NEW YORK DAILY TRIBUNE. FRIDAY, JUNE 29, 1877.

New York Daily Tribune.

FONDED BY MORRIS GREENE.

NEW YORK, FRIDAY, JUNE 29.

The State Factory.

Special, from the Department of Agri-

mony.

The State Factory, at Pittsburg, is in the

process of being constructed. The factory

is designed to be used for the manufacture of

fertilizers, and will be of great benefit to the

agricultural interests of the State. The factory

will be built on the site of the old factory, and

will be of a much larger capacity than the old

one. The machinery will be of the most modern

description, and will be capable of producing

fertilizers in large quantities. The factory will

be completed in the fall of this year.

The State Factory at Pittsburg is a

notable feature in the agricultural work of

the State. The factory is designed to pro-

duce fertilizers in large quantities, and will be

of great benefit to the agricultural interests of

the State. The factory will be completed in

the fall of this year.
