of this month.

SOAP, CANDLES AND LARD OIL.

The Census returns now being compiled at the General Land Office show that in 1850 there were 157 establishments in the Western States for the manufacture of soap, candles and lard oil. The total capital invested was \$2,915,980. The total annual cost of raw material used was \$4,897,894, yielding \$7,093,541 in products. One thousand and seven male and 125 female hands were employed, costing yearly for their labor \$361,056.

PRIZE CLAIMS. The monthly report for August of this office exhibits that there were 1,738 prize claims stated, involving \$182,532.20. The total number of claims received during the same period was 2,506.

PATENTS. The Commissioner of Patents issued 126 patents for September 12.

MILITARY PERSONAL. Major Adrian Terry (brother of Major-General Alfred H. Terry) has been appointed Assistant-Inspector General for the Department of Virginia.

THE PRESIDENT'S VISIT TO RICHMOND. Charles Palmer of Richmond, who was to invite the President and Cabinet to visit that city, arrived here on Saturday. He has been most cordially received by local holders with evidence that they have passed through the hands of loyal citizens only.

TEXAS INDEMNITY BONDS. The Secretary of the Treasury is now paying the Texas indemnity bonds, so called, which were issued by the United States to the State of Texas under the act of Sept. 9, 1850, when such bonds are presented by loyal holders with evidence that they have passed through the hands of loyal citizens only.

MILITARY PERSONAL. Brevet Major-General John C. Robinson of New-York, commanding the Department of Northern and Western New-York, was recently inadvertently mustered out of service. By order of the War Department the mistake has been corrected from this date.

HEALTH OF JEFF. DAVIS. Gen. Miles, in command of Fortress Monroe, telegraphed that Jeff. Davis has been, and is still, suffering with dyspepsia and caruncles on his leg.

INCOMES IN THE DISTRICT. It appears from the books of the Collector of Internal Revenue for the District of Columbia that the net individual incomes for the last year of about one hundred citizens, on which they severally paid taxes, was between \$3,000 and \$14,000, seventy-five persons from \$4,000 to \$5,000; thirty-four from \$5,000 to \$6,000; twenty-eight from \$6,000 to \$7,000; twenty from \$7,000 to \$8,000; twenty from \$8,000 to \$9,000; ten from \$9,000 to \$10,000; and twelve paid taxes from \$10,000 and upward. The list named included three hotel-keepers and four bankers.

NEW-YORK POLITICS. The Democratic Convention to-day—Gathering of the Cms.—Gen. Patrick for Secretary of State—Controller Robinson—Rival Delegations—The Resolution—Spoils as a Platform.

Special Dispatch to The N. Y. Tribune. ALBANY, Tuesday, Sept. 5, 1865. There is quite a strong muster of the Democracy to-night, including many of the noted ring-masters. Seymour, Senator Cozzens, John McKeon, and a few others are preparing the business of the Convention.

From Newbern. SOUTHERN PRODUCTS SENT NORTH—COTTON—HOTELS, REAL ESTATE, &c.—MONUMENT TO COL. McHENNEY. NEWBERN, N. C., Saturday, Sept. 2, 1865. Steamers LORRAINE, HOWE, El Gid, and Argo, and a fleet of schooners, left here today for the North, heavily laden with cotton, tobacco, naval stores, and other products.

From Raleigh. STATEMENTS BY JUDGE CARTER. RALEIGH, N. C., Friday, Sept. 1, 1865. Judge Carter, who has returned from an extensive trip through the South, states that the cruelty to the freedmen, and the number of homicides among them by the whites, are increasing to a fearful extent, especially in places where the troops are being withdrawn.

Sale of Government Vessels. A number of Government vessels were sold in front of the Lyceum at the Navy Yard, at noon yesterday. The following are the names of the vessels, the price, and purchasers: The steamer Augusta Diamond, \$49,000, purchased by Smith & Spangler.

