SUCCESSES PAST AND IN THE FUTURE. A TALK WITH EX-SENATOR DORSEY OF THE NATIONAL COMMITTEE—HOW INDIANA WAS WON—PROSPECTS FOR NOVEMBER.

Chairman Jewell, of the Republican National Committee, was not in the city yesterday. He was one of the members of the Reception Committee who met General Grant at Willimantic, Conn., yesterday, and in the parade which took place there, he marched at the head of the employes of P. Jewell & Sons, who had formed themselves into a Garfield and Arthur Club.

Secretary Dorsey, tired and worn out from his exertions in Indiana, was present in the committee-rooms for a short time only. He is confident that the Republicans will win in October.

"The battle is half over," he said. "We will carry New-York State by 50,000 majority, and every other Northern State, and break up the Solid South at the same time. The Democrats are badly demoralized as they did not expect defeat in Indiana; but we propose to keep up the fight and lose nothing by over-confidence. We will turn Democratic defeat into a rout, pursue the living leaders into their strongholds in the South, and perhaps capture the citadel of the Democracy and end this Solid South forever."

"What about Indiana in November?" he was asked. "Indiana is perfectly safe for the Republicans. Hancock will not pull as many votes as Lauderback did, if the vote of Tuesday had been cast directly for him, he would probably have polled one or two thousand votes less than Lauderback, but it will be different in November. The vote of both parties will be smaller then. Local issues entered into the State election, and brought out a full vote. The contest has been decided in the minds of the Democrats, and they will vote the Republican ticket next month. They are coming over in large numbers already."

"To what do you chiefly attribute the success won last Tuesday?" "To the splendid organization of the Republican party, which in a large measure prevented Democratic frauds, and to the credit of the Democrats, who were accustomed to carrying the State by fraud that they did not believe an honest attempt to defeat them could succeed. No such schemes of corruption were attempted by the Democrats in that State this year, but they failed because we were thoroughly prepared for them. Of course, the difference between the two parties is not the result of the records of the two parties. The prospectus times brought about by the Republican party also aided us, and the weak position of the Democrats, which was the result of the tariff question aroused the workmen, and the business men generally had everything else aside from politics, and prevented a change in the present Administration."

John C. New, chairman of the Republican State Committee of Indiana, was also present yesterday in the committee rooms, speaking of the result of Tuesday's election in Indiana in November will reach 10,000. The party in the State is so well organized and so well equipped, and the workingmen are opposed to a change. Everything is prosperous, and the people want to let well enough alone. The tariff question, the popularity of our candidates, and the success of the Democratic party backed by the Solid South, are all elements that will insure Republican success in every Northern State in November."

AN ACTIVE STATE COMMITTEE. CANVASS IN THE INTERIOR—CAREFUL WORK AND GOOD RESULTS EXPECTED. The rooms of the Republican State Committee were crowded during most of yesterday with persons seeking information and documents. The Commission conducting an energetic canvass in this State, and if the local committees are only one-half as efficient as the majority for Garfield and Arthur will be very large. Many letters are received daily giving the names of Democrats who have declared for Garfield and Arthur. Since the Indiana election the stamped from the Democratic party has increased to an extent that alarms the Democratic managers.

About 100 meetings a day are being held in the State now by the Republicans. Only a part of these, however, are under the direction of the State Committee. Secretary Vrooman returned yesterday from the central part of the State. He was present Monday at a meeting and a parade in Herkimer, which he says were the largest and most enthusiastic ever held there, notwithstanding only two days' notice was given. Chas. M. Dewey delivered a stirring address. Among the prominent Democrats who have come out in that county and declared their intention of voting for Garfield and Arthur are John Brown, of Mohawk; Dr. H. B. Babson, of Iron; and Geo. W. Wood, of Lewis. The Democratic candidate on two occasions been the Assembly by Seth M. Richmond, of Little Falls, and others. At one meeting twenty-eight Irish Democrats came forward and signed the Garfield and Arthur roll; at another meeting eleven more Democrats did the same thing. Similar reports come from other parts of the State.

The tariff issue, Mr. Vrooman says, is having a telling effect among the workingmen in the interior, and is being heightened by the utterances of General Hancock on the subject, and especially by his statement that it was only a local issue. He says he looks at the subject with a decidedly sane and sane mind to trust.

The reaction among the Irish Democrats has led the Republican State Committee to bring his name into the canvass. Mr. Wood, the Irish minor, whose speeches in that State did so much good. Mr. Wood was at the Committee rooms last night. He is a plain, honest workman, and makes no pretensions to education or oratory; but he has not only mastered the questions of the canvass, but he has a large fund of valuable experience as a Democrat to draw upon. Mr. Wood says: "I identified myself with the Democratic party long enough to do everything the party wanted me to do. I generally held the important position of a Democrat in the local committees, and I have seen the party from the inside. The Democrats are very sure to give an Irishman all the work to do, but it's a very little else he will get from them. They will give long enough to the tools of the Democratic party, and I am glad to say that I know of thousands of them who will vote for the Republican party, which has given them all the opportunities for advancement that they have ever had. The workingmen of the interior and the Irish begin to realize the fact."

DEMOCRATS PLOTTING AGAIN. A SECRET MEETING HELD IN COLUMBUS. COLUMBUS, Oct. 16.—The Democratic State Central Committee, including Democrats of this city and all districts of Ohio, about 300 in number, met here to-day for consultation. Many short speeches were made. The meeting was secret, all persons present being pledged to secrecy. Among the resolutions was one declaring that "this meeting heartily cooperates with the State Central and Executive Committees, and will do all in its power to secure their success in whatever action in their judgment may seem best to undertake in this campaign."

WEARY OF DEMOCRACY. LONG BRANCH, Oct. 16.—Good work is doing in this Democratic stronghold, but there are many who are thinking Democrats already counting on Garfield and the whole Republican ticket. The 325 business marked on the lists, shops, doors, etc., are damaging the Democratic cause.

THE CANVASS AT LARGE.
