

FOLLOWING OUT SEQUENCES

JAMES McLAUGHLIN HIMSELF AGAIN.

GARRISON AT SARATOGA TO CHANGE HIS LUCK—HAYWARD'S ENGLISH IDEAS.

As betting is the soul of racing, it is interesting to continue the analysis of the sequence system as applied to some famous jockeys, and also to look back over the week to see how followers of favorites came out of the ring at Saratoga. Garrison lost three on Tuesday and Thursday departed for Saratoga to change his luck. There he hunted the middle of California and lifted Brighton Beach to the seventh heaven. He had only six mounts in the course of the week, losing five races and winning two. He couldn't help winning with Kiergh, for the Dwyer colt had nothing to beat. Mr. Baldwin kindly removing a little obstacle of the size of Emperor, of Norfolk from his path to victory. Not could the "Snapper" win but the racer which Royal Arch won from Volante. The latter was decidedly off, while the Brighton Beacher was prepared for the race by the use of every device known to the wily magicians who hold sway over the destinies of sawed-off pliers which exhibit in and out of season on the cooling stands of Coney Island.

Reference to this column of a week ago will show that the last sequence of the preceding week lacked one mount of completion, and an investment of \$5 on Garrison's first mount on Tuesday was required to follow out the principle. Placing the sum out on the sequence appeared, losing \$32 as the result. There it stands now. Now to go to the next two races at Saratoga. Park and three at Saratoga. This is their order (W stands for won, while O means lost):

O, W, W, O, W.
You lose \$15 on Freeborn and Mona, and invest \$20 on Kingfish on Monday. On Himalaya you drop another \$5, following by placing \$10 on Royal Arch and cashing in a clear profit of \$120. Sequence run out—gain \$130, lose \$20, net profit \$110. Cash capital required \$35.

McLaughlin wound up the week before last losing his followers two mounts with which to complete a sequence that he had started to run out. He left them \$15 out and made it necessary for them to invest \$20 on Sea Fog— which they lost— and \$40 on Dry Monopole, which pulled them out nicely, the little boy colt paying 3 to 1. Sequence run out—gain \$120, lose \$35, net profit \$85. Cash capital required \$75.

Pursuing the next sequence, these are his mounts in their order:
O, W, W, O, O.
Losing \$5 on Ten Booker you invest \$10 on Eurus at 6 and 1 and win \$60. Then \$5 on Hanover wins \$1, and \$5 on Boss wins \$5, following by a loss of \$5 on Fordham. Sequence run out—gain \$66, lose \$10, net profit \$56. Cash capital required \$15.

The next sequence is incomplete, there being only four mounts, but so far as they go they represent a loss of \$75 and make it necessary to invest \$80 on McLaughlin's first mount on Tuesday. This is the way the sequence stands:

O, O, O, O.
O's represents successive losses on Dry Monopole, Ten Booker, Britannia and J. W. White. It was made apparent by his riding last week that McLaughlin is getting back his form, or his luck as the superstitious say. It is inconceivable that he should have had such a run of bad luck as he has had since he was taken to the hospital. Although he is often censured for losing a race, yet his most captious critics know in their hearts that he always does his best to win.

Having done with McLaughlin and Garrison let the sequence follower turn his attention for a moment on Hayward, who is again regularly in the saddle. Somehow or other there is an overpowering sense of force in Hayward's name. If you didn't know the man you saw him run up opposite the number of any horse on your programme, because it looks so bold and strong and victorious. No one of the uninitiated hundreds who go to the races could say great things of such names as Elk, Anderson, Davis, Lewis, Bafferty and West, but Hayward's name has a peculiar respect which his name inspires. This is their order for last week:

O, O, O, O, O, O.
This array of O's is not encouraging. Hayward is too tender-hearted. American race-goers do not glory in the brutal punishment of a horse, but they do like to see the rider of a horse, willing to die for him. In the case of Hayward it is not a matter of life and death, but it is a matter of honor. If his most vicious critics would rather see him persevere to a reasonable extent, when McCarthy rode Favor in the Long Branch Handicap and was unable to get through the race, they would rather see him persevere to a reasonable extent.

It is customary for jockeys to remove their caps when they address the judges. Many persons have called the writer's attention to the fact that McLaughlin has exceeded the steps of the judges' stand to make complaint of Williams for fouling Kiergh. He did not take his hand from the reins until he had done so, and confirmed McLaughlin's charges. Kiergh's cap as he took passed the lowermost step and stood bareheaded under the eyes of the judges. Williams was called up to answer, but too, removed his cap.

The Bard goes to Saratoga to-day for his health. The colt is entered for the Excelsior Sweepstakes to be run on Thursday. In it will be met by Volante. Both horses are said to be a little "off" and will therefore meet on a level. The race will be a close one, and it is expected that the winner will be a surprise.