JERSEY CITY COMMON COUNCIL PROCEEDINGS.—At the meeting of the Common Council of Jersey City last evening, a petition was received from D. S. Steiner and others, setting forth the inconvenience for the lack of access to the terminus of the Central Railroad of New-Jersey, except by way New-York, and asking to have Hudson street opened to the depot in the City. A resolution was adopted providing for the payment of \$500 per annum to each of the engineers of the steam fire engines. Also appropriating the sum of \$250 for furnishing the house of Hose Co. No. 3. Alderman Quate offered the following resolution: Resolved, That a Special Committee be appointed by this Board to investigate the same, and if deemed advisable, to report thereon to the Board.

FROM THE RIO GRANDE.

Half an Hour with Gen. Cortinas—His Opinions—Mexican Guns in Cortinas's Hands—Railroad Building—Officers Resigning—Abatement of an Epidemic—The Rio Grandé on a Rise, &c. From Our Special Correspondent.

BROWNVILLE, TEXAS, August 2, 1865. Hearing that Gen. WILLIAM P. CARTER was in town, I went to see him, and hear his views on the State of the Liberal affairs.

I found the Chief at a small house belonging to him. He was seated in a room filled with brick, and containing a small table, covered with a red cloth. A few chairs made up the rest of the furniture of the room, and on these were seated some three or four persons. One of these was Signor Francisco Gomez Rodriguez, late Chief of the Treasury of Tamaulipas.

Cortinas is a man of about 50 years of age. He is of the middle size and strongly made. There is nothing at all noteworthy about his face. His black hair and beard are now tinging with gray. As to dress the chief wore simply a light black coat and pantaloons of a gray color. In everything he looked the quiet citizen.

On hearing my business he gave me a seat on his left, and said in Spanish, in answer to my questions, "That the state of the Liberal affairs was good; that he could gather 3,000 men under his command," and at length he added that he would soon make an attack upon Matamoros. This, by the way, has been spoken of for the past two or three weeks. Cortinas observed that the United States could not continue at peace with the Empire of Mexico, but that if the old form of government was reestablished, the people of the two countries would live in the most friendly way.

Signor Rodriguez I found to be a clever and well-educated man. In the latter respect his chief is very deficient. Not more than 38 years of age, Rodriguez looks in the vigor of life, and has a delicate, intelligent face. He told me in Spanish—for he could not speak English—that the Mexican people were in a state of insurrection, and there was only wanting a "center of union" to enable the people to act in a body. I asked him what Gen. Negrete was doing, to which he said that officer is Secretary of War, and that he is with President Juarez, organizing a body of men. Signor Rodriguez tried to make things look hopeful for the Liberal side, and he spoke well; but it is evident that unless the United States openly takes sides with the Liberal party, there is no hope of their forcing their enemies from power.

THREE MEXICAN GUNS which have been lying parked near the Rebel battery of six pieces taken with this place, were yesterday removed by Cortinas. The three guns are rifled brass 12 pounders, one with the Mexican eagle upon its breech, and the other two with "Tamaulipas" stamped on the same part.

THE RAILROAD has now got as far as Boca Chica—that is, about 15 miles from Brazos—and there is an engine on the track to assist in construction. It will be the end of October before the road can reach Brownsville, for all the material has to be brought in transports from Mobile, and there are not many of the latter.

A great many officers have sent in their resignations lately, a circular having been issued directing officers who desire to resign to send in their resignations now. In the colored troops resignation has been the order of the day. In the 6th Regiment only two or three officers remain in the service. The out-of-the-way spot at which the 5th A. C. is now stationed leads to their dislike for further service.

THE FEVER, which has left no one untouched, is now abating. It is not a dangerous sort of fever, but, for a time, the pains in one's bones are so sharp as to make him think his bones are breaking. Hence it is called the "break-bone" fever, or the "danque." In fact, it is a species of bilious fever.

A second rising of the water of the Rio Grande is now taking place. The river has risen three feet since yesterday, owing to the late rains and the streams from the mountains. The increased depth of water will enable the boats to carry heavier freights for a time.

