

MUSIC AND THE DRAMA.

play for Mrs. Chanfrau, which is entitled "The Pewee Spoon," and in which he himself enacts the hero.

Mr. Denman Thompson, in his specialty of Joshua Whitecomb, will appear at the Grand Opera House this evening, succeeding Miss Annie Packer.

Signor Salvini, during his New York engagement, to begin at the Academy of Music February 19, will play the part of the Duke of Mantua in "Otello."

Netta Gunion, who has succeeded to the part in "A Partisan Romance," that was relinquished by Sara Jewett, is successful in it, and receives much commendation.

"Young Mrs. Winthrop," by Bronson Howard, with Mrs. Booth and Mrs. T. in the cast, has been the cause of public favor at the Madison Square Theatre, and will be repeated there until further notice.

Locke Richardson will make his re-entrance in New-York, at Chickering Hall, on February 24, at 11:30 a. m., beginning a series of six Shakespearean Recitations, having already crowned himself and won the cordial approbation of critical authorities.

"The Black Veils," at Niblo's Theatre, is running quite smoothly now, and it attracts large audiences. The songs are well managed, and have created for the benefit of the Royal Opera House.

The third concert of the Standard Quartet Club is at Stock Hall to-morrow evening. The programme includes the Beethoven quartet in E flat, op. 16; Haydn's quartet in G major, op. 76, No. 1; and the "Andante con Variazioni" from the Schubert minor quartet.

Lecocq's new work, under the title of "Heart and Hand," is rehearsal for early production at the Bijou Opera House. The leading soprano role of Nicolet will be taken by Miss Marianne Conway.

A London paper says that it would be absurd to claim for Mr. Robertson anything of Sheridan's brilliancy or Goldsmith's force. The peculiar brilliancy of Sheridan, to be sure, has not been equaled by any other dramatist.

FLOODS AND STORMS.

UNUSUALLY HIGH WATER AT CINCINNATI.

THE RIVER OVER SIXTY-TWO FEET HIGH AND RISING.—THE DAMAGE LARGE.—THE FLOOD CUTTING OFF THE GAS AND WATER SUPPLY.

BY TELEGRAPH TO THE TRIBUNE.

CINCINNATI, Feb. 11.—High water is not unusual in Cincinnati, but the present experience of the city is ahead of anything in that line during the present generation.

The water has reached the height of sixty-two feet and one inch, and two inches below the flood of 1847 and two feet and two inches below that of 1852, the highest recorded.

At 4 o'clock this afternoon the water put out the fires in the gas works, and the gas companies have since been unable to supply the city with gas.

The water works, which are situated on the river, are also flooded, and the machinery of the water works is being damaged.

The water is rising rapidly, and it is feared that it will reach a height of seventy feet in a few days.

The water is so high that it is impossible to cross the river by the usual routes, and the city is cut off from the outside world.

The water is so high that it is impossible to cross the river by the usual routes, and the city is cut off from the outside world.
