OUR INCREASING SALES PROVE
The popularity of our Real Estate Clothing.
They are imported from our own mills.

New York Daily Tribune
FOUNDED BY HORACE GREELEY.
MONDAY, NOVEMBER 14, 1887.

THE NEWS THIS MORNING.
FOREIGN.—Socialists of London attempted to force their way into Trafalgar Square and were resisted by the police.

DOMESTIC.—The funeral of the Anarchists in Chicago was conducted quietly; the music consisted of dirges, though the bands also played "The Marseillaise" and "Annie Laurie."
CITY AND SUBURBAN.—Dr. Smith, Health Officer of the port, replied to Mayor Hewitt's criticisms upon the management of the Quarantine Station.

The abolition of "honors" at Cornell University, which has just been agreed on, is apparently in line with the policy which has been growing in favor of late among our colleges of throwing the students upon their manhood instead of treating them as school-boys.

The five dead Anarchists were buried yesterday. Everything was done decently and in order, and while the attendance was large there was no disorder. What effect this public funeral will have upon the cause which the executed men represented is a question that the future alone can answer.

Secretary Lamar is said to have been assured that his nomination for Justice of the Supreme Court will be confirmed without reference to the Judiciary Committee. Attention is called in one of our Washington dispatches to the fact that Caleb Cushing when nominated to the Supreme Court bench in 1874 was not confirmed because he had once addressed a letter to "President" Jefferson Davis.

Health Officer Smith has made an elaborate answer to the criticisms and complaints concerning the Quarantine management at this port. It is given in the form of a letter to Mayor Hewitt and will be found in full on the second page. That the buildings and equipments generally at Quarantine were not in condition to meet such an emergency as the coming into port of a cholera-infected vessel was not, he says, the Health Officer's or the Quarantine Commissioners' fault.

Lamentable results followed the collision between the police and military in London yesterday, and the Socialists who were determined to hold a meeting in Trafalgar Square. The right of the authorities to close the square for such purposes seems clear, and the wise thing for the members of Radical clubs and sympathizers with them to do under the circumstances would have been to yield to the mandate despite their claimed right to hold a meeting.

The right of the authorities to close the square for such purposes seems clear, and the wise thing for the members of Radical clubs and sympathizers with them to do under the circumstances would have been to yield to the mandate despite their claimed right to hold a meeting.

lead to further and perhaps more serious trouble.

The necessity of some means of relieving the overcrowded condition of Broadway has long been apparent, and it has been under consideration by the Board of Street Openings for a considerable time. Just how the matter stands is thoroughly summed up in an article which we print to-day. As everybody knows, the two plans for providing a parallel street which can receive the overflow from Broadway are to extend Centre-st. to Lafayette-place or to widen Elm-st. and continue it through Lafayette-place to Fourth-ave.

MR. LAMAR AND THE SUPREME COURT.
The known strength of loyal feeling throughout the Northern States justifies the assertion that the semi-official announcement of President Cleveland's purpose to appoint Secretary Lamar to the vacant place on the Supreme Court bench has been received with a distrust and disfavor which have not yet found adequate expression.

When we turn to Monroe, Chemung, Rensselaer and Washington, the territory of successful fraud is reached. The total vote in these four counties was 915 more for Cook than for Cleveland, and 12,389 less for Grant than for Blaine. The labor vote in these counties was only 265 larger than the vote for Butler, and the Prohibition vote increased 1,841.

As Mr. Lamar was among the first to organize rebellion, so he is evidently determined to be among the last to learn the lessons of defeat. He has upheld, shared in and personally profited by the fraud and violence which in his own State and throughout the South have converted popular elections into a farce and republican government into an oligarchy.