An Address from Gen. F. de Leon—Gen. Steele Visits Gen. Robles—The Era of Good Feeling—Gen. de Leon and Gen. Carvajal at Brownsville—Various Matters. From Our Special Correspondent.

BROWNVILLE, TEXAS, Aug. 14, 1865. Gen. de Leon of the Liberal Army of Mexico has issued the following address to the forces under his orders, which he now places under the command of Col. Genales: (Translation.)

CITIZEN FRANCISCO DE LEON, Provisional Governor and Military Commander of the State of Tamaulipas. To the inhabitants and forces of the same: Citizens and Companions in Arms: A matter of the greatest interest to the cause of national independence, which we defend, obliged me to separate myself temporarily from you, and to place the political and military command of the State, which Citizen-General Carvajal gave to me provisionally, in the hands of the well-known, brave and patriotic Col. Sergio Genales. In leaving even only for a few days, the brave sons of Tamaulipas, who have with such patience borne in my company every sort of hardship and privations, when we had almost no hope of gaining happy results—my heart is heavy and full of grief, for in every one of you I see, and have always seen, a friend—a brother—a son, but I am consoled by the hope that I am going to work for the same great and sacred principles—the independence and liberty of Mexico, and that very soon I will be on my return to your side to share again your dangers and hardships. In the meantime I entreat upon you the same constancy, fidelity and valor as that which you have shown up to this time, as well as the utmost order, subordination and respect to the worthy chief who has replaced me, and under whose orders you are placed. I look for brilliant and fruitful triumphs, and do not doubt that you will render eminent services to the country. "Brave sons of Tamaulipas! Fight for Independence and for Liberty! Death to Maximilian and his French mercenaries! Death to traitors!" Your companion and friend, FRANCISCO DE LEON. San Fernando, Aug. 5, 1865.

The 12th inst. was noteworthy for the visit of Gen. Steele to Gov. Robles, in return for the latter's visit to this place. The General was well received, and in the evening there was a pleasure party on board one of the river boats—the Camargo—which was lit up, and with music on board, ran a short distance up the river. During the reunion good wine flowed freely, and as a consequence there was a general good feeling. The river is still high, and the number of boats that have come up in the last few days has been greater than usual.

Gen. de Leon is here, and one of the objects of his visit is to meet Gen. Carvajal, who is looked for daily from the North. The heat is not so great as it was. The nights are growing cool, and a fine east wind blows during most of the afternoon. Still men are dying fast. The roll of the muffled drum is heard every afternoon, as funeral parties pass down Elizabeth-st. to inter comrades who have died of fever, &c. The term of service of the 19th and 20th Wisconsin Volunteers being up, they are ordered to be mustered out. The battery of the brigade—Gen. Slack's 13th A. C.—goes with them.

BARNUM'S NEW MUSEUM. Its Appearance and Interior Arrangement. MR. BARNUM'S new Museum, at Nos 539 and 541 Broadway, which is thrown open to the public for the first time to-day, was last night visited by a select company, consisting mainly of members of the press. The premises of the new Museum consist of five spacious saloons and a lecture-room, and occupies nearly the whole of the building, which stretches across the

entire depth of the block on which it stands, 200 feet. The situation has afforded the means of remarkably safe and quick access in case of emergency, as ample doors in both ends of the house allow all the audience to get out in less than five minutes.

The stage of the new Lecture Room is 60 feet wide by 46 deep, and the auditorium is 75 feet deep, giving the whole room a depth of 125 feet, and accommodating 2,500 persons. Its entire fittings, scenery and decorations, are now in its ample commodious, and its whole appearance is clean and elegant.

The entrance from Broadway on the ground floor leads direct to the pergolet of the Lecture Room, and to the foot of the main staircase. Up one flight of stairs are the First and Second saloons, containing the Lecture Room, the Library, the Glass-enclosed apartment with its working model engines, and the Living Curiosities. From this floor is the main entrance to the balcony of the Lecture Room.

