New-York Daily Tribune. FOUNDED BY HORACE GREELEY. NEW-YORK, SUNDAY, MAY 3, 1885. TWELVE PAGES.

FOREIGN.—Meeting of British Cabinet. Colonel Otter has asked for more officers for the Northwest. An exhibition of "Japanese villages" burned in London.

DOMESTIC.—Troops were ordered to quell an expected riot in Joliet, Ill. The new law to close liquor stores in Boston was not enforced.

CITY AND SUBURBAN.—Arrival of the British corvette *Garnet*. Death of Benjamin B. Sherman. Infringement suits begun by Mr. Edison.

MARK WEATHER.—Tribune local observations indicate clear and slightly cooler weather. Temperature yesterday: highest, 60°; lowest, 42°; average, 49 1/2°.

Persons leaving town for the season, and summer travelers, can have THE DAILY TRIBUNE mailed to them, postpaid, for 75 cents per month, the address being changed as often as desired.

Just what Mr. Kelley's position and opinions are in regard to the Italian and Austrian Missions, and the Republican party in general, may be read in a vigorous conversation with that gentleman printed in to-day's issue.

An indication of the extraordinary plethora of money and the inability of banks to employ it profitably is found in the nomination made by the Mayor of local banks as depositaries for the city funds subject to interest at 2 per cent.

If the French Nation has acquired any prestige by its action in relation to the Bosphore Egyptian incident, it is not visible to the naked eye at this distance.

It is more or less amusing to note how the Democratic politicians talk about Senator East's criticisms on the Administration.

It is a sad fact that presentments by Grand Jurors do not always work reforms in the evil state of things which they present to the court and the public.

Mr. Gladstone is being forced to modify a good many of his opinions and theories in these days. When he came into power after Lord Beaconsfield's overthrow, he found that the

Conservative leader had left his Liberal successor to provide for a large deficit in the Treasury. Then Mr. Gladstone declared with much vigor that the expenses of the present should not be thrown on the future in that way. He has said a good deal on the same point several times since; and yet only last week he allowed Mr. Childers, Chancellor of the Exchequer, to propose to divide the deficit of \$75,000,000 between the current year and the future.

Mr. James Anthony Froude is never uninteresting either in speaking or writing, and his talk with a TRIBUNE reporter, printed on another page, will be read with attention. It contains much valuable information in regard to the difficulties of the British in South Africa. The problem of Australian Federation is also discussed, and facts and comments are mingled in an attractive manner.

A PARALLEL WITH A POINT.

The action of the Administration in protecting American rights on the Isthmus has been heartily commended in these columns. Secretary Whitney took a broad view of the obligations of the Government to maintain freedom of transit and displayed courage and sagacity in dealing with the insurrectionary forces and the Colombian authorities.

DANGERS OF HIGH HOUSES.

Tall apartment-houses are condemned by sanitarians on various grounds. In the first place, they prevent a free admission of air and sunlight to the streets and houses adjacent. When the street is 60 feet wide a building 155 feet high will cast a shadow 110 feet high on the opposite side, with the sun thirty degrees above the horizon; a building 142 feet high casts a shadow of 98 feet; a building 128 feet high one of 84 feet.

CHANCES OF ARBITRATION.

Arbitration is the peace-maker's last ditch. It has been occupied by the diplomatists on both sides since the official contradiction of General Komaroff's advance to Maruchak. The czar is again represented as making pacific overtures through Baron de Staal and the British Ministry are credited with a proposal to submit the Penjdeh outrage to the arbitration of a European sovereign, presumably the King of Denmark.

THE COMING YACHT RACE.

New-York yachtsmen, as will be seen in an article appearing in another column of to-day's TRIBUNE are almost unanimous in predicting the failure of the sloop *Paritan*, now being constructed in Boston for competition in the trial races which are to determine what boat shall represent this country in the great contest next September for the America's cup.

weight, is apparently a well-looked objection. A boat that is narrow and deep has no room for a proper distribution of ballast inside, and its position on her bottom is a positive advantage in adding to her speed. But experience does not favor the notion that this result follows in a broad boat.

TURNING A DEFENDANT INSIDE OUT.

The terrors of incarceration for debt in the old Fleet Prison, in London, have been graphically described by many writers, and the wretched lot of poor prisoners whom unrelenting creditors throw into Ludlow Street Jail is familiar to readers of the New-York press.

MR. SCHUYLER ON THE AFGHAN DISPUTE.

An interesting article by Mr. Eugene Schuyler on the Anglo-Afghan dispute appears in to-day's TRIBUNE. It is well to examine both sides of every question, and Mr. Schuyler presents what is in the main the Russian view of the case. Many of his statements are open to question, especially that concerning the occupation of Penjdeh by the Afghans.

The Commercial Cable Company will not declare a dividend from the proceeds of the cable accounts of the Royal Academy exhibition in Thursday's *Times*, and of the Salon in Friday's *Herald*.

THE TALK OF THE DAY.

We fancy a very distinct impression was left on Mr. Cleveland's mind after Colonel Watterson's visit the other day that there really is such a State in the Union as Kentucky.

THE HELLISH (IRELAND) EMINENCE.

The *Herald* (Ireland) *Emminence* gave lithographs of General Grant with a recent issue, showing the interest taken in the hero's struggle even across the water.

THE LAST SOURCE TO APPLY TO.

When Republicans are in need of money, they are likely to exhaust the other sources of information before asking the *New-York Times*.

A CORRECT IMPRESSION.

The *New-York Times* was not making money, but it was not making a loss, and now the *Journalist* could not be so sure of its ground.

THE LOWER-PRETTIERS' ORGAN AGAIN.

The *New-York Times* has taken the place of the *New-York Herald* as the administrative organ of the lower-prettier party.

ONE SECRET OF THE "POOR PREACHER" - POOR PAT.

The effect of the last publication of the *Journalist* is to be seen in the *Times* and *Herald*, but as the *Times*' circulation and business fell away, it pays the same very large salary to its editor.

whiteness. If it cannot be done by running up the flag on the Interior Department on the day of his death, it will be done by the liberal use of ex-Confederate whitewash.

PERSONAL.

Clarence A. Freeman, the checker champion of America, is twenty-six years old. He claims direct descent from the Pequot Indians.

THE EMPRESS OF AUSTRIA AND HER DAUGHTER.

John B. Gough and Francis Murphy have been working together in temperance meetings in Pittsburg.

THE HON. SAMUEL J. RANDALL.

Secretary Endicott has his eye on Newport as a pretty good place to spend the summer.