But passing by his eager and persistent disloyalty; leaving out of consideration his active hostility to the operation of those Constitutional Amendments which he hopes to be presently sworn to defend; forgetting, even, for the moment those infirmities of conscience and temper to which he once invited the attention of the country by a gross and insolent defiance of the court at whose bar he stood as attorney and officer, there is no man living to-day—judge, counsellor, client or acquaintance—who has any reasonable ground for supposing that, merely from the professional point of view, Mr. Lamar is fit to sit upon the Supreme bench.

A grave responsibility will shortly rest upon the United States Senate. It will be the duty of that body to confirm the nomination of a man to fill the vacancy in the Supreme Court caused by the death of Mr. Justice Woods. It will not be the duty of that body to confirm the nomination of a man who is inherently incapable of filling that vacancy.

POLICE BRUTALITY IN BROOKLYN.
Policeman O'Dea, of Brooklyn, has got himself into serious trouble. He has been put under arrest for causing the death of Edward Smith on the night of Sunday, November 6. According to O'Dea's own statement, his assault upon Smith was wholly unprovoked. Smith was much the smaller man; he was making no unusual resistance to arrest; the policeman had not deemed it necessary to draw his club in order to defend himself.

for him to use violence, and a judicious application of the club may be needed. In this case the offender was not boisterous or belligerent; and yet O'Dea, to use his own language, "struck him for all I was worth—that is, with all my strength." It is apparent that there should be no place on the police force for a man of such brutal instincts, and it will be a failure of justice if O'Dea is not sent to prison for manslaughter.

THE RESULT.
Democratic majority 19,000; Republican party all gone to pieces and demoralized. That is the comment of Democratic papers on the late election. Either they have no honesty, or they have not sense enough to read the meaning of a victory when they have won it.

In fifty-four counties of this State, excluding New York and Kings, Monroe, Chemung, Rensselaer and Washington, the plurality for Blaine in 1884 was 18,749, and the plurality for Grant this year, according to latest returns, is 59,293. The plurality for either candidate was several thousands larger.

The monthly statement of iron output again shows an increase, the New-York account indicating a gain of 2,180 tons per week, and the Pittsburg account a gain of 1,200 tons per week since October 1. By either statement, the yield is greater than at any previous time, and the increase in weekly output since a year ago is about 23,000 tons.

THE SOCIAL SEASON IN ROME.
The allusion is not to the Rome that sat on her seven hills and from her throne of beauty ruled the world, but to the Rome that is now a city of mud and brick, a city of squalor and degradation.

THE TALK OF THE DAY.
Clarence W. Smith of Norfolk, Conn., returned from the wilds of Virginia a few days ago, whither he had been in connection with railroad building.

THE TALK OF THE DAY.
Clarence W. Smith of Norfolk, Conn., returned from the wilds of Virginia a few days ago, whither he had been in connection with railroad building. He says that if anybody thinks that the kind of work is a "snapp" he must be made of iron and not particular about what he eats or drinks.

during the past two months has been by no means indicative of a short supply; indeed, it might fairly be inferred, from the exceedingly rapid movement of cotton to market, that the supplies on hand at the South were known to be larger than the market has expected. It is to be said, however, that the estimates of the Bureau have been a great many times disputed by those interested in various trades, but have hardly ever as yet been found more reliable than other estimates.

THE OFFICIAL REPORT OF COTTON EXPORTS FOR THE MONTH OF OCTOBER IS WORTHY OF SPECIAL NOTICE, as the movement was probably the largest ever recorded in any month, showing an increase of 30 per cent in pounds and about 30-1-2 per cent in value over the exports for the same month last year. Somewhat unexpectedly the oil exports also show an increase of 6 per cent for the month in quantity and about 7 per cent in value.

PERSONAL.
Mr. Archibald Forbes is repatriating health and will spend most of the winter in Washington with General Meigs.
The elevation of Mr. John Macdonald to the Senate (in Canada) is remarked upon by "The Toronto Mail" as a notable event; for never has a gentleman differing in politics from the Administration of the day been elected to sit in the Upper Chamber.