The second flight of stairs leads to the Third and Fourth saloons, containing the scientific and antiquarian collections, which already display a large number of stuffed beasts, birds, &c., corals, shells and mineralogical specimens. The curiosities already on exhibition number over a hundred thousand. From the floor is an entrance to the Lecture Room, and a One more flight of stairs leads to the Cosmographic and Stereoscopic hall, in the middle of which has also been reunited the Happy Family. On this floor is the Shooting Gallery, in very pleasant and airy quarters.

The living curiosities, which are the attraction of the place, and the visitors had the gratification of having a familiar chat with them. The heaviest card is the "fat lady," of course. She is still ponderously blooming, and does not seem to have lost flesh, although perhaps a diminution by merely two or three hundred pounds would be scarcely perceptible. She seems to have sustained no injury from her unique adventure with the derriek on the occasion of the fire.

The giants also appeared to be in excellent condition. But the principal attractions were the fair children. The object of these young women, who have both unpronounceable and unrememberable names—does not speak English, but the youngest probably never spoke anything else. She is very pretty and intelligent—except on the subject of Cincinnati, of which she has a high opinion, and is remarkably anxious to be a native of Brooklyn, and, if she would relieve her hair of the buckram which imparts to its dust-brush appearance, would look like any other good-looking American girl.

A handsome collation was served up to the visitors on the stage of the lecture-room, in the course of the evening. Mr. Barnum has evidently fitted up his new Museum regardless of expense, and but a short time will probably elapse before it becomes as popular as was the original institution at the corner of Ann-st. and Broadway.

DESTRUCTIVE FIRE at West Troy. TROY, Tuesday, Sept. 5, 1865. A destructive and threatening fire occurred at West Troy this afternoon, below Canal-st., taking both sides of Broadway from, and including Ufford's and Lapham's Steam Planing Mill, to the Exchange, some 25 valuable buildings, making a loss of probably from \$75,000 to \$100,000, including Wiswall's Mansion House Block and other stores. The fire was stopped at the Exchange by great exertions. The Democrat Office was destroyed.

HELMHOLD'S EXTRACT BUCHU and IMPROVED ROSE WASH cures secret and delicate disorders, in all their stages, at little expense, little or no change in diet, no inconvenience, and no exposure. It is pleasant and safe in its use, and immediately in its action, and free from all injurious properties.

HERMANN'S WEDDING CARD DEPOT, No. 392 Broadway, N. Y.—All the latest and most elegant styles of Wedding and Visiting Cards, Fine Note Paper, &c.

ARTIFICIAL LIMBS—B. FRANK, PALMER, LL. D., GIVES THE BEST PATENT LIMBS TO SUIT THE WANTS OF THE AMERICAN PEOPLE. Sole Commissioned by SARGENT-GENERAL HANSEN, U. S. A.

A DRAGON OF HEALTH.

The good things of this world have each their appointed mission. It is the mission of HORTSTRA'S STOMACH DRUGS to prevent and relieve a great variety of ailments.

For twelve years its success as a protecter and remedy has been without check or drawback. It is a strong negative evidence of this fact, that the efficacy of the article as a specific for Dyspepsia, Bilio-ness, Constipation, Nervousness, General Debility, and Intermittent Fevers, has never been questioned.

As proof positive of its infallibility in such cases, the statements of public men, whose names are familiar as household words, have from time to time been given to the world. If its reputation is not founded in facts, then truth is a shadow, and the utterances of conscientious citizens are of no more value than "deers' oaths."

And what is its reputation? Let the progress of its sales answer the inquiry. Where twenty dozen bottles of HORTSTRA'S BITTERS were sold in 1855, six hundred dozen are disposed of now.

Could public opinion be more significantly expressed than by its unparalleled increase of consumption? It seems impossible. The preparation has been limited. Where are the limiters? Echo answers, "Where?" To the "limbo" of things lost on earth they are all either gone or going. Peace be with them. N. Y. Office, No. 29 Cedar-st.

THE GREAT NEW ENGLAND REMEDY. DR. J. W. POLAND'S WHITE PINK COMPOUND is now offered to the afflicted throughout the country, after having been proved by the test of eleven years in the New-England States, where its merits have become as well known as the tree from which, in part, it derives its virtues.

