OPERA AT THE ACADEMY OF MUSIC.

Mozart's opera of Don Giovanni will be given this evening at the Academy of Music with the following cast: Donna Anna, Mlle. Carozini-Zucchi; Zerlina, Miss Kellogg; Elvira, Mad. Fieber; Don Giovanni, Signor Bellini; Ottavio, Signor Irfo; and Leporello, Signor Kovora.

We recognize in this cast a very happy selection of artists. Zucchi will sing the impassioned music of Donna Anna, grandly; Miss Kellogg is already known as a most charming Zerlina, and Mad. Fieber will give the best Elvira we have had for many years.

Mr. Hopkins's Matinee at Wallack's Theater proved successful. The attendance was large and the performance was very acceptable.

Mr. Hopkins played several selections, but not in a style level with his actual powers. His manner is too nervous and excited to secure the effects intended.

Mr. John Prume's Concert at Irving Hall on Saturday evening, was quite largely attended. His reputation was but little known here, but as he came from a good stock and a good school, we expected much from his performance.

THE WALLACE MEMORIAL CONCERT. The meeting called at Irving Hall, last Saturday afternoon, was largely attended by professional and other friends of the late William Vincent Wallace.

THE M'KON COUNCILMANIC CONVENTIONS. These Conventions met on Saturday evening, but failing to make any nominations, adjourned to-night, with the exception of that held in the Fifth District, which will reassemble on Wednesday evening.

County Canvassers - Fifth Day - Delinquent Canvassers - Eight Districts with no Returns Sent - The Canvassers Sent for - A Rigid Investigation Needed.

WELL TO-DAY, SICK TO-MORROW.

Such is the experience of thousands. Few enjoy continuous health. To what does the occasional invalid attribute his uncertain condition? Not to himself, of course. He lays the blame on the climate, perhaps. It is too hot, or too cold, or too damp, or too dry, or too variable. But does he take the proper course to fortify his constitution and bodily organs against the extremes and changes of which he complains? No! He says, perhaps, that only an iron man could bear such great heat, or such violent cold, or such sudden vicissitudes. Why, then, does he not resort to the great Tonic and Preventive which, if it will not make him an iron man, will at least quadruple the capacity of his system to repel all external agencies that tend to produce disease.

taken faithfully according to the directions, will so strengthen the stomach, brace the nerves, tone the liver, and regulate and invigorate the whole animal machinery, that the system, in stead of being at the mercy of the weather, will become case-hardened by every change of temperature, will become case-hardened, as it were, and almost impervious to climatic influences. It is this preventive principle that HOTTELET'S BITTERS owe their great popularity in the West Indies, British America and Australia. New-York Office, No. 52 Cedar-st.