Mr. Baldwin's speedy little Los Angeles will have to carry a ten-pound penalty in the Golden Stakes at Saratoga on Tuesday for winning the Lasalle Stakes, making her weight 120 pounds. It is expected that she will be a heavy favorite in the race. There are other young horses who are expected to be in the race, but they are not so well known as Los Angeles.

There is no reason why the mighty Hanover should not take up 128 pounds and gallop off with the Stevens Stakes on the same day. Kingfisher is also entered, but he is not so well known as Hanover. It is expected that Hanover will be a heavy favorite in the race.

There is some interesting gossip about the Derby winner, Merry Hampton, who is expected to win the Derby on September 5th. It is said that he is a very good horse, and that he is expected to be a heavy favorite in the race. It is also said that he is expected to be a heavy favorite in the race.

There was a very little later betting in 1888, and still less now. It is expected that the Derby winner, Merry Hampton, will be a heavy favorite in the race. It is also said that he is expected to be a heavy favorite in the race.

BETTER WORK BY NEW-YORKERS.

SOMETHING IMPROVES THE LOCAL CLUB.

RECORDS OF THE BASEBALL LEAGUE AND ASSOCIATION—A SUNDAY GAME AT RIDGEWOOD. Judging from the few games played since the change in the captaincy of the New-York club was made, the nine has been benefited in every respect by the new plan. Whether the change for the better will be permanent or not is something which no man can predict with any degree of accuracy. When the change of captaincy was made, the club was in a very poor condition, and it is to be hoped that the new plan will result in a permanent improvement.

The Chicago club, by losing, steadily playing fought its way from sixth to second place in an extremely short time. The local club has much more time in which to improve its present position. Owing to the injury to Welch and the poor scores of the young pitchers the club has suffered considerably. Welch is all right again and with the addition of Morris, the left-handed pitcher, the club ought to have no more trouble in getting its pitching department in shape. It will play only two more games in the West. It will also play at Boston and Philadelphia before it will be seen at the Polo Grounds again. Should the club make a good record on the trip and improve its present position it will get a hearty reception on its return to New-York.

There is sorrow in the camp of the followers of the Wolverines. The Detroit nine continues to hold the lead, but by such a small margin that critics predict that the nine will take a lower position in a few days. The club places poor pitching for its recent defeats, but poor base running and indifferent playing generally are more to be blamed. The Detroit men returned to home grounds Saturday and celebrated the occasion by defeating the Chicago players to defeat them with comparative ease.

The date Detroit has forty-one victories out of sixty-five games played. The Chicago club is close behind with thirty-nine victories and only twenty-five defeats. The Boston club comes next with the same number of victories as Chicago but with one more defeat. The New-Yorkers occupy fourth place and have won eight games but have lost thirty-one.

The complete record is as follows:

The Eastern clubs have for once more held their own against their Western rivals. Another series of games is being played at the Polo Grounds on Friday and Saturday. The Chicago club has a very good record, and it is to be hoped that the new plan will result in a permanent improvement.

All the American Association clubs are in the East at present, and the season is well advanced. The season is well advanced, and it is to be hoped that the new plan will result in a permanent improvement.

Unlike the League the Western clubs do not have much better work in the American Association games than their Eastern rivals. The season is well advanced, and it is to be hoped that the new plan will result in a permanent improvement.

THE TESTIMONIAL TO J. M. WALL.

OVER A THOUSAND DOLLARS, A DIAMOND RING AND COMPLIMENTARY SPECIMENS.

Some Irish and American flags, a diamond ring, a testimonial to J. M. Wall, and a complimentary address were presented to J. M. Wall at a public dinner given in recognition of his services to the Irish cause, and as a token of sympathy with him on account of the murderous assault made upon him by the Orangemen of Canada, whilst he was on a special correspondent of THE TRIBUNE last May in company with William O'Brien, M. P. Bryan O'Meara presided and began the proceedings by a complimentary address to Mr. Wall, delivered by Mr. Wall and his family.

It looked so sad at one time for our friend Wall, during his stay across the border, that he had been to see a deputation of the Orangemen, and that he had been to see a deputation of the Orangemen, and that he had been to see a deputation of the Orangemen.

As Mr. McSwyny finished his address he was applauded by the audience. He then turned to the speaker and said that he was very glad to see the Orangemen, and that he was very glad to see the Orangemen.

Among those present were Michael Giblin, Judge Edward Brown, Amos J. Cummins, Justice Justice John C. McSwyny, and others. The dinner was a very successful one, and it is to be hoped that the new plan will result in a permanent improvement.