PERSONAL.
The late Walter Hargrove, assistant professor of Pathology at Yale, was Professor Marsh's right-hand man in his famous "home-tuning" expeditions on the great plains of the West.
Mr. Gladstone has in his library three desks. At one he transacts public business, at another he conducts his private correspondence, and at the third he commences his "improving" hours.

sion from Mexico, Great Britain, France, Germany, Italy, Spain, Australia and Central America, encouraged by Postmaster-General Vilas's un-American policy, are extending aid to steamship lines running to the United States under foreign flags. The war cry of this Administration seems to be: The American merchant marine must go down!

The probability that any one will be punished for the railway disaster at Kouts, Ind., seems small. This is partly due to the law of that State, which provides no penalty for criminal carelessness. This accident was directly caused by gross carelessness, and it is extremely unfortunate that those responsible for it are to go free.

Such facts as were brought out in the Essex Market Police Court on Saturday leave little room for doubt that the accused members of the Board of Walking Delegates, five in number, were guilty of unlawfully conspiring to injure the business of a firm of builders. They attempted to enforce a boycott against the firm, whose workmen were on strike, and according to the evidence, caused a strike, in at least one concern which supplied the firm with material and which had refused to stop doing so at the dictation of a committee representing the strikers.

PERSONAL.
Prince Bismarck is a wily diplomatist and peace-maker, but the fine old doctor's quarrel over the Crown Prince's title will baffle his skill and patience. If the eminent surgeon whose fingers are fairly itching to perform operations upon the royal larynx can be kept from cutting the throats of one another, Berlin diplomacy will exhaust its resources.

to his feelings in bark. And on the morrow the strophograph's report of the speech had at various points the interpolation (blacking on the back sheet) (Boston Transcript).

Some Canadians want a piece of the State of Maine. Says "The Montreal Gazette": "The conviction of most of those who have studied the subject is that England was wrongfully deprived of a considerable portion of the State of Maine."

"Did you profit by the change?" was the question asked of a New-Yorker who has just returned from Southern California. "Not so much as the land boomers out there," was the reply. "They got all my change."

MUSIC—THE DRAMA.
ORCHESTRAL CONCERTS.
Three orchestral concerts under the direction of Mr. Thomas may be enjoyed by the lovers of instrumental music this week. At the first, on Tuesday afternoon in Steinway Hall, Mr. Thomas's band will be employed in the second and third it will form a part of the Philharmonic Society, whose first public rehearsal is set down at the Metropolitan Opera House for Friday afternoon and first concert for Saturday evening.

MUSICAL NOTES.
"Siegfried" will have two representations at the Metropolitan Opera House this week—on the evening and Saturday afternoon. The repetition on last Friday evening was heard by a more numerous and more enthusiastic audience than on its first performance, and the indications are that Director Stanion and Conductor Seidl will not be disappointed in their expectation that with it they will repeat the successes which last season they achieved with the aid of "Tristan and Isolde."

DRAMATIC NOTES.
The fresh dramatic features of the present week at the New-York theatres are the following: "Loyal Love," at the Fifth Avenue Theatre; "The Broomstick," at the Grand Opera House; the revival of Robertson's comedy of "School," at Wallack's Theatre, which will be effected on Tuesday night and which will involve the re-entrance of John Gilbert; Mr. Irving's presentation of "Louis XI," which will be made at the Star Theatre on Saturday night, November 19; the advent of the minstrels of Messrs. Swanson, Ross and Fagan, at Niblo's Theatre; the transfer of "The Head Road" from Niblo's to the Fourteenth Street Theatre, where Mr. Denman Thomson will remain for several weeks; the re-entrance of that unique and representative American actress, Clara Morris, at the People's Theatre, where she will play a role of the "Miss Wicks" part; Mr. Warfield's production of "The Two Orphans" at the Grand Opera House; and Mr. Doxat's production at a minstrel theatre of a travesty of "Faust."