THE WHITE PINK COMPOUND CURES Sore Throat, Colds, Coughs, Diphtheria, Bronchitis, Spitting of Blood, and Pains in the Throat generally. It is a remarkable Remedy for Kidney Complaints, Diabetes, Difficulty of Voiding Urine, Bleeding from the Kidneys and Bladder, Gravel, and other complaints.

DEMAZ BARNES, No. 21 Park Row, F. C. WELLS & Co., No. 115 Franklin-st., General Agents for New-York.

DO NOT WASTE YOUR MONEY buying any of the numerous worthless articles called Gouls Pens which have flooded the market for the last few years, when at lower prices you can get pens which are acknowledged to be the BEST in the World.

BEAUTIFUL LIFE-LIKE PICTURES. Copies Vignette \$3 per dozen; Duplicate \$2. All negatives retained. E. A. LEWIS, No. 169 Chatham-st., N. Y.

HOWE SEWING MACHINE COMPANY.—ELIAS Howe, Jr., President, No. 629 Broadway, Agents wanted.

WHEELER & WILSON'S Lock Stitch Sewing Machine and Button Hole Machine, No. 425 Broadway.

GROVER & BAKER'S Highest Premium Elastic Sewing and Lock-Stitch Sewing Machines, No. 435 Broadway, New-York, and No. 23 Fulton-st., Brooklyn.

MARRIED. CIMMING—BLODGETT—At Muncy, Penn., on Wednesday, Aug. 23, by the Rev. Dr. Blodgett, Richard S. Cimming, of New-York, to Emily J., daughter of the Rev. H. M. Blodgett.

STEVENSON—WINANS—On Tuesday, Sept. 5, by the Rev. Dr. Dowling, Alfred G. Stevenson to Miss Julia A. Winans, all of this city.

DIED. CURTIS—In Brooklyn, on Sunday, Sept. 3, Nehemiah T. Curtis, in the 4th year of his age. Relatives and friends of the family are invited to attend the funeral, from the Pierpont-st. Baptist Church, Brooklyn, on Wednesday, the 6th inst., at 2 o'clock p. m.

CODDINGTON—On Sunday morning, Sept. 3, at Saratoga, David S. Coddington, esp. of this city, son of the late John and Ellen I. Coddington. The friends of the family are respectfully invited to attend his funeral on Wednesday, the 6th inst., at 4 o'clock p. m., from his late residence, No. 238 Fifth-ave., without further invitation.

GAVENRER—On Monday, Sept. 4, at the residence of her parents, Elizabeth M. Gavenrer, daughter of James and Rebecca M. Gavenrer, in the 26th year of her age. The families of her brothers John and Gilbert are respectfully invited to attend his funeral, on Thursday, the 7th inst., at 10 o'clock a. m., at his late residence, No. 712 Broadway. Carriages will be in attendance at the depot, 10th St., at 11 o'clock a. m. Burial and New-Haven papers please copy.

IRVING—On Sunday, the 4th inst., Minerva Delavan Irving, widow of the late William Irving. The friends of her family are respectfully invited to attend her funeral, from her late residence, No. 112 East Fourth-st., on Wednesday, the 6th inst., at 2 o'clock p. m. LOWE—On Saturday morning, Sept. 2, at her residence, No. 13 Cortlandt-ave., Brooklyn, Elizabeth Osborn, wife of James B. Osborn, in the 73d year of her age. The funeral services were held in the Episcopal Church at 100th Street and Broadway, on Monday, Sept. 4, after a distressing illness of two weeks. Frederick Abraham, son of A. A. and Lucy A. Marks.

Uterine, Spinal, Abdominal, Prolapsal and Venereal Affections cured by E. P. BANNING, M. D., at No. 113 E. Market-place, New-York, by means of his Improved MECHANICAL SUPPORTS and an Irrigating and Siphoning Treatment. Medical men and invalids may procure his brace subject.
